LOW
PRICES

Be Sure to Read these Few Words About Our **RELIABLE NORTHERN GROWN SEEDS**. It has oftentimes been said that, "besides good seeds, good gardeners are necessary in producing a satisfactory crop." We all know how true this is. A great many contingencies may arise to prevent the best seeds from giving satisfaction; and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore, we do not warrant in any way, express or implied, the contents, or the description, quality, productiveness, or any other matter of any seeds, bulbs, or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on the above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

INSTRUCTIONS FOR ORDERING

How to Send Money. By Registered Letter, Post Office Money Order, Bank Draft or Express Money Order. Two-Cent Stamps accepted for small amounts.

We Prepay Shipping Charges on everything quoted in this book except on goods listed on our wholesale pages, Machines and Implements, and in cases where specially noted, sent by Express or Freight at purchaser's expense.

Write Your Name in Full. Postoffice, County and State clearly and distinctly, also your shipping point, if different from Postoffice, on every order.

Make Your Order Very Plain. The same as you would to make out a bill. Orders mixed with questions and not properly made out are apt to be delayed.

Correspondence. Have endeavored to make everything as plain as possible in this Catalog, but in case further information is desired, make your wants known in as few words as possible, and on a sheet of paper separate from the order, giving your complete address and enclosing stamp for reply.

Order Early. As we are handling upwards of 5,000 orders each day during March and April, we would request that you send us your order in January or February whenever possible, as you will greatly help us by so doing. All orders are, as a rule, however, shipped same day as received.

SPECIAL
1912

WHOLESALE PRICE LIST

To Large Planters
Terms: Net Cash

At prices quoted in this list, purchaser must pay transportation charges. No charge for bags or boxes.

If wanted by mail, add for postage at the rate of 10 cents a pound and 15 cents per box.

Most all Varieties of Seed are Scarce This Year—Order Early. On a number of varieties such as Beans, Beets, Carrots, Peas, Turnips, Vine Seeds, Tomatoes, etc., we can accept orders only in connection with other seeds. It is our purpose to protect as usual, the thousands of customers who annually look to us for a general supply of seeds.

Northern Rust-Proof Wax Bean

Our own original stock, unequalled in size, color and quality of pods, and **Superior to all others.** Still continues **The Standard Wax Variety for General Use.** A Bean that possesses all the good points of the old favorite Golden Wax, but is larger in pod and much more prolific. Handsome appearance, being of a dark, rich yellow color and of perfect shape. Of grand quality, showing no string or coarseness even when past its best; is of tender and melting flavor at all stages of its growth. So exceedingly prolific, it is not injured by Bean rust. For market gardeners of private families no better variety can be planted. **Large pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.**

New Stringless Green Pod Bean

Is most happily named, as it is quite unique—the only absolutely stringless green-podded Bean in the market. Pod is round, full, larger and straighter than most varieties. The Michigan State Agricultural College Experiment Station writes: "Plants of medium growth, pod 4½ to 5½ inches long, nearly round, slightly curved, light green, flesh tender and of best quality. Pods remain long in edible condition, even when the Beans are not stringy." **Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 34c.**

Giant Erfurt Bean

Giant Erfurt Bean

Enormous Pods, Beans of
Delicious Flavor
Early Prolific

This new variety has from five to nine Beans of large size and delicate flavor. The plant is of robust, upright growth, entirely different from any of the ordinary varieties of Beans. Pods measuring 10 to 12 inches in length are not uncommon and they are broad and of handsome appearance. They are harder than most varieties of Beans and may be planted earlier in the season. Plant in rows about two feet apart and 6 inches apart in the row, covering 1½ to 2 inches deep. **Pkt. 8c.**

FOR OTHER BEANS SEE
PAGES 4, 21, 22, AND 23

New Improved Bush Lima Bean

Has all the Good Qualities of the Pole Lima

Produces More Beans to a Plant, and More Plants to the Acre than Any Other Bush Bean Ever Grown

In size it is what might be termed intermediate; not so large as the Burpee Bush Lima, but considerably larger than Henderson's Bush Lima, making it the finest size for all purposes. The bush is sturdy in habit and about 24 inches high, having good, large leaves; it bears its fruit on long spikes in heavy clusters well out from the plant. There are several pods in each cluster—as many as 10 having been counted. Each pod contains on an average of four Beans, though there are more containing five than three so you see that it is a great improvement over the old-fashioned Bush Limas, which oftentimes have only one or two in a pod. Considering the large number of pods on a bush, the yield is amazingly enormous. In quality the Bean is par excellence, flavor unsurpassed, and color the very best before and after cooking. Extremely early variety; a continuous bearer; very vigorous, upright grower. They can be grown and gathered much more easily than the Pole Limas. Every home garden should have at least one planting of these Beans which we have been many years perfecting, and can recommend them to our hundreds of thousands of friends and customers as being **The Very Best**. Send to **The Great Northern Seed Co.** for originator's stock seed; we control the entire product of this new variety, which cannot be secured elsewhere. **Pkt. 7c.; ¼ pt. 15c.; pt. 25c.; qt. 40c.**

New Improved Bush Lima Bean

For Other Varieties of Beans
See Pages 3, 19, 21, 22 and 23

New Half Long Blood Beet

This is an entirely distinct variety and by far the best for Winter use. The roots are about one-half as long as the Long Dark Blood, but on account of their thickness weigh quite as much. They are always smooth and

handsome, and the rich, dark red flesh is very sweet, crisp and tender never becoming woody even in portions above the ground. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 28c.; ½ lb 55c.; lb \$1.00.**

Best of All Beet

Dark Red, Perfect Shape, Fine Keeper, Quick Grower, Best Flavor, Extra Sweet, Never Woody. This variety was introduced as an improvement in Turnip-shaped Beets

for table use, and we have, by careful selection, improved each succeeding crop, until we feel certain that it is by far the best Red Turnip Beet in cultivation. **The Best Beet**. Not only for market gardeners, but for the home garden. Tops small, upright, growing so that the rows may be close together; leaf, stems and veins, dark red; blade green; roots globular or ovoid; particularly smooth; color of skin dark blood red; flesh bright red, zoned with a lighter shade; very crisp, tender and sweet. **Large pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb 35c.; ½ lb 65c.; lb \$1.20.**

Best of All Beet

New Swiss Chard or Summer Spinach

A great acquisition. The stalks are as thick and broad as Rhubarb. The plants grow to a height of from 2 to 2½ feet, and the stalks are from 10 to 12 inches long below the leaf and 1½ inches broad. They are prepared and served in the same manner as Asparagus. The leaves are used for "greens," considered by many superior to Spinach for this use. **Pkt. 4c.; oz. 10c.; 2 oz. 18c.; ¼ lb 30c.; ½ lb 50c.; lb 90c., postpaid.**

Half Long
Blood Beet

Lightning Express Cabbage

See Page 26
For Other
Cabbage

Northern Giant Flat Dutch Cabbage

Lightning Express Cabbage

The Best Early Cabbage Ever Introduced. The whole plant is finely bred; there is no suggestion of coarseness whatever. It has the peculiarity of heading firmly at an early stage in its growth, so that the finest Cabbage, though small, can be obtained long before it has attained its natural size. Ready to use in sixty days from time of planting. Heads of good size, weigh from 8 to 13 pounds, have but few outside leaves, and therefore may be planted very close together and yield large crops; always of fine flavor and very solid. We control the entire stock of this earliest of all varieties. **Large pkt. 5c.; oz. 20c.; 2 oz. 35c.; ¼ lb 65c.; ½ lb \$1.25; 1b \$2.00.**

**SEE PAINTING FROM NATURE ON
FRONT COVER**

Harvest Home Cabbage

A Superb sure-heading Winter Cabbage of most distinct type.

The dark green color proclaims it a vigorous grower. The stalks are short and it heads up close and solid. Heads average 12 to 15 lbs. Fifteen tons an acre is not an unusual yield and greater results have been obtained under favorable conditions. We recommend it to anyone desiring the best Cabbage for fall and winter keeping. **Pkt. 5c.; oz. 18c.; 2 oz. 35c.; ¼ lb 60c.; ½ lb \$1.10; 1b \$2.00.**

Danish Ball Head Cabbage

Extra Selected Danish Grown Seed. The heads, which are of medium size, average a weight of about 8 pounds, are very solid and deep, and of a fine white color. Their quality is superior, the heads being just as solid and perfect when taken up in the Spring as when put away in the Fall. **Pkt. 5c.; oz. 20c.; 2 oz. 35c.; ¼ lb 60c.; ½ lb \$1.10; 1b \$1.95.**

Northern Giant Flat Dutch Cabbage

Long Keeper; Good Shipper

Heads are large, heavy, solid, flat on top, and of a bluish green color, low growing, with short stem and comparatively few outer leaves. The quality is fine and the flavor excellent, heads being white when cut and inside leaves crisp and tender. Our seed has always been American-grown, coming from the celebrated Long Island districts, and whoever purchases our Northern Giant Flat Dutch may be assured of getting the best. It is everywhere a favorite market variety. **Large pkt. 10c.; oz. 30c.; 2 oz. 50c.; ¼ lb 90c.; ½ lb \$1.60; 1b \$3.00.**

Autumn King or World-Beater Cabbage

For Fall and Winter Use

An extremely large and solid heading variety. Plant is of extra strong growth, with dark bluish green leaves growing closely about the large flattened heads. In good soil it will produce heads of enormous size, but requires a longer season for growth than do the smaller varieties. With us, seed sown the first of June will produce fine heads in time to put away for Winter. **Pkt. 4c.; oz. 12c.; 2oz. 22c.; ¼lb 40c.; ½lb 70c.; 1b \$1.30.**

Premium Late Flat Dutch Cabbage

This is the money-maker among the late Cabbages for the gardeners, and for family use it ranks high. Heads are large, sound, very solid, broad, flat on top and a beautiful bluish green color, with but few outside leaves. Quality is fine and flavor excellent. **Pkt. 3c.; oz. 12c.; 2 oz. 20c.; ¼ lb 35c.; ½ lb 65c.; 1b \$1.10.**

New Early Sunrise Sweet Corn

New Early Sunrise Sweet Corn

The Earliest and Sweetest of all Sugar Corn. A very early Sweet Corn with pure white grain, very tender and of excellent quality. The ears are eight rowed, six to seven inches long and of the medium size found most suitable for the table. The flavor is exceptionally rich and delicious. Our stock has been very carefully selected. **Postpaid, pkt. 7c.; ½ pt. 14c.; pt. 22c.; qt. 38c.**

Golden Bantam
Sweet Corn

Golden Bantam Sweet Corn

Most Delicious in Flavor

A very early Sweet Corn with golden yellow grain, very tender and of excellent quality. The ears are eight rowed, 6 to 7 inches long and of the medium size found most suitable for the table. **Postpaid, pkt. 6c.; ½ pt. 10c.; pt. 17c.; qt. 30c.**

See Page 30 for other Sweet Corn

New Early Illinois Sweet Corn

New Early Illinois Sweet Corn

Early, Prolific, Sweet, Tender, Good Size. None earlier with the possible exception of our First-of-All variety. Our own introduction. Thousands of our customers have written telling us how well pleased they were with this fine new sort. Ears are of medium size, well filled with broad, long grains to the very tip. Many of the ears contain 10 to 12 rows of fine, sweet and finely flavored kernels of good quality. Remains a long time in condition to use. **Price, postpaid, large pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 30c.**

New Honey Sweet Corn

An exceptionally fine variety for seed and early use. The husks and stalks are a deep red color, the Corn is of a beautiful creamy white color, and has the deepest grains, smallest cob of any known variety. Fine quality. **Postpaid, pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 28c.**

New Honey Sweet Corn

New Columbia Celery

New Columbia Celery

The Finest of all for Winter Use

An early maturing sort unsurpassed in shape and quality. Plant is of medium height but very stocky and heavy. Stalks are thick, almost round, resembling in shape those of the Giant Pascal; the color has the rich yellow tint of Golden Yellow Self Blanching, which variety it resembles very much when trimmed and bunched for the market. Pkt. 5c.; oz. 35c.; 2 oz. 65c.; 1/4 lb \$1.25.

Asparagus Chicory

Asparagus Chicory

A good healthy and tasty substitute for the well known "Asparagus" and can be produced from seed planted the first year in abundance. The sprouts of this plant, when cut fresh, boiled in salt water and served either warm, or as a salad make a most excellent substitute for the genuine article. It can be blanched and eaten raw the same as Celery and is preferred by many to that delicious vegetable. Pkt. 5c.; oz. 30c.

HYBRIDIZED POTATO SEED

A SUPERB COLLECTION OF THE MOST VALUABLE VARIETIES—HEADQUARTERS STOCK

Growing new and distinct Potatoes from the Seed-Ball-Seed is intensely interesting and fascinating. They will produce innumerable kinds, shapes, colors, sizes, forms and qualities. Some may be of immense value. This incomparable mixture contains choice selections from the U. S., Germany, Chili, Switzerland, South America, France, Africa, Mexico and Europe. New creations of merit bring rich returns and your fortune may be in one of these.

POTATO SEED TESTIMONIAL

Mrs. Emma Gray, Hillside, Pa., writes:

"Your seeds were fine, the Hybridized Potato Seed I planted and raised 137 Potatoes. There are many different kinds, some long red, some pale red and some round dark red, some round white and some long white. I have one long red two inches long and three inches round, and they are from that size down to the size of a Pea, and if they grow next year as they did this, some of them will be large enough to use as they are fine.

DIRECTIONS FOR PLANTING AND CULTIVATING HYBRIDIZED POTATO SEED

Plant in a hot-bed, window-box, or warm border, early in the Spring—covering the seed one-fourth inch with fine soil and press firmly. Water sparingly when dry. As soon as plants are up, give them plenty of sunshine and air. Do not crowd them. When two or three inches high and danger of frost is past, transplant in rich soil two feet apart—and one foot in the row. Keep free of bugs by careful picking, or cover plants with mosquito netting. Allow no weeds, and cultivate thoroughly.

POTATO SEED. Packet, 10c.; 3 pkts. for 25c.

The Great Coffee Berry

The Great Coffee Berry

The Great Health Drink, Once Tried, Always Used. This makes a delicious, nourishing drink, to take the place of coffee. It is a pure food drink that gives health and great strength to young and old. By all odds the best coffee substitute ever discovered. It has the rich, brown color of old Java. Thousands pronounce it as good as the best store coffee. One of the hardiest, easiest raised and most productive. Large Pkt. 5c.; 1/4 lb 10c.; 1/2 lb 17c.; 1 lb 25c.

New Rockford Pickle Cucumber

New Rockford Pickle

The Favorite Cucumber for Market and Family Use

The best Cucumber for pickles; is used almost exclusively by pickle factories throughout the country. Medium size, wonderfully even in growth, slightly pointed at both ends. Extra early and the whole crop can be depended upon to make fine shaped pickles. Color deep green; begins to set its fruit when quite young. You will find this variety valuable for slicing. Fine flavor, crisp and delicious. **Pkt. 5c.; oz. 8c.; 2 oz. 15c.; ¼ lb 28c.; ½ lb 50c.; 1b 90c.**

New Tree Egg Plant

New Tree Egg Plant

The Fruit is Very Handsome

Sturdy, Compact, Prolific. The bush grows tall and stocky, branching freely, holding its fruit up well from the ground. The fruit is of a beautiful dark purple color, fine size, extra early, bearing for a long season and keeps well. The quality is the very best and considering all points we think this is a wonderful Egg Plant. **Pkt. 5c.**

New Lemon Cucumber

New Lemon Cucumber

Surprisingly Delicious

The Lemon Cucumber is nearly round, the skin is smooth with yellow and green markings. Fruit grows from 2½ to 3 inches in diameter, flesh is tender and has a flavor surpassing all other Cucumbers. Excellent for pickling either green or ripe. For table use they should be used just as the fruits are turning yellow. It is a new novelty and we are sure, after once tested, that it will be planted every season, for the quality and productiveness is sure to please everyone. **Pkt. 5c.; oz. 18c.**

Hammond's Slug Shot

Sure to destroy Potato Bugs and those on Tomatoes & Egg Plants, Currant Worms, Cabbage Lice, etc. **Express at buyer's expense, 5 lb 30c.; postpaid, 1b 15c.**

Japanese Climbing Cucumber

Japanese Climbing Cucumber

The vines are of vigorous growth, with dark green foliage, and throw out strong tendrils which enable them to climb trellises, wire netting or brush. Comes into bearing quickly and continues abundantly through the season, while the climbing habit enables the fruit to grow perfectly straight—from 12 to 18 inches in length. Thick, tender, and of delicate flavor. Flesh pure white. When young makes attractive pickles. **Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb 30c.**

New Early Klondike Cucumber

The Famous Klondike Cucumber, unequalled for uniform size, color and productiveness. In addition to this it comes into bearing very early, continuing right through the season until killed by frost.

Always straight—never turning yellow. Best for the table, for market and for pickling. It is a hybrid of the White Spine type, averages 6 to 7 inches long, the ends are quite square, and is about 2 inches thick. Wherever it is sold to market gardeners it has become their main crop, and the demand for it is growing rapidly. The fruit is firm and hard and keeps in prime condition a long time after picking. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 40c.; 1b 75c.**

New Early Klondike Cucumber

Nest Egg Gourd

Japanese Nest Egg Gourd

The Best and Cheapest

This interesting Gourd produces white fruit exactly the size and shape of a hen's egg. The matured fruit does not crack, and will serve for years as a nest egg, for use in darning stockings, or for ornamental purposes. The vine is a rapid grower, useful for covering screens or trellises. **Pkt. 4c.; oz. 12c.**

New Garden Huckleberry

New Garden Huckleberry

Grows From Seed the First Year
For Pies and Preserves

A new fruit that belongs to the same family botanically as the Tomato, Egg Plant and Potato. In South Dakota it is known as "Stubbleberry" and is very popular in that section. It is easily grown from seed the first year, and should be planted, treated and cultivated the same as Tomatoes. Start the seed in a box or pan or hot-bed in early spring, and when danger of frost is passed plant outdoors. It is very prolific, yielding an immense crop of fruit, and is not hardy, but must be planted each season from seed. The fruit grows as large as a gooseberry and, in our experience; they should not be picked until thoroughly ripe. Even after the frost, they are better, for they cook up finer. If cooked with apples, lemon or anything sour, they certainly make finest jelly and pies, and can also be used for making home-made wine. You will be delighted and astonished with this easily grown wonderful novelty. **Send Your Order To-day. Price, postpaid, pkt. (100 seeds,) 8c.; oz. 60c.**

Japanese Dishcloth or Luffa Gourd

Ornamental enough for a house vine and very useful. Fruit enormous, two feet in length and borne in great profusion. The lining of mature fruit, when washed and bleached, is porous, tough, elastic, sponge-like, making the nicest cleanest substitute for dish cloths, and bath sponges imaginable, besides being useful for various articles of fancy work. **Pkt. 4c.; oz. 20c.**

New Blue Berry

This new fruit never fails to bear large crops, no matter whether the season is wet or dry. It is splendid for Pies, Jams and Sauce, but cannot be used before cooking. In preserving proceed exactly as you would with other fruits using sugar freely and adding a few slices of Lemon, Apples, Rhubarb or something tart to flavor and it is indeed fine. Plant the same as you would Tomato seed. **Pkt. 7c.**

New Garden Lemon

One of the Greatest Novelties of Recent Introduction. Resembles the Mango Melon in manner of growth, but is distinct in that the unripe fruit is striped with dark green spots, nearly black, and when ripe is not russeted like the Mango Melon. Fruit of shape shown in illustration, a trifle smaller than Mango Melon. Has a finer flesh and most desirable acid flavor, thus dispensing with sliced lemon, which is so important in putting up the Mango Melon. Unexcelled for general canning purposes. Cultivate similar to Musk Melon, in hills three feet apart each way. It is such an enormous yielder that it will prove a very profitable crop to grow for market purposes, and will give unbounded satisfaction for all family uses. True stock seed. **Pkt. 5c.; oz. 20c.**

Columbia Lawn Grass Mixture

A beautiful green lawn in six weeks from sowing. The best Grass Seed offered for Lawns, Parks, Athletic Grounds, Cemeteries, Golf Links, etc. Forms a thick, velvety green turf in four to six weeks. **See Page 59 for prices, etc.**

Northern
Grown Lettuce
Seed gives the
best satis-
faction

For other
varieties of
Lettuce see
page 33.

**Earliest "Wayahead" Lettuce**

"Bon Ton" Lettuce

The Best Keeping Lettuce Known

A crisp variety, sometimes cabbage-like in growth, but generally decidedly more bunching than cabbaging; marketable at an intermediate season, but late outdoors in attaining fullest development; very large; slow to shoot to seed. Plant fairly compact for so large a sort, and consisting of a dense, well-blanching cluster of leaves, rounded to broadly V-shaped in form, its innermost heart leaves generally curving over one another and forming an incomplete concealed cabbage like head, partially visible at the top of the plant. Leaves very broad, excessively blistered, crumpled and twisted into large coarse folds; also very thick and stiff with heavy veins and large, protruding mid-rib; broadly but shallow crenate at margins; decidedly undulate at borders. Color very light green, never spotted nor brownish in any part. Seeds large, whitish. **Pkt. 5c.; oz. 10c.; 2 oz. 18c.; 1/4 lb 30c.; 1/2 lb 45c.; 1b 75c.**

**New York Lettuce****NEW LETTUCE****Earliest "Wayahead"**

A remarkable combination of earliness, firm heading character, handsome appearance and fine quality. Its closely folded head affords the maximum quantity of finely blanching inner leaves which are of a firm, "buttery" texture. The outer leaves are of a light green, with the entire head finely blanching to a rich buttery-yellow tint. "Wayahead" stands a longer time before running to seed than any other early variety. **Pkt. 5c.; oz. 10c.; 2 oz. 18c.; 1/4 lb 30c.; 1/2 lb 45c.; 1b 75c.**

SEEDS**

New Lemonade Plant

**Both Useful and
Ornamental**

This is an annual plant easily grown from seed. It grows very rapidly, bearing a fruit that resembles the Scarlet Poddied Okra, which is used for making jelly and jam; and considered superior to Guava or Currant in this country, and large quantities are shipped from Australia to all parts of Europe and labeled as "Queensland Jelly." The whole fruit being used just as it is picked, when about three parts grown and the size of a large hazel nut, placing same in a kettle with about water enough to cover half to three-quarters of the fruit, boil and proceed as in making other jelly. It is the outside husks that make the best part of the jelly, the seed and shell holding same being all that is left after straining into bag. **Pkt. 8c.; or 3 packets for 20c.**

New York Lettuce

**IMMENSE HEADS AS
SOLID AS A CABBAGE**

**Blanches Beautifully;
Crisp, Tender and Free
From Bitterness**

Grand new Head Lettuce, sometimes called **Wonderful**. A very large head variety, excellent for furnishing fine, crisp, well-balanced Lettuce during the hot summer months. Plants are rich, dark green, growing more than 15 inches in diameter. Heads stand for quite a long time, even in hot summer, before running to seed. **Pkt. 3c.; oz. 7c.; 2 oz. 12c.; 1/4 lb 20c.; 1/2 lb 35c.; 1b 55c.**

**New Lemonade Plant**

New Gold Coin Muskmelon

New Gold Coin Musk Melon

This new Melon is remarkably prolific; the fruit superbly netted, the flesh deep and solid, of a rich orange red color, ripening close to the rind and of the sweetest honey-like flavor, the most delicious of all melons. They are always of handsome form and attractive appearance, even in size, weighing from 2 to 3 pounds each. It is very early, ripening in a very short space of time, and notwithstanding its thin rind, it is a splendid shipper and one of the finest Melons for market purposes. Every Melon grower should give it a trial. **Pkt. 5c.; 2 oz. 18c.; ¼ lb 30c.; ½ lb 50c.; 1 lb 90c.**

Famous Rocky Ford Muskmelon

The Famous Rocky Ford Musk Melon

Unsurpassed in Luscious Flavor

Always brings the highest price on the market. Most desirable size. Ideal for dessert. A healthy vigorous grower. Exceedingly prolific. This is an improved strain of Netted Gem, growing a little more oblong in shape. Originated at Rocky Ford. It is the most popular of all Melons for shipping in baskets. The fruit is oval and slightly ribbed, and densely covered with a fine netting. It has a thick flesh; very sweet; finely flavored. They will grow very uniform in shape and color. Very productive. **Selected Stock Seed. Large pkt. 4c.; 2 oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 35c.; 1 lb 60c.**

Apple Pie Melon

This is a novelty which will be appreciated in many sections of the country and especially so during the seasons when apples are scarce or high in price. The vine and fruit are quite similar to a Water Melon and they are easily grown on any good soil. Each vine produces from five to fifteen fruits, and one of the large size Melons will make as many pies as a half bushel of apples. We have estimated carefully in our field that one

APPLE-
PIE
MELON

vine would produce an average of about 300 lbs. The flesh is white, solid throughout, and of excellent quality for making pies, sauce, preserves, etc., and it resembles apples in flavor. They keep nice and fresh all Winter, so that they can be used at any time and any surplus you may have can be fed to the live stock. In fact, it would pay to raise them for this purpose alone as they can be kept and fed fresh all Winter. **Pkt. 5c.; 2 oz. 10c.; 2 oz. 18c.; ¼ lb 30c.; ½ lb 50c.; 1 lb 90c.; postpaid.**

The New Citron Melons

Red Seeded—Used exclusively for preserves. Slightly striped, round. Extremely productive; splendid flavor. **Pkt. 4c.; 2 oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 35c.; 1 lb 60c.**

Green Seeded—The best of the Citrons, makes beautiful preserves of unsurpassed flavor. **Pkt. 4c.; 2 oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 35c.; 1 lb 60c.**

See Pages 8, 9, 17 and 18 for Other Fine Preserving Fruits.

Citron Melon

The Mango Melon or Vegetable Peach

Another splendid novelty of late introduction, very striking in color, most wonderful yielder. Vines of Garden Melon and Mango Melon are somewhat smaller than the Musk Melon vine, though requiring same cultivation. Fruit is about the size of an Orange, orange shaped; and a bright orange color, somewhat russeted. For sweet pickles, pies or preserving they are splendid. In the West or Northwest, where fruit is scarce, they are rapidly becoming popular, as they are easily cultivated, enormously productive, and can be used in every way as the Peach, except that they are not quite as sweet. You will certainly be pleased with it. **Pkt. 5c.; 2 oz. 20c.**

MANGO
MELON

THE KING OF ALL MELONS

Monte Cristo Water Melon

Best for Eating, for
Growing, and for
Shipping.

The Sweetest Flavored Melon in the World. The largest early Water Melon to mature, ripening in the remarkably short period of 65 to 80 days, and weighing, under ordinary cultivation, 60 pounds.

The greatest yielder. The juiciest crispest and most solid Melon ever produced, never having a hollow or pithy center when ripe. The easiest to sell on the market, for when once tried people will have no other. Many of our customers have written us that they have cleared \$150 per acre by growing **Monte Cristo Melons**. Under average cultivation you can do as well or better.

Will you not try it this year? It is a grand, good shipper; has a firm, solid rind, not too thick, yet it will stand the most severe handling. The outside skin is of a rich, dark green color, shaded with faint stripes of a somewhat lighter

color. Certainly the finest appearing Melon ever grown for market, shipping or table purposes. We already have large advance orders from customers who have planted Monte Cristo in past seasons, and we would advise all who care to plant this "**King of all Melons**" to place their orders as early as possible. Send to us for choicest stock seed of **MONTE CRISTO MELON**. The price is within reach of all. Large Packet 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; ½ lb. 50c.; lb. 90.

Iceberg Water Melon

A Fine Shipper and A Big Bargain

It may be described as a distinctly improved form of the old celebrated Kolb's Gem, which has never been excelled as a shipper. It resembles Kolb's Gem in shape, size and appearance, but is darker in color, both outside and inside. Where it rests upon the ground it is yellow, while Kolb's Gem is white. The outside of the new Melon is dark green, with lighter marking, but the general effect is dark. The flesh is deep red and very sweet. The rind is comparatively thin, but remarkably tough and not disposed to crack. We recommend Iceberg for shipment to distant markets. The excellence of Kolb's Gem, especially as a profitable shipper, is so well known that Iceberg should at once be in very wide demand for commercial purposes. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Iceberg Watermelon

New Water Melon Tom Watson

BEST
LOWEST PRICES
SEEDS

Best Quality, Fine Shape, Large Size, Good Shipper.

The "Tom Watson" is an extra long Melon of attractive appearance, uniform in shape and quality; the luscious crimson flesh is "as sweet as honey," melting and of superb flavor. The average

Melon will weigh 35 to 40 lbs. and measure about 28 inches long and about 12 inches in diameter. The skin is dark green, with thick netting all over, quite distinct from other varieties. It originated in Georgia, a state noted for producing fine Watermelons, and this new variety is a good example of what a first class Watermelon should be. Its appearance and quality strongly recommends it both for home use and for market. Packet 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; ½ lb. 50c.; lb. 85c.; post-paid.

MAMMOTH SILVER KING
The King of White Onions

Mammoth Silver King—King of White Onions

A MOST EMARKABLE ONION ON ACCOUNT OF ITS ENORMOUS SIZE AND FINE QUALITY.
ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNEQUALLED
EVEN BY THE BERMUDA VARIETIES

The bulbs are of attractive form, flattened, but thick through. The average diameter of the Onion is from five to seven and one-half inches, thus making the circumference from fifteen to twenty-two inches. Single bulbs often attain weights of from two and one-half to four pounds each. The skin is of a beautiful silvery white; the flesh is of a snowy white, and of a particularly mild and pleasant flavor. So sweet and tender is the flesh that it can be eaten like an apple. Matures early, and is of large size and perfect form. Pkt. 5c.; oz. 12c.; 2 oz. 23c.; 1/4 lb 45c.; 1/2 lb 80c.; lb \$1.50.

New Dixie Giant Peanut

New Dixie Giant Peanut

Mammoth Nuts, Strong Thick Shell

This is the JUMBO of the Peanut family and owing to the very large size and handsome appearance are very desirable in every market at fancy prices. Plants grow about 18 inches high with heavy erect stalks and large leaves and fruits near the tap root, and can be planted close together, thus producing a large yield and is more easily cultivated than the running varieties. The pods fill out well, forming few if any pops. **Price, large pkt. 5c.; 1/4 lb 15c.; 1/2 lb 25c.; lb 45c.**

Early, Large and Most Prolific

Peanuts can be successfully grown in almost any place where corn succeeds. Every part of the Peanut is useful. The vines are a valuable feed for horses, cattle and sheep. An acre will produce from one to two tons of vines. The nuts are relished by nearly everyone and in the South are fed to the farm animals and poultry. The nuts contain a large per cent of rich nutriment. Peanuts do best on a light, sandy soil, but any open soil will do. The ground should be plowed deeply and thoroughly harrowed. Careful tillage is important. All weeds and grass should be killed to give the plants all the food in the soil. Seed Peanuts should be carefully hulled to prevent breaking the skin on the kernels. They should be planted in rows two and a half to three feet apart and ten to twelve inches apart in the row. Cover with about two inches of earth. When they are matured, pull them up and expose to the sun for a few days. **Pkt. 5c.; 1/4 lb 10c.; 1/2 lb 15c.; lb 25c.**

New Bountiful Pea

Ready for picking in 40 days. 10,000 bushels sold annually. Wonderfully productive. Superior cropper. Unequaled shipper. Handsome appearance.

NEW BOUNTIFUL

The Earliest Pea in the World

Where earliness, productiveness, large sized pods and sweetness of flavor are desired, this is the variety to grow. It may be truly called **Blooded Stock of Them All**. Finest Early Pea, and stands at the head for the above fine qualities; in a favorable season ready for market in 40 days. The entire crop can be taken off in two pickings. To the market gardener, earliness is of the greatest importance, as even a few days makes a great difference in price, often a depreciation of from \$2.00 to \$4.00 per barrel; the inexperienced find this out when too late, therefore, the earliest is what is required, and **NEW BOUNTIFUL IS THAT VARIETY. SOW THEM. YOU WILL MAKE NO MISTAKE.** Large pkt. 7c.; $\frac{1}{2}$ pt. 15c.; pt. 25c.; qt. 40c.

New Perpetual Everbearing Pea

Perpetual Pea is everything its name implies. It grows about $2\frac{1}{2}$ to 3 feet high, is of strong, robust habit, a good cropper, and, to secure best results, requires sticks or brush. After removing the pods as fast as they are filled, it will continue to bear right throughout the season. This one feature makes it especially desirable for the home or family garden. It is certainly a most remarkable everbearing Pea. Pkt. 8c.; $\frac{1}{2}$ pt. 15c.; pt. 26c.; qt. 45c.

Rockford Market Radish

The Best Long Early Radish

The extraordinary earliness is remarkable in view of the fact that it grows to such a fine size. The shape is regular, smooth and nearly conical, being intermediate between the half long and extra long sorts. In brightness of color it is quite unique, being the handsomest scarlet we have yet seen in a Radish; and tipped at the end of the roots with just enough white to present an ideal appearance. Crisp, tender and juicy. Pkt. 4c.; oz. 10c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 70c.

The quality of our Radish Seed is unexcelled, as the mother seed is saved from pedigree transplanted roots only.

New Rosy Gem Radish

New Rosy Gem Radish

For Home or Market Use

A handsome turnip Radish, a great favorite in many markets and for early planting out-doors will give entire satisfaction where extreme earliness is not the object. Roots slightly flattened on the under side, color very dark scarlet, with a white tip; flesh white and of the best quality. One of the best either for home or market use. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 25c.; lb 40c.

SEEDS

This beautiful Squash is orange-yellow, splashed and striped with dark green on the outside. The flesh is rich, dry and particularly fine. For private use we can recommend it as surpassing in richness of flavor any of the large, old-fashioned sorts. A desirable feature is its small size; not too large for an ordinary family; is wonderfully solid and heavy, the seed cavities being very small; it is also extremely early. (The earliest of any **Vine Squash**), maturing about the same time as the Summer Squashes, and for early use will doubtless supplant this class on account of its superior dryness and flavor, while its extreme solidity renders it fully as good a keeper as any of the Winter varieties. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 40c.; 1b 70c.**

MAMMOTH WHALE SQUASH

The Largest of All

We can fully claim to have the best strain of this variety in the market; certainly there is no better. Rather flat at both ends. Single specimens have grown to the enormous weight of 300 lbs. Outer color rich orange yellow; flesh is very thick and of yellow color; quality good, very nutritious, making it exceptionally valuable for all family and market purposes. Its size makes it profitable to grow for stock feeding also. **Pkt. 5c.; oz. 15c.; 2 oz. 25c.; ¼ lb 40c.; ½ lb 75c.; 1b \$1.25.**

For Further Varieties of Squash see Page 43.

Strawberries from Seed

New Hybrid Varieties of Rare Merit

Growing **Strawberries from Seed** is intensely interesting and fascinating as the seeds germinate rapidly and the young plants frequently begin to bear fruit when four months old, and continue to produce an abundance of the finest flavored fruit until late in the Fall. Seeds sown early in April will give ripe berries in late July. The greatest pleasure of sowing seed is due to the fact that they will produce innumerable kinds, colors, shapes, sizes, forms and qualities. Some may be of immense value. This incomparable mixture contains choice selections from the U. S., Germany, Chili, Switzerland, South America, France, Africa, Mexico and Europe. This great variety makes your bed practically **Everbearing** and you are not without fruit the season through. Hardy most everywhere. A packet of seed should produce 40 to 50 plants. **Large pkt. 10c.; 3 pkts., 25c.**

LOWEST PRICES
SEEDS

New Early June Pink Tamato

New Early June Pink Tomato

An Ideal Variety for All Purposes.

Ripens as early as Spark's Earliana and ten days to two weeks earlier than Chalk's Early Jewel. It is an enormous bearer, clusters of six to ten fruits being borne both at the crown and at the forks of the branches. The fruit is of medium size, uniform, smooth and attractively shaped, without cracks or any green core. It will average $2\frac{3}{4}$ to 3 inches in diameter and 2 to $2\frac{1}{2}$ inches in depth. The skin is reasonably tough, so that it is excellent for shipping. In color it is a bright, pleasing pink, and in markets where a pink Tomato is desired will bring 25 per cent more in price than any red variety. In shape the June Pink is smooth, well formed and extremely deep from stem to blossom, making it unusually heavy. It ripens evenly to the stem, and is without ridges or cracks; it has great meatiness and few seeds. It is firm without being hard, an unrivaled home Tomato, an unequalled shipper and its unusual solidity, few seeds and desirable form for rapid peeling without waste, makes a most desirable canning variety. Large pkt. 5c.; oz. 25c.; 2 oz. 45c.; $\frac{1}{4}$ lb 85c.

New Giant Pear Tomato

Wonderfully Productive Mammoth Fruited Golden Yellow Tomato

The fruits are pear-shaped, very large, beautifully smooth, flesh solid, thick-meated with very few seeds and like all yellow varieties, very sweet and mild in flavor. The plant is enormously productive, more than any other large fruited sort, stands up well even in the worst weather, producing fine fruit until late in the Autumn when killed by frost. As a market Tomato, it sells readily at fancy prices owing to the handsome shape and color. Be sure and give it a trial. Pkt. 10c., or 3 pkts. for 25c.

Golden Fig Tomato

Golden Fig Tomato

The illustration shows its exact shape, and habit of producing fruit in numerous clusters. It is wonderfully productive, yielding double that of other sorts. This variety makes pickles and preserves of the finest quality. It is pre-eminently the best of all the small yellow sorts for market. Pkt. 5c.; oz. 25c.

New Giant Pear Tomato

For
Further
Varieties of
Tomatoes see
Pages 18
and 44

Burbank's New Grape Tomato

Fruits in Four Months From Seed.

It is an annual which propagates easily from the seed and the growth of the vine is astonishing. It somewhat resembles the Tomato, but its habits of growth are more like the Grape. Of a handsome red color, having the flavor of the Tomato. The fruit is excellent for preserving and using in various ways. Pkt. 6c.; 3 pkts. 15c.; 6 pkts. 25c.

Burbank's New Grape Tomato

The Ground Cherry

Often called Husk or Strawberry Tomato. A Splendid Preserving Fruit.

The fruit has a pleasant strawberry-like flavor, and is much relished raw, but generally used for preserves, for which it is excellent. The small yellow fruits are enclosed in a husk or covering, and when ripe are half an inch in diameter. They are easy to grow and do well on almost any dry soil. Plants of low spreading growth and immensely productive. Pkt. 5c.; oz. 25c.

For
Other Varieties
of Tomatoes see
Page 44.

Buckbee's Beefsteak Tomato

Buckbee's Beefsteak Tomato

Our Seed is Absolutely Genuine Headquarters Grown
Acknowledged the Best

**MATURES EARLY, HARDY GROWER, A
SPLENDID SHIPPER, ENORMOUSLY PRODU-
CTIVE, HANDSOME COLOR, THE BEST KEEP-
ER, LARGE SIZE, BEST OF ALL.** Nothing in the
way of a Tomato creation has ever achieved, in
so short a time, the tremendously excellent repu-
tation that has come to the Beefsteak. Growers
from every section of the wide world have sent
in unsolicited praise, and the tests to which they
have subjected it leave no room for doubt that it
has all the qualities required in a Tomato. Bears
fruit which in size, shape, color, solidity and qual-
ity is far ahead of the noted later kinds, and by
repeated trials at Rockford and elsewhere, has
demonstrated that it ripens up a larger portion of
its crop the earliest of any large variety. **Earliest
Good Tomato.** Gardeners and Tomato fanciers
will readily see the advantage obtained over their
competitors, by growing Buckbee's Beefsteak. We
do not hesitate to pronounce it the largest, smooth-
est, best flavored and highest colored early To-
mato. Vine medium size, leaved just enough to
protect the fruit, which is produced in abundant
clusters reasonably low down on the stem and
ripening all together. **Pkt. 8c.; ½ oz. 30c.; oz. 50c.;
2 oz. 95c.; ¼ lb \$1.75.**

New Perfected Sunberry or Improved Wonderberry

This is Luther Burbank's newest and great-
est production; a luscious berry that may be
grown and ripened from seed in any soil or
climate in three months. Fruit more like a
great, rich, luscious Blueberry than anything
else. Blue-black in color, fine in flavor and
unsurpassed for eating raw, cooked, canned
or preserved in any form. It is easily the
greatest garden fruit ever introduced, and
equally valuable for the North, South, East
or West, or, in short, any part of the World.
Easiest plant in the World to grow. Succeed-
ing anywhere and yielding great masses of
rich fruit all Summer and Fall. The greatest
boon to the family garden ever known. Every
body can have this grand fruit at small ex-
pense, as one or two packets of the seed will
be sufficient for any ordinary garden and pro-
duce all the fruit wanted. Price of seed, **Pkt.
7c.; 4 pkts. 25c.; ½ oz. 60c.; oz. \$1.00.**

Wonderberry Plants

We can also supply a limited number of
nicely started Wonderberry Plants at 10c.
each; 3 for 25c.; 75c. per dozen, postpaid.

The Sunberry, or Improved Wonderberry

New Mammoth Purple Ground Cherry

A wonderful prolific bearer of enor-
mous size fruit, which measures 1¼ to
2½ inches in diameter. The flesh is
green while the color of the skin is green,
changing to a purple. When made into
preserves, has the appearance of Green
Gages. The flavor is simply delicious.
The fruit is four times as large as other
varieties; bush forms plant 2½ feet
high and the same in width, producing an
abundance of fruit, which, if kept in
their shuck in a cool place, will remain
in perfect condition nearly all Winter.
Pkt. 8c.; 3 pkts. 20c.; ½ oz. 35c.; oz. 60c.

Pie Plant

Wonderful New Pineapple

Delicious Pineapple flavor, hardy grower, very prolific. The earliest of all Pie Plant and a variety that can be used not only in the early Spring but in Summer as well. The very best of the Giant Everbearing varieties. Quality simply superb. Stalks of good size, soft and watery. Skin so thin and tender that it is not necessary to remove it before cooking. Flavor sprightly and refreshing and has the true Pineapple flavor. Don't fail to order this finest of all Pie Plant. Price postpaid, pkt. 8c.; oz. 15c.; 2 oz. 25c.; ¼ lb. 40c.; ½ lb. 75c.; 1 lb. \$1.40.

TWO YEAR OLD ROOTS. Price by mail, prepaid, 20c. each; \$2.25 per doz. by express or freight not prepaid, 15c. each; \$1.50 per dozen; \$11.25 per 100.

New Pineapple Pie Plant

New Horse-Radish Bohemia

"Maliner-Kren"

Very Quick Growing, Large Rooted Variety, which has been grown quite largely in this country for several years with most satisfactory results. "Maliner-Kren," is grown by planting the small sets or pieces from the side roots in deep rich soil and cultivating in the same manner as with the ordinary variety of Horse-radish, but the plants are so much stronger in growth that the roots grow to considerably larger size and greater weight; individual roots 18 inches long by 2½ inches to 3 inches at the thickest part are produced from the growth of one year. In fact, its shape is like the parsnip. The quick strong growth not only gives a much larger crop from a given area, both in size of single roots and bulk weight of crop, but also enables the grower to place the roots in the market much earlier than with the ordinary variety. When grown in light soils, roots of this new early variety are pure white in color and develop the fine flavor early in the fall.

Roots ready for planting. By mail, postpaid, 6 for 15c.; doz. 25c.; 50 for 75c.; 100 for \$1.25. By express or freight, not prepaid, 50 for 60c.; 100 for 85c.; 500 for \$4.00; 1000 for \$7.50.

SEEDS

Common Horse-Radish

Horse-radish is always in demand in winter and spring. The culture is by sets or root cuttings, as it seldom seeds. These sets are planted in rows or furrows 2 to 3 feet apart and 15 to 18 inches apart in the rows. The set should be placed in a perpendicular position, with crown 3 to 6 inches below the surface. Horse-radish delights in a deep, rich soil and requires but little cultural attention. It makes large top growth, giving weeds small chance. Near to markets the horse-radish is a most important crop. Roots ready for planting, postpaid, 15c. per doz.; 75c. per 100; by express or freight, not prepaid, 100 for 50c.; 500 for \$2.50 1000 for \$4.00.

Asparagus

BEST
LOWEST PRICES
SEEDS

Asparagus is the most delicious, healthful and desirable of the earliest spring vegetables, and would be grown in every garden, were it not for the mistaken idea that it is difficult to grow. The truth of the matter is that it can be grown very easily and cheaply, even by inexperienced people. Grown from our seed, your Asparagus will make you more money than any other item of your garden.

New Perfection. This is unquestionably the most valuable new variety ever offered to the public and is by long odds the most satisfactory introduction of recent years. At three years old this variety has yielded at the rate of \$500 per acre. In short it has all the qualities demanded for the market and will prove itself to everyone who grows it to be true to its name Perfection. It is deliciously tender, extra large, early, uniform, prolific, crisp and white. Postpaid pkt. 5c.; oz. 10c.; 2 oz. 16c.; $\frac{1}{4}$ lb. 30c.; $\frac{1}{2}$ lb. 55c.; lb. \$1.00.

Columbian Mammoth White. A very distinct and valuable Asparagus. The crown or bud of the young stock is pearly white, further distinguishing the variety. Postpaid pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 34c.; lb. 60.

New Palmetto. This new Asparagus, from South Carolina, is now very extensively grown by Southern gardeners for New York and Philadelphia markets, where it sells at a very high price, owing to its mammoth size and regularity. Although of Southern origin, it is equally well adapted to North or South. Postpaid pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 26c.; lb. 45c.

Donald's Elmira. This new variety, called by some Vick's Mammoth, is attracting a great deal of attention throughout the country, originating with Mr. Donald, a leading market gardener of Elmira, N. Y. The stalks are exceptionally tender and succulent. Postpaid pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 34c.; lb. 60c.

Barr's Mammoth. This fine variety has brought in market thirty cents a bunch, when other Asparagus was selling for ten and fifteen cents. Postpaid pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

Conover's Colossal. A standard variety of large size and delicious quality. Certainly one of the best varieties grown. Postpaid pkt. 2c.; oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 22c.; lb. 35c.

Asparagus Roots

Grown From Choicest Pedigreed Stock Seed

On many occasions we have received requests from our customers to furnish Extra Large Sized Asparagus Roots. To meet this demand we have grown a few acres of these roots, which are particularly adapted to the home garden or those gardeners who desire immediate results.

Extra Large Three and Four Year Old Roots

Our price on Extra Large Sized three and four year old roots for any of the six varieties listed on this page only \$1.50 per 100; \$12.50 per 1,000; shipped by express or freight not prepaid.

If for any reason roots are desired by mail, postage must be added at the rate of \$1.00 per 100 to prices quoted above.

Selected Two Year Old Roots

A saving of two to three years is effected by planting roots. Those offered below are Select, Strong, Two-year-old Roots, and we are confident they will please you in every way. Don't be misled in planting One-year-old or inferior Roots. The following low prices are for Roots carefully packed and shipped by express or freight not prepaid, with the exception of the price per dozen which is postpaid.

New Perfection. Doz. 30c.; per 100, \$1.00; per 1,000, \$7.50.

Columbian Mammoth White. Doz. 20c.; per 100, 60c.; per 1,000, \$5.00.

Donald's Elmira. Doz. 20c.; per 100, 60c.; per 1,000, \$5.00.

New Palmetto. Doz. 15c.; per 100, 50c.; per 1,000 \$4.00.

Conover's Colossal. Doz. 15c.; per 100, 50c.; per 1,000, \$3.75.

Barr's Mammoth. Doz. 15c.; per 100, 50c.; per 1,000, \$4.00.

If for any reason roots are desired by mail, postage must be added at the rate of fifty cents per 100 to prices quoted.

These Roots
Are Northern
Grown

Artichoke Roots

Artichoke Roots

The Greatest Hog Food Known

Artichokes are attracting much attention on account of their fattening properties, over one thousand bushels having been grown on one acre. They need planting but once and little or no culture after the first year. Cut as potatoes, only smaller; plant in rows three and one-half feet apart. Plow deep, plant shallow, say two inches. The second year, break up the ground as for Corn; they will come up thickly all over the surface. Three to five bushels will plant an acre. Not only are they valuable for hogs, but are an excellent food for cattle, sheep and horses. Fed to milk cows, they are valuable for the production of milk, being equal if not superior to bran. Prices lb. 30c. or 3 lbs. 75c. postpaid. By express or freight not prepaid, $\frac{1}{4}$ bu., 60c.; bu., \$1.75; 3 bus., sufficient for one acre, \$5.00.

Best Dwarf Green Podded Snap Beans

Great Northern Early Valentine

Without Exception the Finest Green Podded Snap Bean Grown

For Snaps there is nothing superior to this variety among the green podded sorts and many prefer it to the wax varieties. Vine erect, with coarse, dark green leaves; pods medium length, curved cylindrical, with crease in back; very fleshy, crisp and tender; seed long, of medium size and unsymmetrical in shape, pink, marbled with red. Lack of symmetry of seed in this variety is an indication of superior fleshiness and good quality in the pods. We know of no stock of Red Valentine which can be compared with that we offer in uniformly high quality of pod. We have carefully tested a great many strains claimed to be improvements, both in trials and in large fields, and have found none that we are willing to substitute for our fine stock which combines in the highest degree all the good qualities of the sort. **Large Pkt. 6c.; ½ pt. 9c.; pt. 16c.; qt. 30c.**

North Star Snap Bean

This is an Ideal Snap Bean. Pods are 4½ inches long, soft green, perfectly straight and round. Free from that woody inner lining of tough skin which we associate with old Beans; what little string exists is not developed until pod is quite old. Flavor is most delicious; it has the peculiarity of preserving its delicate color almost intact when prepared for the table. Remarkably early, ready for use several days in advance of any variety of merit. Its bearing qualities are unexcelled, and it matures its crop very regularly, even under adverse conditions. **Pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c.**

New Extra Early Refugee

Earliest of the green podded kinds, furnishing a fleshy pod of fine quality. It is usually from two to three weeks earlier than the ordinary Refugee. The vines, although a little smaller, are fully as hardy and vigorous as that variety, and more upright. Pods of the same size and shape, except slightly flatter. **Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 28c.**

Dwarf Horticultural or Wren's Egg

Valuable sort either for home use or for the market gardener. An exceptionally heavy cropper, producing an abundance of large, handsome pods, always filled with Beans of the finest quality. Vines compact, upright and very productive. Pods medium length, cylindrical and curved. **Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 28c.**

North Star Snap

Early Yellow Six Weeks

While this variety does not differ from the Early Long Yellow Six Weeks in size or general appearance of the vine, the pods are shorter, very much thicker, more fleshy and quite stringless. Moreover, while retaining the vigor and hardness of the old sort, it is fully one week earlier. Dry Bean color of ordinary Six Weeks, but much shorter. **Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.**

Early Mohawk

This sort is so much harder than the others that it can be planted earlier, furnishing Beans fit for use before any other kind. In favor for forcing, matures quickly, carries good weight of long, large pods. **Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 28c.**

Best Boston White

Baking Bean

This is a crop which can be profitably grown to a much greater extent than is now done, as it is one that certainly pays better than many field crops. It ripens early, before any danger of frost in Northern Bean-growing latitudes, and often yields sixty to eighty fold with ordinary field culture. This is really the best White Baking Bean; our seed is very choice. **Pkt. 6c.; ½ pt. 12c.; pt. 22c.; qt. 35c.**

The Best Wax Podded Beans

New Early Everbearing Black Wax

We are so thoroughly satisfied with this greatly improved strain of Black Wax that we have discarded the old stock altogether, this being more vigorous, and by far, more productive, with a much longer, whiter and more fleshy pod. The pods are of medium length, borne well up among the foliage, are curved cylindrical, fleshy and of a clear waxy-white color with long, slightly curved points. **Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.**

New Perfection Wax

This is one of the most highly productive varieties yet introduced. It has stood the market test, and has taken its place as a standard. The color of the pods is a rich golden yellow which turns lighter as they reach maturity. The length of the pods is six inches; they are a half inch broad, sharply pointed, and hang in great clusters. Extremely tender and brittle, with but a trace of string. In every way the New Perfection Wax is a highly satisfactory, money making Bean, for it combines great productiveness with high quality. **Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.**

Improved Golden Wax or Butter

This vigorous growing variety yields a profusion of tender pods, of a waxy appearance. The vines grow about 1½ feet high, holding pods well off the ground, thus keeping them clean, free from blight and rust. Pods are full, large, of delicious quality, and free from strings. Superior for market gardeners, shipping and family use. **Pkt. 5c.; ½ pt. 10c.; pt. 17c.; qt. 32c.**

New Eureka Wax

This is the best of the late wax podded Beans. Pods long, cylindrical, crisp, tender, stringless, and of a clear, yellowish, waxy-white color. As the Beans mature they are excellent to use green shelled. **Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.**

New Davis Wax

An exceptionally hardy, productive, white-seeded, wax-podded sort. Pods very long, white, straight and handsome. When young the pods are very brittle, crisp and tender. The dry Beans are kidney-shaped, clear white and excellent for baking. Best of all for shipping as Snap Beans. The perfect shape and fine color of the pods, and the clear white seed make this one of the best sorts for canners. **Pkt. 5c.; ½ pt. 10c.; pt. 17c.; qt. 32c.**

Wardwell's New Kidney Wax

The shape of the Bean is entirely distinct from that of all other Wax varieties, as it is of a perfect kidney formation. Furthermore it is a most prolific variety, and is one of the earliest and most hardy. The pods are long, flat, a delicate waxy-yellow, quite brittle and entirely stringless. Especially desirable for every climate. Can be grown with great profit in the South for early shipment to the North. **Pkt. 5c.; ½ pt. 10c.; pt. 17c.; qt. 32c.**

Yosemite Monster Wax

Tender, stringless and of fine flavor. In value, distinctiveness and sterling worth this Bean is a wonder. We would call attention to the necessity of planting this grand variety nearly twice as wide apart as ordinary Bush Beans. The plant is so large and vigorous

New
Perfection
Wax

and the pods are so solid and pulpy that they require a great deal of light and air to perfect them. The pods frequently attain a length of 10 to 14 inches with the thickness of a man's finger, and are nearly all solid pulp, the seeds being very small, when the pods are fit for use. The pods are a rich golden color, and are absolutely stringless, cooking tender and delicious. This is the coming Wax Bean for family or market purposes. It is enormously productive, as many as 50 of its monster pods having been counted on one bush. **Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.**

Beans

Best Pole or Climbing

FAMOUS KENTUCKY WONDER

Or Old Homestead

This splendid variety was introduced in 1891 as a novelty under the name of Old Homestead. Vine vigorous, climbing well and very productive bearing its pods in large clusters; pods green, very long, often reaching 9 or 10 inches, nearly round when young, and very crisp, continuing in use for an extended season. **Has no Equal.** An early and very prolific sort, with showy pods, which are most excellent for snaps. **Pkt. 5c.; ½ pt. 10c.; pt. 17c.; qt. 32c.**

New Lazy Wife. Pods wonderfully broad, thick and entirely stringless. Pods flattish, oval shape, and when fully grown are from 4 to 6 inches long, exceedingly rich, buttery and fine flavored when cooked. They are hardy, easily grown and most productive. Surpassingly fine for an early and late snap sort, also as a dry shell or winter Bean it is unsurpassed. **Pkt. 7c.; ½ pt. 10c.; pt. 18c.; qt. 35c.**

Red Speckled Cut Short or Corn Hill.

A popular variety for planting among the corn, and thus furnishing a good crop without the use of poles. Vines medium and never known to twist tightly. Leaves smooth and dark colored; blossoms white. Pods short, cylindrical and tender. Beans oblong, or

Famous Kentucky Wonder

nearly so, and cut diagonally at the ends, white, covered with reddish brown. **Pkt. 5c.; ½ pt. 9c.; pt. 16c.; qt. 30c.**

Early Golden Cluster Wax Pole. The Everlasting Pole Bean. Magnificent variety that bears continually the entire season. It grows rapidly, bearing early clusters of 3 to 6 pods of rich golden color. Pods average about 8 inches in length, exceeding tender and entirely stringless, retaining their plumpness and tenderness long after they have attained a large size, and continues to bear if the pods are picked, until frost. **Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.**

Lazy Wife Bean

Best Pole Lima

New King of the Garden

The Best Large White Lima. The vine is so productive that although the pods rarely contain more than four Beans, the yield is enormous and is produced from the very first to the last of the season. The green shelled Beans are of immense size but so tender and succulent that they shrink in drying to about size of the Large White Lima. **It is the best Lima Bean ever offered for market gardeners use.** In yield, ease of shelling, size, beauty and quality of green Beans, this variety is in advance of other sorts, and is recognized as the best of all the Limas for either the garden or the market. **Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.**

Burpee's New Bush Lima Bean

Best Bush Lima Beans

Henderson's Bush Lima. Valuable variety on account of its earliness and wonderful productiveness, continuing to grow and set pods until stopped by frost. Its popularity increases every year. Rich, buttery Limas—the true flavor (even better). Vines are without runners, small bright green and Lima-like; flowers small, yellowish white, borne in clusters and often above the foliage. Pods short, flat and contains from three to five Beans which are of delicious quality. **Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.**

Burpee's Bush Lima. The bushes grow 18 to 20 inches high, of stout growth and always erect, yet branching so vigorously that each plant develops into a magnificent circular bush from 2 to 3 feet in diameter. Enormously productive, single plants under favorable circumstances yielding from 200 to 350 pods. Handsome large pods being well filled with very large Beans, identical in size and luscious flavor with the well known Pole Limas. **Pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 38c.**

The Best Table Beets

1 ounce to 50 feet of drill; 5 lbs. per acre in drills

WHY NOT
Make Up A Club Order
Among Your Friends?

Crosby's Egyptian. Small Necked, Dark Fleshed Variety of Great Merit. Always Good—Never past its Prime. This new Beet is one of the best on our list for general cultivation by market gardeners and farmers. Makes a very rapid growth from the start, and is larger than common Egyptian, age for age. It continues to grow for a long period, making a heavy root for autumn or winter use. Only one sowing is necessary to produce early Beets for market and a main crop for winter use. The quality is first rate at all periods of growth, whether the Beet weighs a quarter of a pound or six pounds. It is a good keeper and may be used all winter. When cooked it is of a beautiful dark red color throughout, and of unsurpassed table quality. There are but few fibrous roots and the top is small. Large pkt. 4c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb 30c.; $\frac{1}{2}$ lb 50c.; lb 85c.

Columbia. Medium Size, Smooth, Productive, Sweet, Solid. The Blood Turnip Beet has long been regarded as the standard of excellence. For years we have been growing and selecting a choice strain of Blood Turnip Beet, which we have supplied to thousands of our customers, to their profit and entire satisfaction. It is very early, nearly as early as Egyptian, and greatly surpasses that variety in flavor. The color is a rich, dark red, and the shape is globular. It is fine grain in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing, for a main spring or summer crop, or for use in winter, as it is a good keeper. It cooks sweet, tender and crisp, and is in every way a standard sort for the market or home gardener. Has made a good crop in seven weeks from sowing. Large pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 75c.

Extra Early Eclipse. An improved extra early sort. Tops small, dark purplish green, shading to lighter color on outside of the leaves. Roots nearly globular with a small tap root and very small collar. Flesh dark red, zoned with a lighter red; very sweet, crisp and tender, especially when young. One of the most desirable sorts for bunching. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 75c.

Electric Blood Turnip. Excellent for the open garden. This is particularly valuable for forcing, because it produces less foliage than any other variety and can be grown close together. The roots are smooth and regular in form, the skin is dark blood-red. Flesh fine grained and cooks dark blood-red. Remains in fine condition for a long time. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 75c.

Improved Blood Turnip. One of the best Beets grown; very careful selection. Roots of good form, round, with only one small tap root; flesh deep blood-red color, very sweet and tender. Best for first early. Can be planted very closely, as they do not grow large and coarse; have a very small top. One of the best for market gardeners and table use. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 20c.; $\frac{1}{2}$ lb 35c.; lb 60c.

Improved Long Dark Smooth Blood. Tops large neck small, leaf stems and veins red; leaf green; roots large, tapering toward both ends, growing even with the surface; flesh dark red, tender and sweet, and remaining so even when kept till spring. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 20c.; $\frac{1}{2}$ lb 35c.; lb 60c.

Sugar Beets for Stock

Giant Half Sugar. The grandest and most superior of all Sugar Beets, affording a larger percentage of sugar than any known variety. Very productive, yielding 20 tons and over of the finest Beets to the acre; roots are very symmetrical and desirable in shape; grow slightly above the surface. The color is white, slightly washed with red at top, while the balance is of clear white. Flesh finely grained and very sweet. Oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb 12c.; $\frac{1}{2}$ lb 22c.; lb 40c.

Imperial Sugar. The best for general uses. Very productive and is extremely rich in sugar. Oz. 5c.; 2 oz. 7c.; $\frac{1}{4}$ lb 10c.; $\frac{1}{2}$ lb 18c.; lb 35c.

Klein Wanzleben. The Great German Sugar Beet—Largely grown in this country with the best of satisfaction. Oz. 4c.; 2 oz. 7c.; $\frac{1}{4}$ lb 10c.; $\frac{1}{2}$ lb 16c.; lb 30c.

Mangels

The Cheapest Food for all Live Stock

Any land that will grow a good crop of corn will produce a good crop of Mangels or Sugar Beets. No crop pays the farmer and stock raiser better.

New Goliath. The heaviest cropper. This Mangel is enormously, wonderfully productive. Its yield is exceedingly fabulous; 1,500 to 1,800 bushels per acre is nothing uncommon on good soil. Particularly remarkable for its handsome shape and broad shoulders, its diameter being greater and its weight very much heavier than any other sort. The flesh is red, of very fine texture and quality, containing less water and more sugar than any other Mangel, except it be the Half Long Sugar, making it most nutritious and milk producing. Sheep and other stock thrive better when fed on it, picking out pieces of it in preference to other kinds. Oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; lb. 60c.

New Golden Monarch. Half Long variety; heavy cropper. This entirely new and distinct Mangel grows to the largest size and is of a beautiful russet yellow color. It is remarkably even in shape, of vigorous growth, and a very smooth, fine skin. The flesh is white, firm and sweet, greatly relished by cattle and other stock. Oz. 6c.; 2 oz. 11c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; lb. 50c.

Giant Long Red. Always makes a uniform crop of large, red, finely shaped roots. Unexcelled for feeding. Oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 14c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

Champion Yellow Globe. The flesh is white, firm and sweet. Always makes magnificent roots and easily harvested. Oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 14c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

Golden Tankard. The very best for dairy farming. It is very early, hardy and a good cropper. Oz. 6c.; 2 oz. 11c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; lb. 50c.

Mrs. A. G. Davis, Tekamah, Nebr., writes:
Last spring, among other seeds I received from you was a packet of Earth Almonds. Every one grew and they now look fine.

Chufus, or Earth Almond

A nice little ground nut which is greatly liked by the children. In sweetness and flavor they resemble the coconut or almond and are considered very nice put on the table in a fruit dish with candies, and as an after dinner relish. Pkt. 5c.; $\frac{1}{4}$ lb. 10c.; $\frac{1}{2}$ lb. 18c.; lb. 35c.

The Best Cabbage

See Page 5 for New Varieties of Cabbage

$\frac{1}{2}$ lb of
Cabbage Seed
Will Grow Enough
Plants for an Acre

One of the chief departments of our seed growing business consists of growing Cabbage for seed only. Our stock has reached such a high point of merit that it is the most reliable and produces more good, marketable heads per acre than any offered.

All Head Early. Earliest of all large Cabbages. Most desirable variety for the market gardener. Keeps well. Pkt. 4c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb 45c.; $\frac{1}{2}$ lb 85c.; lb \$1.60.

Early Winningstadt. An old, popular, medium early variety; large pyramidal heads of excellent quality. Good to succeed extra earlies. Pkt. 3c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb 40c.; $\frac{1}{2}$ lb 75c.; lb \$1.35.

True Early Jersey Wakefield. The Best Early Cabbage in cultivation. It forms fine, solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. We offer this as the earliest strain of this standard variety. Grown pure, always gives satisfaction. Pkt. 4c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb 45c.; $\frac{1}{2}$ lb 80c.; lb \$1.50.

All Seasons. One of the most desirable new sorts and very popular as a market gardener's Cabbage. The heads are hard and solid, round, flattened on top, of very best quality, and are ready for market nearly as early as Early Summer, often larger in size. Noted for its ability to stand a hot summer and dry weather. Pkt. 3c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb 40c.; $\frac{1}{2}$ lb 75c.; lb \$1.35.

Rockford Market. The Best Second Early Ever Introduced. It has peculiarity of heading firmly at an early stage in its growth so that the finest Cabbage, though small, can be obtained long before it has attained its natural size. Its uniformity in shape, and large yield per acre render it particularly valuable to truckers, and its compact form and good quality will render it the finest second early Cabbage. Pkt. 4c.; oz. 18c.; 2 oz. 30c.; $\frac{1}{4}$ lb 50c.; $\frac{1}{2}$ lb 90c.; lb \$1.75.

Sure Head. A famous main crop Cabbage, of the "Flat Dutch" type. Heads uniform, hard, firm and fine in texture, weighing from 10 to 12 lbs.; sweet flavored; has scarcely any loose leaves; keeps well. Pkt. 3c.; oz. 12c.; 2 oz. 20c.; $\frac{1}{4}$ lb 35c.; $\frac{1}{2}$ lb 65c.; lb \$1.25.

Early Summer. This variety is deservedly popular with the market gardeners. It forms large, solid, round, flattened compact heads of excellent quality. The heads double the size of the Jersey Wakefield, while it matures only 10 to 12 days later. Pkt. 3c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb 40c.; $\frac{1}{2}$ lb 75c.; lb \$1.35.

Mammoth Large Late Drumhead. Sure Cropper, Money Bringer. This Cabbage, like our Great Northern Flat Dutch, has so long been an established standard, that certain peculiarities have been bred into it and have become so firmly fixed as to be necessary features of growth. It is as natural for this Cabbage to form a head as to form leaves, and reports of 99 marketable heads from 100 plants are of frequent occurrence. Our Large Late Drumhead far surpasses the old-fashioned strains of the same name, being quicker and more certain to mature, having heads of deeper and better shape. The head is rather broader and flatter than the Flat Dutch; but the inside texture is much the same, and the flavor is equally good. It is a standard sort for winter keeping and sells readily in winter and spring markets. Large pkt. 4c.; oz. 18c.; 2 oz. 35c.; $\frac{1}{4}$ lb 60c.; $\frac{1}{2}$ lb \$1.00; lb \$1.75.

Mammoth Red Rock. The Best Variety for Pickling. This is the best, largest and surest heading Red Cabbage yet introduced and much better than the stock offered as Red Drumhead. The head is large, round, very solid, deep red color. Nearly every plant will form an extra fine head. Close grained and of superior quality for cooking and pickling. It's the sort the Yankee likes and the German seeks. If you intend using any pickling Cabbages this season be sure to include this variety in your order, as it never fails to please. Large pkt. 4c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb 40c.; $\frac{1}{2}$ lb 75c.; lb \$1.40.

Improved Savoy. The finest of the "Savoys." Heads large, solid and compact, flavor of surpassing excellence. Pkt. 3c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb 35c.; $\frac{1}{2}$ lb 65c.; lb \$1.20.

Danvers Private Stock

OX HEART

New Early Chantenay

THE BEST CARROT'S

DANVERS PRIVATE STOCK

Most excellent for all soils and will yield greater bulk with smaller length of roots than any other variety. It is of a rich, dark orange; roots are wonderfully smooth and handsome. Over 40 tons per acre have been raised with good cultivation, and has often given 25 to 30 tons per acre. Finest of all for market and home use. **Pkt. 4c.; oz. 12c.; 2 oz. 23c.; ¼ lb 45c.**

HALF LONG DANVERS

Yield Enormous; Quality Superb. The best Carrot for general crop; is of a rich orange color, very heavy yielder and splendid keeper. A first class Carrot for all kinds of soil; valuable for both table use and stock. **The Leading Carrot.** We have an extra fine strain of this favorite sort. **Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.**

OX HEART, or GUERANDE

Early; Handsome; Ready Selling. Tops small for the size of the roots, which are comparatively short, but often reach a diameter of 7 inches, terminating abruptly in a small tap root. Flesh bright orange, fine grained and sweet. **Pkt. 4c.; oz. 12c.; 2 oz. 23c.; ¼ lb 45c.**

IMPROVED LONG ORANGE

The most popular of the older sorts for farm use on mellow soil. An improvement by years of careful selection of the best form and deepest colored roots of the Long Orange, and smoother. **Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.**

EARLY SCARLET HORN

Very Popular. A favorite for early crop. Color deep, beautiful orange; flesh finely grained and of an agreeable flavor; tops small; has a short stump root, large at top, therefore easily pulled. Grows well in shallow soil; fine quality; yields and sells well. **Pkt. 3c.; oz. 12c.; 2 oz. 23c.; ¼ lb 45c.**

New Early Garden

EARLY CHANTENAY

The Best Bunching Carrot. Best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about 6 inches long, are stump rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. **Pkt. 4c.; oz. 12c.; 2 oz. 23c.; ¼ lb 45c.**

NEW EARLY GARDEN

Extra early and well suited for forcing. Nearly round roots of yellowish brown color. Never grows over 3 inches in diameter, and are best used when about 1 inch. **Pkt. 4c.; oz. 15c.; 2 oz. 28c.; ¼ lb 50c.**

STOCK CARROTS

MAMMOTH WHITE BELGIAN

Are unexcelled for feeding. Steers take on beef very rapidly when fed on them, and milch cows immediately improve.

The roots are mammoth in size and very productive, often yielding 10 tons and over of roots per acre. The lower part of the root is white, that growing above the ground and exposed to the air being green. **Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 30c.; 1 lb 55c.; 5 lb \$2.65, postpaid.**

● MAMMOTH YELLOW BELGIAN

Identical to the White Belgian except in color. **Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 35c.; 1 lb 60c.; 5 lb \$2.90, postpaid.**

The Very Best of Celery

Giant Pascal The latest and best variety of Celery. It is a selection from the Golden Self-Blanching, and adds to the general good qualities of its parent; superior keeping qualities. Stalks are very large, thick, solid, crisp, and of a rich nutty flavor, free from any trace of bitterness. It blanches very easily and quickly, and retains its freshness a long time. The heart is golden yellow; very attractive. Pkt. 4c.; oz. 12c.; 2 oz. 22c.; $\frac{1}{4}$ lb 40c.

Golden Self-Blanching

French Grown Seed from Originator's Stock. This is the best Celery for early use. Plants of a yellowish green color when young, but as they mature, the inner stems and leaves turn a beautiful golden yellow which adds much to their attractiveness and makes the work of blanching much easier. The handsome color, crispness, tenderness, freedom from stringiness and fine nutty flavor of this variety makes it only necessary to be tried in order to establish it as the standard of excellence as an early variety. Pkt. 6c.; $\frac{1}{2}$ oz. 35c.; oz. 60c.; 2 oz. \$1.10; $\frac{1}{4}$ lb \$2.00.

New Golden Heart

New Golden Heart **Original Private Stock.** Best late Celery. This variety makes a very strong, vigorous plant with large, very white, crisp, brittle, tender and fine flavored stalks; it is late, and requires the whole season to develop, but will keep longer than any other sort. We recommend it as worthy of first place as a late Celery. Pkt. 4c.; oz. 12c.; 2 oz. 23c.; $\frac{1}{4}$ lb 45c.

White Plume Earliest variety grown and can be blanched ready for the table in September. Pkt. 4c.; oz. 12c.; 2 oz. 22c.; $\frac{1}{4}$ lb 40c.

Celeriac or Turnip Root-ed Celery. Earliest of all. Our stock of this variety has been especially cultivated and will be found very fine. Pkt. 4c.; oz. 18c.

Celeriac

IMPORTANT!

Our Celery seed has a world wide reputation and is the best that is grown. Every plant that we allow to seed is a thoroughbred.

Best Cucumbers

(See Page 8 for New Cucumbers)

**BEST PRICES
LOWEST SEEDS**

New Emerald

A dark green Cucumber, retaining its color until quite ripe. Fruits set early. For slicing, the flesh is tender and crisp, with a most pleasing flavor. Excellent pickles when young, and fine for sweet pickles when ripe. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 28c.; ½ lb 40c.; 1b 75c.**

Davis Perfect

A grand new variety. Dark, glossy green, slim and symmetrical, with an average length of 10 to 12 inches. They hold color till nearly ripe, when they turn white without a yellow streak on them. Fine for

table, as seeds are very soft. Tender, brittle, flavor exceptional. **Pkt 4c.; oz. 8c. 2 oz. 15c.; ¼ lb 28c.; ½ lb 50c.; 1b 80c.**

Monarch White Spine

White, Crisp and Tender Flesh. It is an early, prolific and continuous producer of uniformly large and symmetrical fruits of an intensely rich, deep green color, scarcely marked with faint yellowish shading towards the tip. **Large pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 40c.; 1b 75c.**

Arlington White Spine

Has no thick ends, abundant yielder, fruit always even shape, tender and crisp. **Pkt. 3c.; oz. 6c.; 2 oz. 11c.; ¼ lb 20c.; ½ lb 35c.; 1b 60c.**

New Extra Early Long Green

Uniformly Large Fruits of Good Form. Vines vigorous and productive; fruit fit for the table nearly as early as shorter sorts. Fruit grows about 12 inches long, firm and crisp. The young fruit makes the best pickles, and when ripe are preferable to any for sweet pickles. For hot-bed forcing, for early in the open ground, or for any purpose whatever, this Cucumber is peer of all. **Large pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 28c.; ½ lb 50c.; 1b 90c.**

Early Prolific Short Green or Early Frame

A most excellent sort for pickling as well as for table use. Fruit straight, handsome, crisp and tender. Keeps green a long while. **Pkt. 3c.; oz. 6c.; 2 oz. 11c.; ¼ lb 20c.; ½ lb 35c.; 1b 60c.**

The New Parisian Prolific Pickling

The best of all in quality for pickling. Fruit is of an unusually dark green color; no coloring matter is necessary. Very crisp and tender. **Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb 30c.; ½ lb 55c.; 1b \$1.00.**

EXTRA
EARLY
LONG
GREEN**

New Everbearing

Vines produce fruit continuously until killed by frost. They exhibit at the same time Cucumbers in every stage of growth but invariably of perfect form, even when small. The fruit is of fine green color and very desirable for pickling. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 40c.; 1b 75c.**

Early Cluster

Fruit is of the form desirable for pickling. Extraordinarily prolific, often growing in clusters of 2 or 3 Cucumbers. **Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb 22c.; ½ lb 35c.; 1b 60c.**

Chicago or Westerfield Pickle

This standard variety maintains its high quality. We supply many of the leading growers with our selected seed. For general pickling purposes it is one of the best. The fruit when ripe is medium length, pointed at both ends, with large, prominent spines. The small fruits are just the right shape for the best grades of pickles and command the highest price from manufacturers. Vines set fruit when young and continue bearing. **Pkt. 5c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 28c.; ½ lb. 50c.; 1b. 90c.**

Snow's Early Pickle

A very high type of pickle. It has been fully tried, and the results in all cases have been immensely satisfactory. Those who are growing pickle Cucumbers for market cannot make a mistake if they plant Snow's Early. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 40c.; 1b 70c.**

Snake, or Serpent Cucumber

They attain a good size and the quality is very good. Raised mostly for curiosity and exhibition purposes and always attract attention. **Pkt. 5c.; oz. 15c.; 2 oz. 25c.; ¼ lb 45c.**

West India Gherkins

Used exclusively for pickling. Small, oval-shaped prickly fruit. **Pkt. 4c.; oz. 10c.**

The Best Sweet Corn

(See Page 6 for New Varieties)

Our Sweet Corn is grown on our own farms from Selected Hand Graded Seed, and can be relied upon

Extra Early Adams

While not a Sweet Corn, this is a tender white Corn for table use. Dwarf stalks, small ears, hardy; can be planted earlier than any Sweet Corn. **Pkt. 5c.; ½ pt. 8c.; pt. 14c.; qt. 25c.**

Early Minnesota

This popular variety is one of the best early sorts for the market and the private garden. By careful selection we have developed a stock which is remarkably uniform and in which all the good qualities that are so popular are intensified. **Pkt. 5c.; ½ pt. 8c.; pt. 14c.; qt. 25c.**

Moore's Early Concord

Produces its large, handsome, 14 to 16 rowed ears very low on the stalk. An excellent sort, either for canning factory or the garden. **Pkt. 5c.; ½ pt. 8c.; pt. 14c.; qt. 25c.**

Ballard's Early Chicago Market

Desirable for market gardeners and very valuable for the family garden. Symmetrical growth, good yield and fine quality, place it as most popular variety. **Pkt. 5c.; ½ pt. 8c.; pt. 14c.; qt. 25c.**

Extra Early Cory

The largest of the extra early sorts, so early that two crops can readily be grown on the same ground in a single season. Ears eight rowed, with red cob and very light pink grains. **Pkt. 5c.; ½ pt. 8c.; pt. 14c.; qt. 25c.**

Earliest of All

Earliest of All

Early, Prolific, Sweet, Tender

Ears are of fine form, good size, and well filled with large grains to the very tip. Many of the ears contain ten to twelve rows, while the Cory has only eight rows. Quality superior, very sweet. **Pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 30c.**

Mammoth Early White Cob Cory

Selected for white cob and kernels from the original and earliest Cory. For a strictly first class early, for market and home use you will be delighted with Early White Cob Cory. **Pkt. 5c.; ½ pt. 8c.; pt. 14c.; qt. 25c.**

Country Gentleman

Ears of full size, retaining all the delicious sweetness and qualities of Ne Plus Ultra. Three to five ears to a stalk. **Pkt. 5c.; ½ pt. 9c.; pt. 16c.; qt. 28c.**

Early Minnesota

Mammoth Cory

Mammoth Sugar

Produces the largest ears of any variety, a single ear often weighing two or three pounds. Of excellent quality, it is tender and delicious. **Pkt. 5c.; ½ pt. 9c.; pt. 15c.; qt. 28c.**

Improved Hickox

Popular wherever known. One to two weeks earlier than Evergreen. Large, attractive ears; has a white cob and grain and remains in condition and use a long time. Best sort for drying and canning. **Pkt. 5c.; ½ pt. 9c.; pt. 16c.; qt. 28c.**

Stowell's Evergreen (Special Stock)

Late, Large Size, Prolific, Sweet and Tender. The standard main crop variety, and if planted at same time as earlier varieties, will keep the table supplied until October. It is hardy and productive, very tender and sugary, remaining a long time in condition suitable for boiling. **For Table Use** the quality of this corn can not be excelled. **Large pkt. 5c.; ½ pt. 9c.; pt. 16c.; qt. 28c.**

Stowell's Evergreen

Pop corn should be found in every garden, especially if there are children to enjoy it during the long winter evenings, which bring young people together for social amusement.

New Snowball—The finest white variety in existence. The best yielder, ears averaging six inches in length. Pkt. 5c.; $\frac{1}{2}$ pt. 15c.; qt. 25c.; qt. 40c.

New Striped or Variegated—A fancy variety. Rather large ears, filled out with clear, transparent white kernels, beautifully striped with bright crimson. Pkt. 5c.; $\frac{1}{2}$ pt. 15c.; qt. 25c.; qt. 40c.

New Red Beauty—Fine variety. The stalks grow six feet high, and average three to four ears each from five to six inches long and covered with large rice-shaped kernels of a deep red color. Pkt. 5c.; $\frac{1}{2}$ pt. 15c.; qt. 25c.; qt. 40c.

Queen's Golden—One of the very best and most prolific varieties grown. It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch. The stalks grow six feet high, and the large ears are produced in abundance. Pkt. 5c.; $\frac{1}{2}$ pt. 15c.; qt. 25c.; qt. 40c.

Mapledale Prolific—The stalks grow six feet high, and the ears are all large in size, with grains nearly clear white in color. An average ear measures six and a half inches long and contains 585 perfect kernels. Pops pure paper white, of fine quality. Pkt. 5c.; $\frac{1}{2}$ pt. 15c.; qt. 25c.; qt. 40c.

Endive, or Winter Lettuce

Endive, New Moss Curled

New Moss Curled. A medium sized, compact growing variety, with densely curled, mosslike leaves. Pkt. 3c.; oz. 9c.; 2 oz. 15c.; $\frac{1}{4}$ lb 28c.

Egg Plant

New Large Spineless Purple. The plants are of low, stocky, branching habit and absolutely free from spines. It is a very early and continuous producer of handsome, purple fruits of the largest size and finest quality. The plants usually bear 8 to 10 immense fruits before killed by frost. Large pkt. 4c.; oz. 25c.; 2 oz. 40c.; $\frac{1}{4}$ lb 70c.

New White. The flesh is more tender, and flavor more delicate than purple varieties. Pkt. 4c.; oz. 25c.

Extra Early Long Purple. One of the earliest and most productive varieties. Fruit long, dark rich purple and of fine quality. Sure to give the best of satisfaction for all purposes. Pkt. 3c.; oz. 15c.

Egg Plant, Extra Early Long Purple

Corn Salad

Corn Salad

(Fetticus or Lamb's Lettuce)

This small salad is used during the Winter and Spring months as a substitute for Lettuce, and is also cooked and used like Spinach. In warm weather the plants will mature in four to six weeks. Pkt. 3c.; oz. 6c.; 2oz. 10c.; $\frac{1}{4}$ lb 18c.

Egg Plant, New Large Spineless Purple

Garlic

Garlic

The Garlic is the most pungent in taste and has the strongest odor of all the Onion family. It is largely used in the south of Europe, where it is esteemed for flavoring soups, stews, etc. The root or bulb is composed of many small bulbs called "cloves," which are planted in the spring. We frequently receive orders for Garlic seed, but can supply the bulbs only. **Fine Bulbs,** $\frac{1}{4}$ lb 8c.; $\frac{1}{2}$ lb 15c.; lb 25c.

Kohl Rabi

Kale or Borecole

Fine Green Curled. (German Greens or Sprouts). This is hardier than Cabbage, and makes excellent greens for winter and spring use. The leaves are as curly as Parsley, tender and of very fine flavor. Immense quantities are grown in the south and shipped to northern markets. We have an excellent strain of it. Sow the seeds in May or June, transplant in July and treat same as Cabbage. **Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 35c.**

Kale, or Borecole

Kohl Rabi

Best Vienna. Early and rapid grower with few and small leaves, very delicately flavored. **Pkt. 4c.; oz. 15c.**

Leek

New Flag. Very superior variety, producing white, uniformly large stems 2 inches in diameter by 10 inches long, of delicate flavor. **Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 20c.**

Leek, New Flag

HERBS—Sweet Pot and Medicinal

See page 46 for Herb Plants

Indispensible to the cook, useful in the sick room, and many kinds fine for perfuming clothing, etc. The varieties marked with an asterisk [*] are perennial, and when once obtained in the garden, may be preserved for years with but little care.

Anise. Used for cordials, garnishing and flavoring. **Pkt. 3c.; oz. 10c.**

***Balm.** Leaves have a fragrant odor. Used for making a pleasant beverage known as Balm Wine; also for Balm Tea for use in fevers. **Pkt. 3c.; oz. 20c.**

Basil, Sweet. Leaves used for flavoring soups and seasoned dishes. **Pkt. 3c.; oz. 15c.**

Borage. Leaves used for flavoring and the flowers furnish bee pasture. **Pkt. 3c.; oz. 10c.**

***Catnip.** Leaves and young shoots used for seasoning; also a mild nerve for infants. **Pkt. 3c.; oz. 30c.**

***Caraway.** Seeds used for flavoring bread, pastry, candy, etc. **Pkt. 3c.; oz. 8c.**

Coriander. Used in the manufacture of liquors, confectionery, etc. **Pkt. 3c.; oz. 8c.**

Dill. Seeds used as a condiment and also for pickling Cucumbers. **Pkt. 3c.; oz. 8c.; $\frac{1}{4}$ lb 18c.**

***Fennel, Sweet.** Leaves ornamental; are boiled for fish sauce. **Pkt. 3c.; oz. 9c.**

***Hyssop.** Is a stimulant, and used for asthma and chronic catarrh. **Pkt. 3c.; oz. 15c.**

***Horehound.** Leaves used for seasoning and making cough medicine. **Pkt. 3c.; oz. 20c.**

***Hop Seed.** **Pkt. 15c.**

***Lavender.** An aromatic Medicinal herb. **Pkt. 3c.; oz. 15c.**

Marjoram, Sweet. Leaves and shoots used for seasoning. **Pkt. 3c.; oz. 15c.**

Poppy, Opium. The plant from which opium is manufactured. **Pkt. 3c.; oz. 25c.**

Pennyroyal. True sort. Particularly suited for planting in rock work. **Pkt. 5c.**

Pot Marigold. A very pretty and useful plant. **Pkt. 3c.; oz. 15c.**

***Rosemary.** Ornamental herb. Leaves used for seasoning. **Pkt. 3c.; oz. 20c.**

***Rue.** For medicinal purposes. Good for colds and croup. **Pkt. 3c.; oz. 15c.**

Saffron. Used in coloring certain dishes; also for flavoring. **Pkt. 3c.; oz. 9c.**

***Sage.** Extensively used for seasoning and dressing. **Pkt. 3c.; oz. 12c.; $\frac{1}{4}$ lb 35c.**

Savory, Summer. Leaves and flowers are used in flavoring soups. **Pkt. 3c.; oz. 10c.**

***Savory, Winter.** Leaves and young shoots used in flavoring. **Pkt. 4c.; oz. 20c.**

***Tansy.** For medicinal use. **Pkt. 4c.; oz. 25c.**

Thyme. Leaves and young shoots used for seasoning. **Pkt. 3c.; oz. 25c.**

Wormwood. Used medicinally. It is also beneficial to poultry. **Pkt. 3c.; oz. 20c.**

New Iceberg

The Best Lettuce—All Choice Home Grown Seed

BIG BOSTON

Very popular variety with gardeners who want a large-heading, forcing sort, and also for outdoor Winter culture. Quite tender. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 20c.; $\frac{1}{2}$ lb 35c.; lb 60c.

ICE DRUMHEAD

It grows rapidly, heads extremely early. Outer leaves are first tinged with brownish red, changing toward the center from a golden yellow to a creamy white. Very tender; of a sweet, buttery flavor and never bitter. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 30c.; lb 50c.

NEW ICEBERG

Quick growing and of exquisite flavor. The large curly leaves which cover the outside of the solid heads are of bright, light green, with a slight reddish tinge on the edges. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 20c.; $\frac{1}{2}$ lb 35c.; lb 60c.

MAY KING

For early Spring planting in open ground it is unequalled. The plant is practically all head. Of rich, buttery substance, outer leaves are of light green, slightly tinged with brown; inner leaves are bright yellow, of a specially fine, rich, buttery flavor. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 75c.

SIMPSON'S EARLY CURLED

A decidedly crisp variety. Color very light green; never spotted or brownish in any part. Quality excellent; sweet in flavor. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 30c.; lb 50c.

EARLY PRIZE HEAD

This old standard sort still stands at the head of the large, thin leaved clustering sorts. The very large leaves are savoyed, or crimped, bright green, tinged with red, and are exceedingly tender, crisp and sweet. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 20c.; $\frac{1}{2}$ lb 35c.; lb 55c.

All Seasons Lettuce

IMPROVED HANSON

Large, firm heads, deliciously sweet, crisp and tender. Heads green outside, white within. None better for outdoor culture. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 30c.; lb 50c.

MAMMOTH BLACK SEEDED BUTTER

A strain of large, smooth-leaved head Lettuce, forming large, solid, Cabbage-like heads of thick, brittle leaves, inner ones becoming very white, tender and fine flavored. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 30c.; lb 50c.

IMPROVED BLACK SEEDED SIMPSON

Acknowledged the best early forcing variety. The leaves are a delicate green, almost white. Always crisp and tender. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 30c.; lb 50c.

GRAND RAPIDS FORCING

New variety of superior quality; keeps crisp and tender without wilting longer than any other Lettuce. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 30c.; lb 50c.

ALL SEASONS

Sometimes Called San Francisco Market or the Deacon Lettuce

This magnificent Butter Lettuce is unsurpassed for family, garden or market use; of delicious, rich, buttery flavor. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 75c.

TOMHANNOCK

This Lettuce doesn't head—makes a loose bunch of leaves of very fine quality. Edges of outer leaves are a reddish bronze; inside leaves almost white. Crisp and tender. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 20c.; $\frac{1}{2}$ lb 35c.; lb 60c.

DWARF WHITE HEART OR CELERY LETTUCE

Earliest in cultivation. The plants grow about eight inches high and four to five inches across. Excellent flavor and crisp and tender. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 75c.

for
New
Melons

BEST
LOWEST PRICES
SEEDS

The New Strawberry

New Strawberry Melon. Flavor like that of a Strawberry. Hence the name. The fruits weigh from 6 to 8 pounds each. Its smooth, deep flesh is of an attractive orange-red color, particularly soft and melting, and with that exceptionally delicious strawberry flavor leaves nothing more to be desired in a Musk Melon. Originated by planting the most luscious variety of strawberries between every two rows of a Hybrid Musk Melon previously perfected. Stock limited. **Price, choicest seed of our own growing, Pkt. 10c.; oz. 15c.; 2 oz. 25c.; 1/4 lb 45c.; 1/2 lb 80c.; 1 lb \$1.50.**

Sugar Nutmeg. The best small Melon for baskets and table. The finest of all Nutmeg Melons. Fruit of medium size, slightly ribbed; globular. Skin dark green, becoming yellow when overripe, and nearly covered with broad, shallow netting. Always in good demand. Our stock is carefully selected. **Price, pkt. 4c.; oz. 7c.; 2 oz. 12c.; 1/4 lb 23c.; 1/2 lb 40c.; 1 lb 70c.**

New Winter Pineapple. The only Melon that can be kept until Christmas. The color of the flesh is a deep lemon yellow, and the outer skin is a dark green, marked with yellow. The quality is delicious, having a rich spicy flavor that is not possessed by any other fruit. They very rarely ripen on the vines, so the Melons must be picked off in the Fall and put in some cool place. It is usually necessary to place them in a warm room for three or four days to ripen. **Price, pkt. 4c.; oz. 12c.; 2 oz. 22c.; 1/4 lb 40c.**

Emerald Gem. Fruits small to medium size, globular or very slightly flattened at the ends. Skin deep green while young, becoming tinged with yellow as the fruit matures. Flesh deep salmon yellow, thick. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; 1/4 lb 25c.; 1/2 lb 45c.; 1 lb 80c.**

Northern Giant

Northern Giant. The largest Melon ever grown. This variety is well named the "Giant" as it towers up above all others either in the field or market. Often weighs 30 pounds or more. Color of skin is a yellowish-green; the shape is nearly round, slightly flattened. The flesh is light salmon color, rich, melting and sugary. Quite thick meat; ripens clear to the skin, has a small seed cavity. As an exhibition and large market variety it is grand; exceptionally desirable for family and market purposes. A fine shipper owing to the toughness of the rind. **Price, pkt. 5c.; oz. 15c.; 2 oz. 25c.; 1/4 lb 40c.; 1/2 lb 70c.; 1 lb \$1.35. 70c.; 1 lb \$1.35.**

The New Paul Rose. An excellent shipper; fine quality, fruit oval, about five inches in diameter; one of the very best sorts for the home garden. An exceptionally pure and fine stock grown on our own farms. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; 1/4 lb 25c.; 1/2 lb 45c.; 1 lb 80c.**

Osage or Improved Miller's Cream. Medium sized, oval, slightly ribbed, dark green in color covered more or less with shallow netting. The flesh is deep salmon color and very thick. We have taken a great deal of pains to develop the thick, deep, rich colored and finely flavored flesh of this sort, and a careful comparison on our trial grounds proves it unequalled. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; 1/4 lb 25c.; 1/2 lb 45c.; 1 lb 80c.**

Extra Early Hackensack. One of the most popular; reliable and bountiful yielder; large, handsome, early. Flesh green, rich, sugary. **Pkt. 3c.; oz. 6c.; 2 oz. 10c.; 1/4 lb 18c.; 1/2 lb 35c.; 1 lb 60c.**

New Banana. Surpasses all others in delicious flavor. Outside color creamy yellow or straw color. Flesh very solid, of rich salmon color. Should be thoroughly ripe to be of the best flavor. Grows from 18 to 24 in. long and is very prolific. When ripe its shape suggests an overgrown Banana, smells like one, with delicious fragrance. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; 1/4 lb 25c.**

Fordhook Early

The Best Water Melons

1 Ounce for 30 hills
5 Pounds in hills per acre

Cole's Early. The Best Extra Early Melon. The finest Melon ever offered for the amateur and for the home market. Being somewhat brittle will not do for shipping purposes. Very early and will mature in every state. Very hardy, vigorous and a sure cropper. Flesh sweet and delicate in texture, of a deep red color. The rind is thin and the quality of the flesh is sustained clear to the rind. Large pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb 18c.; ½ lb 30c.; lb 50c.

Sweetheart. One of the Best. An entirely new and distinct variety; early, large, handsome, best quality. Carloads of Sweethearts sold at fancy prices when no other was salable. Vine vigorous and productive, ripening fruit early. Fruit large, oval, heavy, uniformly mottled light and dark green; rind thin, but firm; flesh bright red, firm, solid, very sweet and tender. A good keeper. Pkt. 3c.; oz. 5c.; 2 oz. 10c.; ¼ lb 15c.; ½ lb 25c.; lb 40c.

Wonderful Sugar. Excellent new variety. In fact, it has already become so popular that it is the only variety grown in some localities. Melons of 40 to 60 lbs. are of average occurrence. Flesh red and deliciously sugary. Very prolific, does well in any weather. Fine keeper. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb 15c.; ½ lb 25c.; lb 40c.

Ice Cream, or "Peerless." Medium size, almost round, succeeds well in the north. Skin light green, mottled. Flesh red. Pkt. 3c.; oz. 5c.; 2 oz. 10c.; ¼ lb 15c.; ½ lb 25c.; lb 45c.

Improved Dixie. A large, oblong shaped Melon, color dark green striped. Fine shipper. Quality fine. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb 15c.; ½ lb 25c.; lb 45c.

Perfected Kolb's Gem. Fruit of the largest size,

round or slightly oval, marked with irregular mottled stripes of dark and light green, under side creamy yellow color. Outer rind or shell exceedingly hard and firm, good sort for shipping long distances. Flesh bright red, sweet tender and melting. Pkt. 2c.; oz. 4c.; 2 oz. 7c.; ¼ lb 12c.; ½ lb 20c.; lb 35c.

Harris' Early. Sweetest, Largest and Best shipping Early Melon. Form oval to oblong; beautifully striped with green and gray; bright red flesh, sweet, tender and delicious. Very productive. The Melon for everybody to grow who wants to be first in the market with fine large Melons weighing from 20 to 30 pounds.

Extremely early, of handsome appearance and fine table qualities. Bears shipment very well. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 35c.; lb 60c.

Fordhook Early. Nearly round variety of large size. Fine shipper. Rind thin and tough. Flesh red. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb 15c.; ½ lb 25c.; lb 45c.

Florida Favorite. Enormous size; flesh of a beautiful crimson color, clear up to the rind, which is hard, thin and beautifully mottled. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb 18c.; ½ lb 30c.; lb 50c.

Georgia Rattlesnake. One of the finest ever grown; splendid keeper; excellent shipper. Sometimes called Striped Gypsy. A very large Melon. Pkt. 3c.; oz. 5c.; 2 oz. 8c.; ¼ lb 15c.; ½ lb 25c.; lb 40c.

Jones' True Jumbo. The Giant of all Melons. One of the most productive. Color of skin solid green. Flesh very bright and red, almost to rind. Particularly sweet, juicy and melting. Grows to large size, frequently attaining the weight of eighty pounds. Large pkt. 3c.; oz. 5c.; 2 oz. 8c.; ¼ lb 12c.; ½ lb 20c.; lb 35c.

Mushroom Spawn

Easy to Grow. Quick to Mature.
Delicious to Eat.

A 1 Pound Brick will Plant 10 Square Feet

Mushrooms can be grown in tubs, in flats, but the culture requires careful attention and the temperature of the room must be kept at unhealthful degree. A city man, however, can dig a "dug out" on the north side of his house, roof it over with rough boards and grow enough mushrooms for home use. If he wants to roof over a part an old deserted quarry he can grow mushrooms for the market. Contrary to popular belief, the culture of Mushrooms in a cellar is healthful. They absorb all the moisture and keep the cellar dry and the air pure. On a bed 50 feet square one can do a profitable marketing business.

We can safely assure all Mushroom growers, as well as those who have never grown any, but are on the point of trying it, that they will find Sure Crop Spawn to be all that is claimed for it and more. It produces immense crops and the Mushrooms that are in demand at the very highest market prices.

In order to meet the demand for Sure Crop Spawn, and to provide against deterioration of its producing qualities, our arrangement with the producer is for frequent shipments, which, coupled with the care we give it, renders it absolutely certain that our customers will all be furnished with Spawn that, if they handle it properly, will bring them big returns.

Any cellar, a cave, an old quarry pit, even a dug-out in a

city back yard, makes an ideal Mushroom garden. A space the size of an ordinary bed, carefully cultivated, will yield all the Mushrooms that a good-sized family can use.

For a small sum one can buy sufficient Mushroom cakes to plant a large cellar and have an assured income. For an old man, whose days of activity are past, no work offers the chance of an independent, healthful, easy livelihood, equal to Mushroom growing.

Sure Crop Mushroom Spawn. By a newly discovered process of selection and grafting, the spawn is scientifically propagated so that large, vigorous and fine flavored mushrooms are reproduced. Earlier, more productive and a marked improvement on the wild spawn, either French or English. Postpaid, lb. 30c.; 4 lbs. \$1.00. By express or freight at buyer's expense, lb. 20c.; 5 lbs. 95c.; 25 lbs. \$3.75; 100 lbs. \$11.75.

English. Fine variety for all purposes. We import this stock every month, so can always furnish fresh spawn. Price postpaid, lb. 25c.; 5 lbs. \$1.00. By express or freight at buyer's expense, lb. 15c.; 8 lbs. \$1.00; 25 lbs. \$1.95; 100 lbs. \$7.15.

Money Making Onions

Popular Varieties that Have
No Equal

Illinois Golden Globe. Long Keeper. Best Shipper. Perfect Shape. exquisite Color. Splendid Flavor. The most perfect type of the globe-shaped Onion ever offered. It ripens early, has a very small neck, the entire crop drying down at one time. It is an immense cropper, and will yield more marketable Onions to the acre than any strain we are acquainted with. Trial tests have shown this great variety to yield over 2,000 bushels per acre, while under ordinary cultivation the past season, thousands of our customers have reported yields of 1,000 bushels per acre. Remember that we control the entire supply of this variety. Our own growth choicest Northern grown, high grade pedigree stock seed. Large pkt. 4c.; oz. 12c.; 2 oz. 22c.; $\frac{3}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 70c.; lb. \$1.25.

Ideal White Globe. This is the handsomest of all pure white, hard, small necked, ripening regularly and evenly; a splendid keeper. The flesh is firm and fine grained, and mild to taste. Average yields of 500 to 700 bushels per acre are of frequent occurrence. No market gardener or onion grower can afford to plant inferior stock, with only cheapness of price to recommend it, when seed like ours is to be had so reasonable, the results of planting a few ounces often paying many times the first cost of the best seed. Pkt. 5c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 65c.; $\frac{1}{2}$ lb. \$1.05; lb. \$1.90.

Illinois Blood-Red Globe. The celebrated Blood-Red Globe Onion. One of the most profitable for the market and shipping trade. It is of large size and splendid appearance, and frequently yields from 600 to 800 bushels per acre under average cultivation. It is an Onion of unusual merit. Flesh is firm, finely grained, very rich, yet unusually mild for a red Onion, and is sure to please the most fastidious. The crop is ready to harvest in early fall, and keeps well until the late spring months. Pkt. 4c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 80c.; lb. \$1.50.

Selected Yellow Strasburg or Dutch Bulbs are quite flat and of darker color than the Danvers; flesh white, of mild flavor; keeps well. This is the variety that is used most extensively for growing yellow Onion Sets. A great yielder and a splendid keeper. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 28c.; $\frac{1}{2}$ lb. 50c.; lb. 90c.

Grand NEW ONIONS

To Onion Growers

If you buy ten pounds of any variety, ask for special price. We can save you money on every deal. Our Great Pedigree Onion Seed is the brightest and freshest obtainable.

Extra Early Pickling

Nothing Earlier in Onions, Splendid for Pickling. This distinct variety is the very earliest Onion in cultivation. Of a pure paper-white color, very mild and delicate in flavor, from 1 to 1½ inches in diameter, and ¼ of an inch in thickness. Its extreme earliness makes it very valuable for early table use as well as bunch Onions for market. **Pkt. 4c.; oz. 15c.; 2 oz. 28c.; ¼ lb 50c.; ½ lb 90c.; lb \$1.75.**

Early White Welsh

For Green Onions. This kind does not form a bulb, but is one of the best kind for "green Onions." The plants are perennials and can remain in the ground for years. **Pkt. 4c.; oz. 15c.; 2**

Extra Early Pickling oz. 25c.; ¼ lb 45c.; ½ lb 80c.; lb \$1.50.

Early White Welsh

Large Red Wethersfield

The Standard Red Onion. A Leading Variety North, South, East and West. Our stock is saved from carefully selected bulbs only. Color, rich, dark red. Early; a fine keeper; flavor mild and sweet. **Large pkt. 4c.; oz. 9c.; 2 oz. 16c.; ¼ lb 28c.; ½ lb 50c.; lb 80c.**

Extra Early New Queen

A silver skinned variety of quick growth and remarkable keeping qualities. If sown in early Spring it will produce Onions 1 to 2 inches in diameter early in Summer; particularly valuable for pickles. **Pkt. 3c.; oz. 12c.; 2 oz. 23c.; ¼ lb 45c.; ½ lb 80c.; lb \$1.45.**

New White Silverskin

The Best White Onion. This is the standard white variety for general culture. The bulbs grow to good size, ripening early and quite evenly. It is a good keeper. The flesh is mild and sweet, the skin a silvery white. **Large pkt. 4c.; oz. 12c.; 2 oz. 23c.; ¼ lb 45c.; ½ lb 80c.; lb \$1.45.**

Round or Yellow Flat Danvers

Ideal in every respect for market purposes. Skin is thin, of a rich straw color; flesh is pearly white, fine grained, firm, mild and of excellent quality. Ripens exceedingly early, keeps well. **Pedigree stock seed, pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb 22c.; ½ lb 40c.; lb 75c.**

Large Red Wethersfield

New White Silverskin

Extra Early Red

Beautiful flat shaped variety of fine appearance. Very prolific. **Pkt. 3c.; oz. 9c.; 2 oz. 16c.; ¼ lb 28c.; ½ lb 50c.; lb 90c.**

Powhattan

The Best Globe Danvers Ever Grown. Sure Cropper, Long Keeper, Unequaled Shipper. The most perfect type of the globe-shaped Onion ever offered. It ripens early, has a very small neck, the entire crop maturing at one time. It is an immense cropper, and will yield more marketable Onions to the acre than any strain. Thousands of our customers have reported yields of 1,000 bushels per acre. **Choicest Northern grown high-grade Pedigree stock seed, pkt. 5c.; oz. 12c.; 2 oz. 20c.; ¼ lb 35c.; ½ lb 65c.; lb \$1.25.**

Southport White Globe

Of vigorous growth, producing large, white Onions of fine, mild quality. Excellent keeper. **Pkt. 4c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.; ½ lb 75c.; lb \$1.40.**

Southport Golden Yellow Globe

Thin, pale yellow skin; flesh firm, white and mild. Good cropper in all localities. **Pkt. 4c.; oz. 10c.; 2 oz. 18c.; ¼ lb 30c.; ½ lb 55c.; lb 95c.**

Southport Red Globe

Skin deep purplish red; flesh white and solid. Fine keeper and shipper. **Pkt. 4c.; oz. 10c.; 2 oz. 18c.; ¼ lb 35c.; ½ lb 60c.; lb \$1.15.**

PRICES

New White Potato Sets

Northern Grown Onion Sets

Bottom Onion Sets are simply little wee Onions grown from the black seed planted late and thick. They are about as big as the end of your finger, and when set out in the spring they come quick and make nice green Onions for bunching, or if left will bottom down and make big Onions like the ones from seed only lots earlier. We can furnish them in red, yellow or white at the following low prices:

Choicest White Bottom. Postpaid, pt. 12c.; qt. 20c.; By express or freight not prepaid, $\frac{1}{2}$ bu. 30c.; $\frac{1}{4}$ bu. 55c.; $\frac{1}{2}$ bu. \$1.05; bu. (32lbs.) \$1.85

Choicest Red Bottom. Postpaid, pt. 12c.; qt. 20c.; By express or freight, not prepaid, $\frac{1}{2}$ bu. 30c.; $\frac{1}{4}$ bu. 50c.; $\frac{1}{2}$ bu. 95c.; bu. (32lbs.) \$1.75.

Choicest Yellow Bottom. Postpaid, pt. 12c.; qt. 20c.; By express or freight not prepaid, $\frac{1}{2}$ bu. 30c.; $\frac{1}{4}$ bu. 50c.; $\frac{1}{2}$ bu. 90c.; bu. (32lbs.) \$1.65.

Top or Button Sets. Summer variety of exceptional merit. One of the best varieties grown. Postpaid, pt. 20c.; qt. 35c.; By express or freight not prepaid, $\frac{1}{2}$ bu. 60c.; $\frac{1}{4}$ bu. \$1.10.

New White Multiplier Sets. Extremely early and a fine keeper; valuable for both home and market purposes. Postpaid, pt. 20c.; qt. 35c.; By express or freight not prepaid, $\frac{1}{2}$ bu. 60c.; $\frac{1}{4}$ bu. \$1.10.

Egyptian or Perennial Tree Sets. This variety never forms a large bulb. Immensely productive and perfectly hardy. Being Perennial, they will, if left in the ground, continue growing for an indefinite time, increasing both from the bottom and from sets produced from the top of the stalks. Especially adapted for producing green Onions for spring or fall use. Postpaid, pt. 15c.; qt. 25c. By express or freight not prepaid, $\frac{1}{2}$ bu. 30c.; $\frac{1}{4}$ bu. 50c.; $\frac{1}{2}$ bu. 95c.; bu. (28 lbs.) \$1.75.

New White Potato Sets. Of fine silvery white color, producing 20 bulbs in a cluster from a single bulb planted. Of excellent size and quality for bunching green. Can also be ripened for use as Pickling Onions. Postpaid, pt. 22c.; qt. 40c. By express or freight not prepaid, $\frac{1}{2}$ bu. 60c.; $\frac{1}{4}$ bu. \$1.15.

Shallots or Yellow Multipliers. A very desirable variety resembling the White Multiplier except in color, which is a rich straw shade. Postpaid, pt. 20c.; qt. 35c. By express or freight, not prepaid, $\frac{1}{2}$ bu. 50c.; $\frac{1}{4}$ bu. 95c.

Yellow Potato Sets. Similar to White Potato except in color, which is of a bright golden yellow. Postpaid, pt. 20c.; qt. 35c. By express or freight not prepaid, $\frac{1}{2}$ bu. 60c.; $\frac{1}{4}$ bu. \$1.15.

Prices on Onion Sets Subject to Change Without Notice

Parsnips

New Sugar. A very fine and greatly improved strain of Hollow Crown Parsnip which we can recommend to all market men as a money-maker. The roots are smooth, not so long as those of the standard sort, somewhat thicker in diameter and much more easily pulled. A very heavy cropper. Large pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb 30c.; $\frac{1}{2}$ lb 50c.; lb 95c.

Hollow Crown, or Long White.

Roots comparatively short, ending somewhat abruptly with a small tap root, grows mostly below the surface; has a very smooth, clean skin, easily distinguished by the leaves arising from a depression on top or crown of the root. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 34c.; lb 60c.

New Maltese. An improved strain, which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Of excellent quality. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 70c.

New Moss Curled Parsley

Parsley

New Moss Curled. A greatly improved type of this useful class of herbs. Most exquisite in form and color. Invaluable as a garnishing plant, and suited for mixing with dwarf ornamental foliage plants in the garden. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 45c.; lb 85c.

Great Northern First and Best

Earliest of All, or Alaska

Nott's New Excelsior

Great Northern First and Best. By most careful comparison we are convinced that this is the earliest and most even stock of White Extra Early Peas in existence, maturing so well together that a single picking will secure the entire crop. Vines vigorous and hardy, 2 to 2½ feet high, unbranched, bearing 3 to 7 straight pods, having 5 to 7 medium sized, smooth Peas of good quality. **Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.**

McLean's Little Gem. Best Dwarf Early Pea. Earliest wrinkled Pea in existence. A very luxuriant grower, that withstands dry spells better than almost any known sort. Vines attain a height of 17 inches and require no sticking. Wonderfully prolific; pods are from 2½ to 3 inches long and always well filled. **Pkt. 7c.; ½ pt. 12c.; pt. 22c.; qt. 40c.**

Earliest of All, or Alaska. By careful selection and growing we have developed a stock of this smooth, blue Pea which in evenness of growth

of vine and early maturity of pods is unequalled by any other extra early Pea. Vines 2 to 2½ feet high, are unbranched, bearing 4 to 7 long pods, which are filled with medium sized, dark green Peas of excellent flavor. Has always maintained the highest reputation with gardeners for productiveness and fine quality, and it is the perfection in Peas, both for earliness and uniform habit in growth. One of its great features is that the crop is almost ready for the market at once, and the whole crop can be harvested in one or two pickings. These are very desirable features and just what the gardener requires, and every one should plant this great money-making Pea.

Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.

American Wonder. The Standard American Early Pea. This is a grand, blue, dwarf wrinkled Pea. Extremely early; from 10 to 17 inches high; literally fills itself with large pods, which ripen very evenly in 45 to 50 days. This variety should be grown in every garden. Of dwarf habit, it requires no sticking; bears more than taller sorts. **Pkt. 6c.; ½ pt. 12c.; pt. 22c. qt. 40c.**

Nott's New Excelsior. The Best Extra Early Dwarf Pea. It combines to a wonderful degree the good qualities of American Wonder and Vines are larger and more vigorous than American Wonder; earlier and more prolific than Premium Gem. The Peas in sweetness and quality are unsurpassed; a most desirable sort for the market gardener and the best of all for the home garden. **Pkt. 7c.; ½ pt. 15c.; pt. 25c.; qt. 40c.**

Extra Early Philadelphia A very valuable and improved strain of the famous Philadelphia, Extra Early; ready for table use in 45 days; grows about two feet high. **Pkt. 6c.; ½ pt. 10c.; pt. 16c.; qt. 30c.**

New Maud S. A new and immensely popular extra early variety, growing about thirty inches high; wonderfully productive, pods are of fine size and always well filled; noted for its uniformity of ripening, making it one of the most valuable Peas for market use. One of the very best for family purposes. **Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.**

New Mammoth Podded Sugar Marrowfat. A Superior Variety for General or Late Crop. For delicious sugary flavor this wonderful Pea surpasses them all. Out yields any known sort. Pods 5 to 6 inches long completely filled with superlative quality Peas. **Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.**

BEST
LOWEST PRICES
SEEDS

New Early Prosperity or Gradus. The New Extra Early Wrinkled Pea. The immense pods are as large as those of the Telephone, uniformly well shaped and handsome, and more attractive than those of the First Earlies. They ripen slowly and continue fit for use much longer than most varieties, making this by far the most desirable sort for the home garden. The Peas are very large, of splendid quality and beautiful color, which they retain after cooking. This variety is practically the same as what is being offered as "Prosperity." We have taken great pains to secure true stock and have it well grown, so we are sure that everyone who purchases our seed will be pleased with this variety. **Pkt. 7c.; ½ pt. 15c.; pt. 25c.; qt. 45c.**

Improved Stratagem. The Best Pea for Main Crop. By constant effort we have succeeded in producing a stock of this, the best of its class, which always comes true, and we pronounce it the best of the large podded sorts. Pods of large size, always filled with large dark green Peas of finest quality. **Pkt. 7c.; ½ pt. 12c.; pt. 22c.; qt. 40c.**

Grant's Favorite. Most Popular, Large Podded, Late Pea. This new variety is unquestionably the finest medium and late Pea ever offered, coming into use just after the early varieties are through bearing. This trait alone makes it an exceptionally valuable sort. The pods are always well filled with exceptionally sweet and highly flavored Peas. **Pkt. 6c.; ½ pt. 12c.; pt. 22c.; qt. 40c.**

Improved Champion of England. Universally admitted to be one of the richest and best flavored Peas and very productive. Height 4 to 5

feet. We consider this variety equal in quality to any in cultivation. **Pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 38c.**

Luscious Melting Sugar. The Pea that Fairly Melts in Your Mouth. This variety is far superior to all others of the edible podded class of garden Peas, not only in size of pod, but also in delicious quality, in which the large, sweet, brittle and succulent pods have none of the tough inner lining found in so many of the ordinary varieties of garden Peas. **Pkt. 7c.; ½ pt. 12c.; pt. 22c.; qt. 40c.**

Dwarf Telephone or Daisy. This is a dwarf variety of stocky habit, bearing large, handsome pods like Telephone, but without long vines, and grows more dwarf than Stratagem; healthy, vigorous and very productive. In season, medium, from 5 to 7 days earlier than Stratagem. The pods frequently measure 5 inches in length, broad, rounded or curved at the end, remarkably well filled. **Pkt. 7c.; ½ pt. 12c.; pt. 22c.; qt. 40c.**

Thomas Laxton. A comparatively new variety of large-podded Pea. The quality is delicious and cannot be surpassed; matures nearly as early as any of the extra early smooth Peas, and being a wrinkled sort is much sweeter. **Post-paid, pkt. 7c.; ½ pt. 15c.; pt. 25c.; qt. 45c.**

Large White Marrowfat. An excellent variety, growing about 48 in. high. Pods large; prolific; recommended as one of the best of Marrowfats. Nearly all prosperous and economical farmers prize this variety very highly for sowing with Oats for feeding to stock. It is excellent to fatten hogs and other stock when Peas commence to harden. Sow two bushels per acre with Oats. **Pkt. 5c.; ½ pt. 8c.; pt. 15c.; qt. 28c.**

The Best Peppers

(See Page 14 for New Peppers)

Improved Sweet Mountain. Plants very vigorous and productive. Fruit large, round, very smooth and handsome, being, when green, of a bright, deep green color, entirely free from any purple tinge, and when mature of a rich red. Flesh very thick, sweet and mild flavored. Well suited to use for stuffed pickles or mangoes. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; ¼ lb 50c.

New Ruby King. Popular, large fruited variety of great merit. Flesh very thick, sweet and so mild that it is often eaten sliced as a salad. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; ¼ lb 50c.

Large Bell or Bull Nose. Of good size; very dark red color when ripe. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.

Celestial. Beautiful ornamental variety. Fruits are small and very hot. Pkt. 4c.; oz. 15c.

Coral Gem Bouquet. Plant tall, bearing a profusion of round, bright red fruit which is very pungent when ripe. The plant, when in fruit, is very ornamental. Pkt. 5c.; oz. 35c.

Golden Dawn, or Queen. Quite dwarf, but very prolific. Fruit medium size, of inverted bell shape, rich golden yellow color, very thick, sweet, mild-flavored flesh. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.

Pepper, Improved Sweet Mountain

Fine Mixed. Comprises all the well known and standard Peppers as well as most of the novelties and less common sorts. Pkt. 4c.; oz. 20c.; 2 oz. 35c.; ¼ lb 65c.

Pie Plant, or Rhubarb

Sow seed early in the Spring, in rows one foot apart; the second year after planting they can be removed in Autumn to the permanent place. Plant roots two feet apart each way, in ground that is well enriched, at least two feet deep. Can be cured for Winter use by cutting the stalks into small pieces; string them and expose to the sun until perfectly dry; keep in a dry place until wanted. One ounce of seed should give 500 plants.

Western Market. Very productive. Fine large size and very early. Has a flavor similar to the Gooseberry. Without doubt the finest variety in existence. Pkt. 3c.; oz. 3c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 40c.; lb 75c.

Rhubarb or Pie Plant Roots. A saving of from two to three years is made by planting the roots. We have well established roots of the above variety. Price, by mail, postpaid, 15c. each; \$1.50 per doz. By express or freight not prepaid, 12c. each, \$1.15 per doz.; 100 for only \$6.75.

Pumpkins

(1 Ounce for 50 Kills)

King of the Mammoths. Prize Winner Everywhere. Most Profitable Variety That Can Be Grown. Wonderfully grand and colossal variety. Think of it a single Pumpkin weighing 469 pounds. It is one of the best pie and table varieties grown. A splendid keeper and exceptionally valuable for feeding purposes. Large pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb 30c.; ½ lb 55c.; lb \$1.00.

New Japanese Pie. The seeds are distinct in appearance, being curiously sculptured in the same manner as Japanese letters. It is a very productive variety; the Pumpkins ripen early, of medium size, good keepers and weigh 15 to 20 pounds each. The flesh is a rich salmon, unusually fine grained and when cooked or stewed is almost as dry and mealy as a sweet potato. For making pies, custard, etc., they certainly have no equal. Large pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb 20c.

Big Tom, or Yankee Pie. A splendid Pumpkin, medium size, of delightful quality to make excellent pies, such good old-fashioned Pumpkin pies as "mother used to make." Extremely early, remarkably prolific, yielding 6 to 12 Pumpkins to a vine; flesh very thick, fine grained, sweet, sugary. Oz. 5c.; 2 oz. 8c.; ¼ lb 12c.; ½ lb 20c.; lb 35c.

Sugar or Pie. A small Pumpkin about 12 inches in diameter, round flattened, skin orange, flesh deep yellow, fine grained and very sweet. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb 18c.; ½ lb 30c.; lb 50c.

Large Cheese. Popular for pies and table use; large, flat-round; creamy yellow skin; thick orange flesh of fine quality. Pkt. 3c.; oz. 5c.; 2 oz. 9c.; ¼ lb 15c.; ½ lb 25c.; lb 45c.

Large Yellow Field. A productive, large, orange colored field Pumpkin, usually grown for stock feeding, but also fine for pies. Oz. 5c.; 2 oz. 8c.; ¼ lb 12c.; ½ lb 20c.; lb 35c.

EARLY RED BIRD

EARLY SNOW WHITE

NEW EARLY ECLIPSE

FRENCH BREAKFAST

Early Red Bird. The earliest Red Radish. The quickest of all. Matures in 14 days. Quick growth is one of the main essentials for a crisp and tender Radish. The flesh is pure white, crisp and of very pleasant flavor; the skin is a most attractive bright scarlet. **Large** pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 18c.; $\frac{1}{2}$ lb 30c.; lb 50c.

Early Snow White. The earliest White Radish. Without an equal. Matures in 14 days. Identical to Red Bird except in color, which is Snow White. **Large** pkt. 5c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 75c.

New Early Eclipse. The handsomest and best early Radish. Ready for the table 14 days after planting. Of ideal shape and size, color bright scarlet with white tip. Flesh clear white, very crisp, fine flavor. **Large** pkt. 5c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.; $\frac{1}{2}$ lb 40c.; lb 75c.

New Icicle. The finest long white Radish grown. Entirely distinct, long, slender, pure white. Very early; it is ready for use fully as early as the Long Scarlet. **Large** pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 25c.; lb 40c.

Improved French Breakfast. Medium sized, olive shaped, small top, of quick growth, very crisp and tender, of a beautiful scarlet color, except near the tip, which is pure white. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 25c.; lb 40c.

Earliest Scarlet Turnip. One of the earliest, finest, juiciest, tenderest, sweetest and best Radishes for early use grown. Rich red color; flesh white. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 22c.; lb 35c.

New White Lady Finger. Beautiful in shape and the skin and flesh are pure snow white. Long, crisp, brittle and of rapid growth. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 25c.; lb 40c.

Mammoth Celestial. Most wonderful of all. Fine for use during the Fall and early Winter. Roots frequently grow 14 to 18 inches in length and 6 to 8 inches in diameter. Skin and flesh pure paper white; very tender, crisp, juicy, mild. **Pkt. 5c.;** oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb 25c.

Earliest Scarlet Turnip

Earliest White Turnip. A favorite standard variety, of exceedingly quick growth; sweet, juicy and tender. Beautiful ivory white color; flesh pure white. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 22c.; lb 35c.

Improved Chartiers or Shepherd. Early, long red sort with white tip. Flesh white, sweet, crisp and firm. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 22c.; lb 35c.

New Triumph. Matures in about 14 days. The roots are of globular form. The flesh is very crisp and solid and of mild, pleasing flavor. Its most attractive and distinctive feature, however, is the unique color of the skin. The ground color is beautiful ivory white, striped horizontally and splashed with bright scarlet. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 25c.; lb 40c.

Chinese Rose. Roots cylindrical, or largest at the bottom, tapering abruptly to a small tap-root, skin smooth and of a bright rose color; flesh firm, crisp, tender and quite pungent. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 25c.; lb 40c.

Early Deep Scarlet Olive Shaped. In the form of an olive, terminating in very slim tap root. Skin scarlet; neck small, flesh rose colored, tender and excellent. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 22c.; lb 35c.

Early White Olive Shaped. Different from the Scarlet Olive Shaped in color and a little longer. Clear white, crisp and mild flavored. **Pkt. 3c.;** oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb 15c.; $\frac{1}{2}$ lb 25c.; lb 40c.

NEW ICICLE

Mixtures

All the best sorts, shades and colors

Earliest Radishes Mixed. All the best early sorts in fine assortment, whites, reds, pinks, longs and shorts. **Pkt. 4c.;** oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 18c.

Summer Radishes Mixed. A carefully mixed assortment of such varieties as will come into use after the extra earlies. **Pkt. 4c.;** oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 18c.

Winter Radishes Mixed. All the best varieties for late uses. These grow rapidly, and are as crisp and sweet as the earliest Spring sorts. **Pkt. 4c.;** oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb 18c.

Chinese Rose—Winter

See Page 15

For Other New Radishes

Salsify

New Mammoth Salsify

Often Called Vegetable Oyster

A truly American variety of the highest merit. Recently originated and offered by us and sprang into immediate popularity. The long, white tapering roots are of the most superior quality, exceeding by far any variety now on the market. Plant and care for it the same as Parsnips. Nothing difficult or mysterious about it. Do not leave the roots in the ground too late in the spring, as they sprout and soon deteriorate, but they may be left all winter without damage. Flavor strongly resembles that of the oyster after cooked. Our seed is limited this year and we advise early orders. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 60c.; lb. \$1.00.

Hardy; Wholesome
Palatable

Spinach

Makes a Delicious
Dish of Greens

1 ounce will plant 50 ft. rows; 4 to 5 pounds for an acre.

Improved Round Summer Broadleaf. This variety is generally preferred for early spring sowing, and is the most popular with our market gardeners. The leaves are large, thick, and fleshy; though not quite as hardy as the Prickly Winter, it stands the winter very well. Pkt. 2c.; oz. 4c.; 2 oz. 7c.; $\frac{1}{4}$ lb. 10c.; $\frac{1}{2}$ lb. 18c.; lb. 30c.

All Seasons. Matures very early and remains in condition to use long after most other sorts are gone. Pkt. 4c.; oz. 7c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

Two ounces for 50 hills. Bush varieties 5 to 6 lbs., and running varieties 3 to 4 lbs., in hills per acre.

New Golden Custard Bush

Standard, Early Summer Variety. It is far superior to any Pumpkin for making pies, exceeds in size any of the other scalloped sorts, frequently being two feet in diameter. Matures extremely early; very flat and nicely scalloped color, dark, rich, golden yellow; flesh pale yellow and finely flavored. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; lb. 50c.

Boston Marrow

Very early and prolific variety. Outside color, dark orange yellow; flesh deep, fine grained and dry. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; lb. 50c.

Mammoth White Bush

Often called "Patty Pan." Creamy white skin. Flesh of fine quality. Very prolific. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; lb. 50c.

See Page 16 for New Squash

New Giant Summer Crookneck

The Best Early Squash. A great favorite. Twice as large as ordinary Crookneck; is more warty and earlier. Of dwarf, bushy habit and extremely productive. Flesh creamy yellow, dry, of most agreeable flavor; one of the most esteemed of the early varieties. Our seed is saved from the finest specimens only. Large pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; lb. 50c.

Great Northern Hubbard

The Best Late Squash for All Purposes. The Old Favorite. A superior selection of this famous variety, one of the best Winter Squashes; flesh bright orange yellow, fine grained, very dry, sweet and rich flavored; keeps throughout the winter; boils or bakes exceedingly dry and is as good baked as a Sweet Potato. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; lb. 75c.

Perfect Gem

Wonderfully productive summer variety. Flesh fine grained and cooks dry and sweet; rich, delicious flavor. Pkt. 4c.; oz. 8c.; 2 oz. 14c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 45c.; lb. 80c.

Golden Custard

New Giant Summer Crookneck

Great Northern Hubbard

THE BEST TOMATOES

1 oz. for 1500 Plants
¼ lb Seed for Acre

New Earliana

New Earliana. The Earliest, Smooth, Bright Red Tomato of Good Size and Flavor now in Cultivation. Grow closely together in clusters of 5 to 8, averaging 2½ inches in diameter; they are solid, quite thick through, and free from rough cracks or ribs; flesh is deep red, with solid center and small seed cells; slightly acid flavor. A specimen plant had by actual count 45 ripened fruits at time of first picking and 35 green ones of good size, and the whole plant could be completely hidden by an ordinary bushel basket. Large pkt. 3c; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.; ½ lb 70c.; lb \$1.30.

New Stone

Mansfield Tree or Mammoth Prize. One of the largest Tomatoes grown; possesses every good quality. Specimens often weigh 3 pounds. Almost seedless. Vines often attain the height of 15 feet. Fruit very highly colored; smooth. One of the very best for table and market. Pkt. 5c.; oz. 35c.; 2 oz. 60c.; ¼ lb \$1.10.

Early Dwarf Champion. A General Favorite. The dwarf habit and tree-like growth permit close planting. Hard to beat for home use. Color purplish pink. Fruit smooth, symmetrical, solid and meaty. Those who grow Tomato plants to sell will find Early Dwarf Champion highly profitable; the compact growth of the young plants commending them to the buyer. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; ¼ lb 50c.; ½ lb 80c.; lb \$1.50.

Livingston's Beauty. We have been perfecting this to a larger, smoother fruit than the original stock, and think we have made it the best and smoothest of the large purple sorts. Vines large, vigorous and heavy bearers; flesh light pink; excellent flavor. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.; ½ lb 70c.; lb \$1.30.

New Plum. Fruit true plum shape. Clear, deep flesh and fine flavored. Much esteemed for preserves. Large pkt. 4c.; oz. 18c.

New Pear. Used for preserves and to make "Tomato Figs." Our stock will always come true to name. Large pkt. 4c.; oz. 18c.

Finest Mixed Hybrids. Comprising all the newest and best sorts as well as all the standard varieties; reds, yellows, whites, large and small, round and fancy fruited; all are included. Pkt. 4c.; oz. 20c.; 2 oz. 35c.; ¼ lb 60c.

New Giant Everbearing. The most profitable variety to grow. Always in fruit from early summer until killed by late frosts. Be sure to include this finest of all Tomatoes in your order. Pkt. 10c.; oz. 35c.; 2 oz. 60c.; ¼ lb \$1.00 ½ lb \$1.75; lb \$3.00.

New Stone. Handsome, large, round red fruit of good appearance. Solid, firm and fine for slicing. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.; ½ lb 70c.; lb \$1.30.

Improved Ponderosa or No. 400. The largest, most beautiful and productive Tomatoes ever grown. The color is a rich, bright crimson. The skin is thin, but so tough as to preserve the fruit a long time in good condition. Fruit ripens evenly to the stem, and is fairly smooth with no hard core, and in flavor is unsurpassed. The foliage differs from all others, the leaves being entire, and not cut or deeply lobed, resembling potato foliage. In fruiting capacity it is enormous, single fruits often weighing 2 or 3 lbs. All solid meat and exceptionally free from seed. Our stock is very choice and sure to please. Large pkt. 5c.; oz. 20c.; 2 oz. 38c.; ¼ lb 70c.

Favorite. A large, handsome, uniformly shaped Tomato; solid, smooth and bright scarlet; ripens evenly. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.; ½ lb 70c.; lb \$1.30.

Early Acme. Well known early variety; medium size, smooth, solid and prolific. Color purplish pink. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb 40c.; ½ lb 70c.; lb \$1.30.

New Tree or Station. The Best Early. Remarkably Prolific; Flesh Thick and Tender. Owes its popularity to its stiff, vigorous, upright growth, with fruit well above the soil, and to the earliness with which it reaches its maturity. Plants are strong and vigorous, bearing an abundance of large, smooth fruit of a beautiful purplish crimson similar to Acme. The flesh is firm, solid, very fine quality, with very few seeds. An excellent shipper; does not crack or rot, as is the case with many of the old sorts. Size medium. One of the best so-called Tree Tomatoes and the most profitable for the market, gardener and trucker; unsurpassed for canning purposes. Large pkt. 5c.; oz. 20c.; 2 oz. 38c.; ¼ lb 75c.

The Best Turnips

1 Ounce for 150 Feet of Drill; 1 to 2
Pounds in Drills Per Acre

Purple Top Strap Leaf

Early Six Weeks, or Snow Ball

New Cardinal

Purple Top Strap Leaf. The Old Reliable. We sell enormous amounts of seed of this celebrated Turnip. One of the best table and stock Turnips on the market, fine grained and of mild flavor. White below, with a bright purple top. Flesh white, leaves short, narrow and erect. Will mature in 8 or 9 weeks. A good cropper and an excellent keeper. Pkt. 4c.; oz. 6c.; 2 oz. 10c.; ¼ lb 15c.; ½ lb 25c.; lb 40c.

Early Six Weeks, or Snowball. This excellent variety of Turnip is very tender and sweet, matures in 6 weeks. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb 18c.; ½ lb 30c.; lb 55c.

Extra Early Purple Top Milan. Early, Sweet, Crisp and Tender. The Wonderful Keeping Turnip. Unquestionably the very earliest grown; a fine, pure white sort, purplish top, few leaves. Roots are smooth, flat, symmetrical and beautiful. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 45c.; lb 85c.

Early Ivory. Pure white. Flat, smooth, of medium size and very few leaves; a good summer variety. Fine grained and tender. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 35c.; lb 60c.

Cow Horn. Sometimes called Long White. It is pure white with a little shade of green on top. Fine for Fall and early Winter use. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 35c.; lb 60c.

New Cardinal. A very early variety, of magnificent shape, handsome appearance and wonderful keeping qualities. Outside skin brilliant cardinal color. Tender and crisp. Pkt. 4c.; oz. 9c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 45c.; lb 85c.

White Egg. A Favorite Variety in All Sections. A quick growing, egg-shaped, perfectly smooth pure white variety with small top. It grows half out of the ground. The flesh is very sweet, firm and mild. Excellent for either early or late sowing. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb 20c.; ½ lb 35c.; lb 65c.

Southern Seven Top. Cultivated extensively in the South for the tops, which are used for greens. Hardy; keeps well. Pkt. 4c.; oz. 6c.; 2 oz. 10c.; ¼ lb 18c.; ½ lb 30c.; lb 50c.

Golden Globe. A yellow fleshed, globe-shaped variety, of large size; a splendid winter keeper; excellent for both table and stock. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb 25c.; ½ lb 40c.; lb 70c.

Early White Flat Dutch. Standard early, white, flat Turnip; an excellent garden variety. Flesh white and mild. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb 18c.; ½ lb 30c.; lb 50c.

Mixed. Comprising a fine assortment of all the varieties quoted in this book as well as many others. Pkt. 4c.; oz. 6c.; 2 oz. 11c.; ¼ lb 18c.; ½ lb 30c.; lb 55c.

Ruta Bagas---The Best Stock Food

The Great Northern Giant. The Best Variety For Stock Ever Grown. Prize winner everywhere. This magnificent Ruta Baga is unquestionably the most profitable of all Swede Turnips, as well as the hardest, heaviest, best shaped and by far the most productive, a yield of 1,000 bushels per acre and over, under careful cultivation, being of frequent occurrence. Bulbs are somewhat oval in shape, slightly oblong, and remain sound and good indefinitely. Flesh is of a beautiful yellow color, always sweet, tender, juicy and nutritious. The finest of all Swedes and a variety that should be grown in preference to all others. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Mammoth White Russian. One of the grandest sorts. Grows very large with single tap root, small tops, short neck, certain cropper. Will stand hardest winters. Produces a very heavy weight per acre. Keeps sound 'till late spring. Pkt. 4c.; oz. 6c.; 2oz. 10c.; ¼ lb. 15c.; ½ lb. 28c.; lb. 45c.

Improved Purple Top Yellow. This magnificent Swede is the result of judicious selection; very hardy; productive and nutritious. Shapes slightly oblong. Produces heavy weight per acre. Sweet and good keeper. Pkt. 3c.; oz. 5c.; 2 oz. 9c.; ¼ lb. 12c.; ½ lb. 23c.; lb. 40c.

New Monarch or Elephant. Grand variety; claimed to yield larger roots, and more to the acre than any other sort. Produces large, oval-shaped, roots, with small necks; relatively small tops. Skin dark purple above ground, yellow below. Flesh rich, yellow, fine grained; of best quality. Is easy to harvest. Can be grown at less cost than others. Pkt. 3c.; oz. 5c.; 2 oz. 9c.; ¼ lb. 12c.; ½ lb. 23c.; lb. 40c.

Ruta Bagas sown in July make an excellent pasture for sheep and other stock during the fall months and the bulb or turnip will furnish a rich, fattening food for them all winter.

The Best Herb Plants

See Page 32 for Seed of Herbs

Hardy and Everlasting

Holt's Mammoth Sage. Forms a dense mass a foot or more in height and 3 feet in diameter; light green leaves; produces spikes of light lilac-blue flowers in late summer and autumn. Leaves are 4 to 5 inches long; they are held well up from the soil, rich in flavor and of great substance. Perfectly hardy; produces no seeds. Each 10c.; 3 for 25c.; doz. 70c. postpaid.

Lavender. Old Fashioned Sweet. The leaves are sometimes used for seasoning, but the plant is chiefly grown for its fragrant flowers. Strong plants, 12c. each; 4 for 40c.; \$1.25 per dozen, postpaid.

Peppermint. From the leaves of this plant is distilled the well known Peppermint of commerce. The green leaves and stems, when chewed, have the same effect as the essential oils, and to most persons the flavor is very pleasant. Strong plants, 10c. each; 3 for 25c., postpaid.

Spearmint. The plant which produces the mint of the markets and largely used for culinary purposes. It is also used in concocting the refreshing Mint Julep so popular in some sections. Strong plants, 10c. each; 3 for 25c., postpaid.

Tarragon, or Estragon. (The True Tarragon) Leaves and young shoots used as an ingredient for soups, salads, stews, pickles, etc. Use in fresh state, or cut in autumn and dried, to be used as other herbs. Tarragon vinegar is esteemed as a fish sauce, made by placing leaves of plant in a tight vessel, pouring common vinegar upon them, and permitting it to remain several days. Strong plants, 12c. each; 3 for 35c.; \$1.25 per dozen, postpaid.

Chives. Also called Schnittlauch. Chives are perfectly hardy perennial plants of the Onion type. They are grown for their small leaves, which are produced very early in the Spring, for giving a mild Onion flavor to various dishes. Selected clumps or plants, 20c. each; 3 for 50c.; \$1.50 per dozen, postpaid.

Holt's Mammoth Sage

THE BEST FIELD CORN

Select Fine Dried Varieties of Great Merit; Money-Makers;
Every One of Them

New Early Prosperity Yellow Dent

The best 90 day Yellow Dent Corn. Early, prolific, hardy and vigorous. Stalks grow to a height of 7 or 8 feet, and set the ears about 3½ to 4 feet from the ground—just right height for easy picking. A wonderful peculiarity of this Corn is that it never produces a barren stalk—every one has an ear, and generally two, sometimes three. The type is very even, ears measuring 10 to 12 inches in length, often weighing 1½ pounds or more. Very uniform in size and shape, pure golden yellow kernels set on small sized cobs, which are well filled out over tip and butt. Grains are of good size, medium long, flat, and closely set together, deeply dented, and solidly fill entire surface of ear. Surpasses all other yellow varieties—seventy pounds in the ear will make more than sixty pounds of shelled Corn. Postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ½ bu. 50c.; ¼ bu. 85c.; ½ bu. \$1.60; 1 bu. (56 lb) \$2.90; 2 bu. or more at \$2.80 per bu.; 10 bu. or more at \$2.70 per bu.

BY H.W. BUCKBEE.

New Early Prosperity

The best 90 day White Dent Corn. Extra Early. Vigorous grower. Sure cropper. A most marvelous variety of White Dent Corn which in yield and quality, surprises everyone who plants it. Thousands of our customers from every part of the country are more than pleased with the wonderful results obtained by planting this grand, good, reliable White Dent Corn. It is, indeed, a fitting companion to New Early Prosperity, the one being all that a White Dent ought to be, the other a Yellow Dent of surpassing merit. Stalks generally bear two good ears each and frequently three are found. It yields splendid crops even on light soil. Ears are uniform and well filled out, will easily make 60 pounds of shelled Corn to the bushel. Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ½ bu. 50c.; ¼ bu. 85c.; ½ bu. \$1.60; 1 bu. (56 lb) \$2.90; 2 bu. or more at \$2.80 per bu.; 10 bu. or more at \$2.70 per bushel.

New Early Bloody Butcher

A perfect Field Corn. New Early Bloody Butcher Corn has never been known to fail in making a good crop. Of most remarkable type and color, being very pure in growth and habit, yet of many beautiful colors (red, amber, golden yellow and golden cast, also dark red, all on one cob), making it the most beautiful Corn in the crib, on ear or in the bag shelled. This new Corn combines more solid merit than any Corn in cultivation—more fine and lasting points. Its great merit lies in the fact that it is a natural yielder. Expert Corn growers pronounce it a perfect Field Corn as to yield, size of the ear; color, size of the cob, length of grain, size of fodder, size of growth of fodder and the extra fine quality of the fodder. Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ½ bu. 45c.; ¼ bu. 80c.; ½ bu. \$1.45; 1 bu. (56 lb) \$2.70; 2 bu. and over at \$2.60 per bu.; 10 bu. or more at \$2.50 per bu.

New Early Klondike

The best Yellow Dent Corn for Northern latitudes. Magnificent variety of 90 day Corn. If you want a Corn that matures quickly, this is the Corn to buy. Will grow more bushels on poor land than any other early variety known. On ordinary fair ground it will yield from 90 to 110 bushels per acre. Ears are of excellent size; husks and shells easily. Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ½ bu. 45c.; ¼ bu. 80c.; ½ bu. \$1.45; 1 bu. (56 lb) \$2.70; 2 bu. and over at \$2.60 per bu. 10 bu. or more at \$2.50 per bu.

New Early Klondike

About Northern Grown Corn

All of the Corn we send out is guaranteed to be Home Grown and to show first class test of germination. If Corn does not come up to this requirement, we are willing to refund the original purchase price, provided your complaint is received within ten days from the time Corn reaches you. What could be more fair?

Our Prices are low, considering the quality we sell but if you are offered lower prices by any reliable seedsmen, let us know, sending at the same time a list of such other goods as you may need and we will quote you our lowest price on the entire lot.

J. F. Heurteur, Box 183, Idlewood, N. J., writes: "I would like to let you know that all the Seeds I bought from you last year were perfectly satisfactory and better than I ever had from any other Seed House before."

THE BEST FIELD CORN

Northern Grown. Pedigreed. Thoroughbred

Guaranteed to show first class test of germination. If Corn does not come up to this requirement, we are willing to refund the original purchase price, provided your complaint is received within ten days from the time Corn reaches you. What could be more fair?

Northern Yellow Dent

The Best Yellow Variety for general requirements. By all odds the earliest, largest 100-day Yellow Dent Corn in existence. Stalks grow to a height of 7 or 8 feet, and set the ears about 3½ to 4 feet from the ground, just the right height for easy picking. The type is very even, ears measuring 10 to 12 inches in length, often weighing 1½ pounds or more. Very uniform in size and shape, with 16 to 18 rows of deep, pure golden yellow kernels set on small sized cob which is well filled out over the tip and butt. The grains are of good size, long, flat and closely set together, deeply dented and solidly fill the entire surface of the ear.

Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ¼ bu. 45c.; ½ bu. 80c.; ¾ bu. \$1.45; bu. (56 lb) \$2.70; 2 bu. and over at \$2.60 per bu.; 10 bu. and over at \$2.50 per bu.

Northern White Dent

Similar to the above in everything but color, which is a beautiful white. Never fails to give a fine crop of large, uniform, well-shaped ears. We call this a 100-day Corn, but it often ripens in 95 days of average Corn weather. In its yield it will surpass all other varieties; 70 pounds in the ear makes more than 60 pounds shelled.

Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ¼ bu. 45c.; ½ bu. 80c.; ¾ bu. \$1.45; bu. (56 lb) \$2.70; 2 bu. and over at \$2.60 per bu.; 10 bu. and over at \$2.50 per bu.

Early Gold Mine

This magnificent variety was bred from special and improved stock of Genuine Pride of the North. Will usually produce a crop in 90 days or less. It can safely be planted up to the middle of June and still be depended upon to ripen by the middle of September. It produces a magnificent yield, there generally being two good sized ears to the stalk, with immense, long, oily kernels, closely set and the cob well filled to the end. The color is rich golden.

Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ¼ bu. 45c.; ½ bu. 80c.; ¾ bu. \$1.45; bu. (56 lb) \$2.70; 2 bu. and over at \$2.60 per bu.; 10 bu. and over at \$2.50 per bu.

Improved Pride of the North

Rather small yellow variety, but Early and Heavy Cropping. A wonderful improvement over the old, reliable standby—Pride of the North. This splendid pedigree variety is unquestionably one of the very best 90-day Field Corns for Northern Latitudes. It will ripen in Northern Localities hitherto able to grow only the Flint varieties, and hence is of the greatest value.

Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ¼ bu. 45c.; ½ bu. 80c.; ¾ bu. \$1.45; bu. (56 lb) \$2.70; 2 bu. and over at \$2.60 per bu.; 10 bu. and over at \$2.50 per bu.

Iowa Silver Mine

Large, White, Strong Grower, Heavy Cropper. Popular on account of its enormous yield. There is one record where 215 bushels were grown on an acre. It is pure white, with deep grain; ear averages 10 to 12 inches in length, 16 to 20 rows, with small cob and filled out clear over the tip; maturing in 95 to 100 days. The stalk grows to a height of about 7 to 8 feet. It is well worthy of extensive growing.

Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ¼ bu. 45c.; ½ bu. 80c.; ¾ bu. \$1.45; bu. (56 lb) \$2.70; 2 bu. and over at \$2.60 per bu.; 10 bu. and over at \$2.50 per bu.

Giant Red Cob Ensilage

Beyond doubt the best Fodder Corn, either to feed green right from the field, to put up for the silo, or to cure and stack away. It is a pure white Corn cropping as high as 45 tons of fodder per acre. Very sweet, tender and juicy, and furnishes more nourishment than any other variety; has short joints and therefore an abundance of leaves, and grows to a fair height; but not over-large and coarse stalked as some varieties.

Prices, postpaid, 1 lb 25c.; 3 lb 60c. Not prepaid, ¼ bu. 35c.; ½ bu. 50c.; ¾ bu. 85c.; bu. (56 lb) \$1.50; 2 bu. and over at \$1.45 per bu.; 10 bu. and over at \$1.40 per bu.

Northern Grown Flint Corn

Extra Early Varieties, Which Do Well Even in Extreme North

Early Norther

The greatest yielding Flint Corn. Enormously productive, out-yielding any Field Corn that we have ever grown in the far North. It is not uncommon to find 3 to 4 ears on a stalk. Matures exceedingly early, from 60 to 70 days being a fair average. Price, postpaid, lb 25c.; by express or freight not prepaid, $\frac{1}{2}$ bu. 45c.; $\frac{1}{4}$ bu. 70c.; $\frac{1}{2}$ bu. \$1.25; bu. (56 lb) \$2.20; 2 bu. or more at \$2.15 per bu.; 10 bu. or more at \$2.10 per bu.

Extra Early King Philip

Earliest and best variety of Red Flint Corn. Eight rowed, ears long, and always yields a heavy crop. Kernels fair size, close together on a small cob. Price, postpaid, lb 25c.; by express or freight not prepaid, $\frac{1}{2}$ bu. 45c.; $\frac{1}{4}$ bu. 70c.; $\frac{1}{2}$ bu. \$1.25; bu. (56 lb) \$2.20; 2 bu. \$4.30; 10 bu. or more at \$2.10 per bu.

Yellow Yankee

A Flint Corn of rare merit. Will produce a good crop if planted as late as July. Ears large. Postpaid, lb 20c.; by express or freight not prepaid, $\frac{1}{2}$ bu. 35c.; $\frac{1}{4}$ bu. 60c.; $\frac{1}{2}$ bu. \$1.10; bu. (56 lb) \$1.90; 2 bu. or more at \$1.85 per bu.; 10 bu. or more at \$1.80 per bu.

Longfellow Yellow

An eight rowed sort, with ears 12 to 15 inches in length and about $1\frac{1}{2}$ inches in diameter. Small cob, large kernel and very broad. Postpaid, lb 20c.; by express or freight not prepaid, $\frac{1}{2}$ bu. 35c.; $\frac{1}{4}$ bu. 60c.; $\frac{1}{2}$ bu. \$1.10; bu. (56 lb) \$1.90; 2 bu. or more at \$1.85 per bu.; 10 bu. or more at \$1.80 per bu.

Triumph Early White Flint

Early; medium size of both stalk and ear. Stools out like Sweet Corn and makes fine fodder. Price, postpaid, lb 20c.; by express or freight not prepaid, $\frac{1}{2}$ bu. 35c.; $\frac{1}{4}$ bu. 60c.; $\frac{1}{2}$ bu. \$1.10; bu. (56 lb) \$1.90; 2 bu. or more at \$1.85 per bu. 10 bu. or more at \$1.80 per bu.

Improved Indian Squaw Corn

Holds more records for wonderful performances under difficult conditions than any Corn ever grown. Early variety, maturing in 85 days and is a more successful Corn for late planting than the Mexican June Corn. Perhaps the most wonderful quality of this Corn is its power to resist drouth. In appearance this Corn is one of the most handsome varieties. The kernels are of different colors: red, blue, yellow, and white, giving the ears a curiously mottled appearance. The ears grow from 8 to 12 in. in length and are of symmetrical form. Postpaid, $\frac{1}{2}$ lb 15c.; lb 25c.; Not prepaid, 5 lb 50c.; 10 lb 85c.

Early Norther

Great Brazilian Flour Corn

One of the greatest novelties ever introduced. Originated in Brazil, where it constitutes the principal food of the inhabitants. You are sure to like it. It grows 8 feet high, and from one kernel sends enough stools to produce 100 ears.

Twenty-five barrels of flour can be grown from one acre, and this flour is as fine a grade as is made from wheat, which is five times as much as wheat produces per acre.

The bread and biscuits baked therefrom are fully as palatable as from any flour known.

It yields at the rate of 100 bushels of green fodder per acre, for cattle, of the most delicious, sweet, tender, juicy, nutritious food we have ever seen.

Postpaid, $\frac{1}{2}$ lb 15c.; lb 25c.; by express or freight not prepaid, 5 lb 50c.; 10 lb 90c. Write for prices in larger quantities.

Great Brazilian Flour Corn

Northern Grown Cow Peas

The Great Soil Improver

Makes Poor Land Rich

Makes Good Land More Productive

As A Grazing Crop it is especially valuable for producing milk, growing young stock (especially pigs) and fattening all kinds of animals and fowls.

In the Cow Pea we have a fertilizer and a food at the same time and it can be grown successfully in all parts of the country where Dent Corn succeeds. The vines properly cured are a most valuable fodder for the cattle and sheep, being richer in protein and fat than the best clover hay. Cow Pea hay is an excellent substitute for wheat bran, is comparatively cheaper, and therefore, of special value to dairymen. The Cow Pea can be used to great advantage as a green manure crop at any time during the summer and in almost every crop rotation—and there are few farms on which it cannot find a profitable place.

Michigan Wonder. Northern grown and acclimated, the best and most popular variety for all climates, particularly in the far South States. Price, postpaid, per lb 25c.; by express or freight not prepaid, 1/4 bu. 50c.; 1/2 bu. 95c.; 1 bu. \$1.85; 1 bu. (56 lb) \$3.50; 2 bu. \$6.80; 10 bu. lots or more at \$3.35 per bushel.

Improved Whippoorwill. Choicest Northern-grown well suited for any soil. Early and a wonderful feeder. Price, postpaid, per lb 20c.; by express or freight not prepaid, 1/4 bu. 45c.; 1/2 bu. 85c.; 1 bu. \$1.65; 1 bu. (56 lb) \$3.25; 2 bu. \$6.35; 10 bu. or more at \$3.15 per bushel.

Jerusalem Corn

A New Forage Plant of Great Merit. Belongs to the non-saccharine Sorghums, and was brought a few years ago from the arid plains of Palestine. It is pronounced the best and surest grain crop for dry countries and seasons—even better than Kaffir Corn or Milo Maize. It grows several smaller heads on side shoots, often as many as eight heads on a stalk. Very valuable for feeding stock and proves a gold mine for chicken feed. Plant five to ten pounds per acre. Postpaid, 1/2 lb. 15c.; lb. 25c.; by express or freight not prepaid, 5 lbs. 40c.; 10 lbs. 75c.

JERUSALEM CORN

Wonderful Milo Maize Corn

Excellent Fodder Plant for Feeding. In a great many sections it is planted to the exclusion of all others. It will produce an amazingly large crop of the richest green fodder of superlative quality. It will grow anywhere. The seed is an excellent fattener, and is relished by all cattle, hogs, poultry, etc. Postpaid, 1/2 lb. 15c.; lb. 25c.; by express or freight, not prepaid, 5 lbs. 40c.; 10 lbs. 75c.

Kaffir Corn

The Great Drought Resister. Stems have a stalky tendency and produce numerous wide leaves. The stalks do not harden as do other fodder crops, but keep green, brittle and juicy. A most excellent fodder, either green or dry, being highly relished by all stock. Its wonderful qualities are unaffected, even as far north as Dakota. It is immensely productive and does well everywhere, yielding two crops of fodder each season. Grows from start to finish; whether it rains or shines it grows. Plants attain a height of from 6 to 10 feet, straight and upright. It should be sown in rows, about 3 feet apart, planting 6 inches in the row. Use from 10 to 15 pounds of seed per acre. Choicest Northern-grown seed, postpaid 1/2 lb. 12c.; lb. 20c.; by express or freight, not prepaid, 5 lbs. 35c.; 10 lbs. 50c.; 15 lbs. 65c.; 50 lbs. \$1.50; 100 lbs. \$2.65.

Giant Highland Oats

A Marvel for Size, Weight and Yield

The original stock of this grand variety was secured from the highlands of Scotland, where yields of 140 to 160 bushels per acre are not uncommon.

It is a pedigree Oat in every respect, pure white in color, large, thick and plump with thin hull, strong grower and stands up well. Can be sown earliest or latest with best success. The seed we offer is strictly Northern Grown and fully acclimated and should be of great value to Oat-growers who are looking for a new stock of pure, healthy well-bred pedigree Oats, grown under conditions which not only insure the highest development of the plant along productive lines, but the greatest power to resist disease. Stock limited. **Price, postpaid, 1/2 lb 15c.; 1 lb 25c.; 3 lb 60c.; by express or freight not prepaid, 1/4 bu. 25c.; 1/2 bu. 40c.; 3/4 bu. 70c.; bu. (32 lb) \$1.25; 2 bu. \$2.45; 5 bu. or more at \$1.20 per bushel.**

Swedish Select Oats

A pedigree variety introduced from Russia. Weighs from 30 to 40 pounds per measured bushel. The straw is coarse, noted for its stiffness and power to withstand lodging. The grains are pure white in color, large, thick and plump, making a very handsome appearance. The heads are large, upright and bushy, they are also nearly all meat, the hull being exceedingly thin, making them especially valuable as a feeding Oat. Their great root development enables them to resist drouth better than most other kinds. They are quite early and are less liable to smut and rust than most any other sort. **Price, postpaid, 1 lb 25c.; by express or freight not prepaid, 1/4 bu. 25c.; 1/2 bu. 45c.; 3/4 bu. 70c.; bu. (32 lb) \$1.25; 2 bu. \$2.45; 5 bu. or more at \$1.20 per bushel.**

Early Champion Oats

This is the earliest of all Oats and probably the heaviest. It is often called the Fourth of July Oats as in this latitude it ripens about that time. Color, pure white; grain, large and heavy. Head upright and branching. Straw long and stiff. Always standing up well, withstanding severe windstorms nicely. The past few years when most other Oats were down, rusted and nearly ruined generally, our Early Champion made an extraordinary large yield, even for this heavy cropping variety, and gave a fine crop of white, clean Oats. Our stock is fine this year and prices right. **Price, postpaid, 1 lb 25c.; by express or freight not prepaid, 1/4 bu. 25c.; 1/2 bu. 40c.; 3/4 bu. 60c.; bu. (32 lb) 95c.; 2 bu. \$1.85; 5 bu. or more at 90c. per bushel.**

Golden Fleece Oats

The Best Yellow. This is a very fine Yellow Oat. It is a heavy cropper, handsome sample, grains yellow and plump, strong straw, stands up well. The blade is much larger than the ordinary Oat, attesting to its vigor and productive capacity; stools remarkably in strong land, seventeen different shoots having been counted from one seed sown. **Price, postpaid, 1 lb 25c.; by express or freight not prepaid, 1/4 bu. 25c.; 1/2 bu. 40c.; 3/4 bu. 60c.; bu. (32 lb) \$1.10; 2 bu. \$2.15; 5 bu. or more at \$1.05 per bu.**

The New Lincoln Oats

Well known favorite variety. Straw strong and stiff. Oats white and rustless; is very productive, having yielded 174 bushels from a single bushel of seed. It is very early and has thus far proved itself rust-proof. Thin hull, heavy meat and soft nib. **Price, postpaid, 1 lb 25c.; by express or freight, not prepaid, 1/4 bu. 25c.; 1/2 bu. 40c.; 3/4 bu. 60c.; bu. (32 lb) 95c.; 2 bu. \$1.85; 5 bu. or more at 90c. per bu.**

Big Four Oats

They are a large, heavy White Oat. Medium early in season and a splendid yielder, some report from 65 to 100 bushels per acre. Straw coarse and stiff and always stands up well. The hulls are thin and the Oats very heavy and solid, and altogether very satisfactory. **Price, postpaid, 1 lb 25c.; by express or freight not prepaid, 1/4 bu. 25c.; 1/2 bu. 40c.; 3/4 bu. 60c.; bu. (32 lb) 95c.; 2 bu. \$1.85; 5 bu. or more at 90c. per bushel.**

The Famous Quaker Oats

The Most Prolific and
Surest Cropping Variety

This great Oat is the result of successful selection and hybridizing. Bred for sowing on the rich soil of the Prairie States, so that there would be strong straw to carry the heavy grain. Everyone knows how much that means. A great natural yielder. Thousands of our customers report yields of 100 bushels per acre. When anyone beats that, on a farm, ask for the proof. Matures so early that the crop can be gathered before the dry summer weather sets in—seemingly withstands all elements of weather. No variety can excel it in superior quality; it makes better oatmeal than any other sort—all millers prefer it to any other variety. Our Famous Quaker is certainly the best Oat ever grown. Send to us for true stock. Postpaid, $\frac{1}{2}$ lb 18c.; 1 lb 30c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 30c.; $\frac{1}{2}$ bu. 45c.; $\frac{3}{4}$ bu. 75c.; bu. (32 lb) \$1.35; 2 bu. \$2.65; 5 bu or more at \$1.30 per bu.

Black Tartarian Oats.

Acknowledged the Best of all the Dark Colored Oats, grown in Canada. The darkest of all the black Oats. Hardy, good grower, heavy and prolific in rich soil and cool locations they frequently grow from five to six feet high, with strong, straight straw supporting enormous well-branched heads. The heads branch freely on all sides and are from sixteen to twenty-three inches in length. The grain is very plump with thin, close husk. In favorable seasons the Oats will frequently weigh from forty-two to forty-six pounds per measured bushel. The uniform success of this variety proves its general adaptability to our varied climate, though in warmer locations it will not grow to so great a height nor produce such heavy grain. Its early maturity renders it valuable, however, for such locations. With us it ripens from one to two weeks ahead of other Oats, and on this account it is desirable for planting even in the extreme South; it will yield good crops where few other varieties can be grown profitably. Price, postpaid, 1 lb 30c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 25c.; $\frac{1}{2}$ bu. 40c.; $\frac{3}{4}$ bu. 60c.; bu. (32 lb) \$1.10; 2 bu. \$2.15; 5 bu. or more at \$1.05 per bushel.

Improved Winter Turf Oats.

The best for fall planting. This is undoubtedly one of the best all round Oats for planting in the fall as they afford a valuable pasture the greater part of the Winter and early Spring, thus reducing the quality of other necessary food. Their growth on any piece of land prevents washing and loss of much valuable plant food. They may be harvested early enough in the Spring for other crops to follow. The stubble of such a crop plowed in, is of great value to the land. This variety spreads and stools out enormously, especially when grazed, and if stock be taken off by March will yield a large crop of grain. This is a very popular Oat in the South, especially on the light, sandy soils of the coast region. It is also preferred for low ground or in situations where other Oats are much inclined to rust. Price, postpaid, 1 lb 20c.; 3 lb 50c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 25c.; $\frac{1}{2}$ bu. 40c.; $\frac{3}{4}$ bu. 70c.; bu. (32 lb) \$1.25; 2 bu. \$2.45; 5 bu. or more at \$1.20 per bushel.

Red Samson Winter Oats.

Rust Proof. Strong Strawed. Heavy Yielding. Very popular throughout the South, particularly on the light, sandy soils of the coast region. Also greatly preferred for low grounds or other locations where other varieties of Oats are inclined to rust. Favorable sowing time in the Southern section is from September on through March, though the bulk of the sowing is done from October to February. Red Samson makes a large yield of fine, heavy grain, and is beyond question at the top notch of its class. Prices, postpaid, 1 lb 20c.; 3 lb 50c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 25c.; $\frac{1}{2}$ bu. 40c.; $\frac{3}{4}$ bu. 65c.; bu. (32 lb) \$1.15; 2 bu. \$2.25; 5 bu. or more at \$1.10 per bushel.

Appler Winter Oats.

Makes a strong growing straw with bunchy heads of heavy grain, and in the opinion of some enthusiasts is destined to supersede very largely the Tennessee or Virginia Gray Winter wherever it is grown. It is the most resistant variety to rust that is grown in the South. Fall is undoubtedly the best time to plant this variety, and all who have grown it pronounce it unquestionably the best and most reliable Winter Oats for the South. Prices, postpaid, 1 lb 20c.; 3 lb 50c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 30c.; $\frac{1}{2}$ bu. 45c.; $\frac{3}{4}$ bu. 75c.; bu. (32 lb) \$1.35; 2 bu. \$2.65; in 5 bu. lots and over at \$1.30 per bushel.

IMPORTANT. Prices on all Farm Seeds are subject to change without notice. But Remember, if prices are LOWER the day your order is received, more seeds will be added; if HIGHER, the amount will be decreased. **Safest Way:** Send us a list of your wants, with exact quantities, and, by return mail, we will quote you **Lowest Market Prices.**

Quaker
Oats

White Wonder Bean

White Wonder Bean

THE MOST PRODUCTIVE AND HEAVIEST CROPPING WHITE FIELD BEAN KNOWN and the Best Bean for Baking

Growing nearly two feet high, branching out in all directions, and bearing its pods so high that they seldom touch the ground, enabling it to stand a wet spell without any injury. All who have raised Beans know that when the pods lie in contact with the ground after ripening a very little rain will ruin the crop, turning the pods and Beans black. This is indeed a wonderful cropper, yielding from seventy-five to one hundred bushels per acre, careful cultivation, while hundreds of my customers report yields of from forty to sixty bushels per acre under average cultivation. Plant them two and one-half feet apart, eighteen inches in the row, two or three Beans in a hill. **Price postpaid, 1 lb. 24c.; by express or freight, not prepaid, 1/2 bu. 55c.; 1/4 bu. \$1.00; 1/2 bu. \$1.90; 1 bu. (60 lbs.) \$3.50.**

Broom Corn

Improved Superior Evergreen. The best variety for general cultivation on account of color and quality of brush. Ripens early. Grows about 8 to 10 feet high. Brush good length, fine and straight. **Postpaid, 1/2 lb 15c.; 1 lb 25c.; by express or freight not prepaid, 1/2 bu. 40c.; 1/4 bu. 70c.; 1/2 bu. \$1.25; 1 bu. (48 lb) \$2.15; 2 bu. \$4.25.** Write for prices on large lots.

Soy Beans

Broom Corn

Buckwheat, New Iceland

Great Northern Soja or Soy Bean

The Greatest Known Soil Enricher. This variety produces enormous crops as far north as Canada, and will ripen its seeds even in Massachusetts. It grows about 4 feet high and yields ten to twenty tons of green fodder per acre, or 20 to 40 bushels of Beans. It is a valuable leguminous plant for the farmer and dairyman for either green or cured fodder or grain. May be planted as soon as the soil is warm—a little later than Corn—in rows 30 inches apart, 6 to 8 seeds to the foot, requiring 3 pecks per acre. **Price, Choicest Northern-grown Seed, postpaid, 1 lb. 25c.; by express or freight, not prepaid, 1/2 bu. 50c.; 1/4 bu. 90c.; 1/2 bu. \$1.75; 1 bu. (60 lbs.) \$3.25.**

Buckwheat

New Iceland. The greatest of all Buckwheats. Bound to supersede all other varieties. Makes a strong, vigorous growth, with heavy straw, standing up well in bad weather, resists blight and drouth better than any other Buckwheat. The grain is a rich, dark brown in color, hullless, has a thin husk and all millers prefer it, there being less waste, and the flour is equal in quality to that from any other variety. The yield is enormous—away ahead of all other sorts and it is without doubt the best, most productive and most profitable variety in cultivation. **Price, postpaid, 1 lb 25c.; by express or freight not prepaid, 1/2 bu. 45c.; 1/4 bu. 75c.; 1/2 bu. \$1.40; 1 bu. (48 lb) \$2.50.**

Giant Japanese. Heavy Yielding Variety of strong, branching growth, stands up well and produces from two to four times as much grain as any other similar variety under same conditions. Makes the finest flour and for bees has practically displaced other sorts where known. Our Japanese Buckwheat seed is grown from the largest Japanese type imported each year by us for stock seed, and is therefore immensely superior to seed usually offered. **Price, postpaid, 1 lb 20c.; by express or freight not prepaid, 1/2 bu. 30c.; 1/4 lb 45c.; 1/2 lb 75c.; 1 bu. (48 lb) \$1.40.**

Russian Flax

Primost No. 25. In raising this crop, it will pay to go to some expense to procure pure Russian seed, which is a great improvement over the common American Flax. The seed is more than double the size, and contains much more oil. The fibre is of superior quality, and it is sure to command a higher price in the market. The seed we handle is carefully cleaned from foul seeds. **Postpaid, 1 lb 20c.; 3 lb 50c.; by express or freight not prepaid, 1/2 bu. 50c.; 1/4 bu. 90c.; 1/2 bu. \$1.70; 1 bu. (56 lb) \$3.15; 2 bu. \$6.25.** Write for special prices on large lots.

NOTICE

PRICES

Success
Beardless
Barley

Barley—Success Beardless

Earliest Barley known. The straw is about the height of common Barley, but better and will stand up on any land. This is beardless and as easy to grow and handle as Oats. It has hulls like the Manshury and is a heavy cropper, yielding from 50 to 75 bu. per acre, and the quality is excellent. Prices, postpaid, per lb 25c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 40c.; $\frac{1}{2}$ bu. 65c.; 1 bu. 1.20; 1 bu. (48 lb) \$2.25.

White Hulless Barley

A Barley with a grain like Wheat. An excellent feeding sort, especially for hogs. Our seed is Montana grown, fine, bright, hulless and beardless. Weighs over 60 lbs. to the measured bushel. It grows very quickly on any kind of soil. It has been sown as late as the middle of June and made a good grain crop. Prices, postpaid, per lb 25c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 50c.; $\frac{1}{2}$ bu. 80c.; 1 bu. \$1.45; 1 bu. (48 lb) \$2.65.

Oderbrucker, or Wisconsin No. 55

Barley

A stiff-strawed, heavy yielding, six rowed, bearded variety. It is about the same as Manshury in time of maturity, manner of growth and general appearance, but has a plumper kernel and weighs more to the measured bushel. It has protein content of 15 per cent or nearly double the amount found in many other varieties. This makes it a very valuable feeding Barley, which is an important consideration with the leading farmers and stockmen, who are now appreciating more and more the value of Barley as a food for all kinds of stock horses as well as cattle. Prices, postpaid, per lb 25c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 35c.; $\frac{1}{2}$ bu. 60c.; 1 bu. \$1.00; 1 bu. (48 lb) \$1.90.

Canada Field Pea

NORTHERN PROLIFIC

The Great 100-Fold Variety

For the Northern States there is no crop of greater value than Field Peas. They are a profitable crop to grow, in that the Peas when threshed are always marketable, and they stand in the front rank as a fodder plant. Like all leguminous crops, Peas have the power of extracting nitrogen from the air, and the soil is richer in nitrogen than before the Peas were sown upon it. They should be sown in March or early April, one bushel of Peas and one bushel of Oats to the acre. The Peas should be sown first and plowed under about four inches deep; the Oats then sown and harrowed in. They will be ready for cutting about the latter end of June, when the Oats are in milk and the pods formed on the Peas. Farmers who have never sown this crop will be surprised at its large yield. This crop also makes an excellent soil improver when turned under like Cow Peas. Price, postpaid, 1 lb 24c.; by express or freight not prepaid, $\frac{1}{4}$ bu. 40c.; $\frac{1}{2}$ bu. 65c.; 1 bu. \$1.20; 1 bu. \$2.25.

Victoria Rape

Rape—Dwarf Victoria

Rape is unequalled as a pasture for sheep in the autumn; as a fattening food in the field, it is without a rival in point of cheapness or effectiveness. The sheep that pasture upon it do the harvesting in the most effective manner and with but little cost to the owner. When Rape is established as a pasture, the necessity for sending sheep and lambs to market in a lean condition will be removed. Cattle may also be pastured upon Rape, but through treading they destroy and waste it in a considerable degree. Because of this it is better to remove them to an adjoining pasture when they have satisfied their wants. Rape will keep a long time in early winter in heaps like shocks of hay. Dwarf Victoria Rape is easily grown, perfectly hardy and possesses remarkable fattening qualities. One acre will pasture 36 head 2 months and lambs will make a gain of from 8 to 12 pounds a month. Pigs and cattle are also very fond of it. The plant is a

rank grower, and should have heavy manuring as well as high cultivation. Sow the seed during the third or fourth week of June; it can then resist drought, and the crop can be ready to feed at a season when it is most needed. If the first crop were cut about four inches from the ground there would be an aftermath or second growth that would be useful after that time. It does well sown with Oats. If the soil is rich and clean, sow broadcast; if not clean sow in drills and cultivate as for corn. Rape is especially adapted for a catch crop, succeeding when from any cause the other crops have failed. When sown broadcast, use 5 pounds, and if in drills 2 pounds to the acre. Price, postpaid, 1 lb 30c.; by express or freight not prepaid, 1 lb 15c.; 5 lb 57c.; 10 lb 98c.; 25 lb \$1.89; 50 lb \$3.72; 100 lb \$7.24.

Dwarf Essex Rape

This is the variety known and grown everywhere. Not quite so strong and vigorous a grower as our Dwarf Victoria, but never fails to give the best of satisfaction. Fine imported seed; price, postpaid, 1 lb 28c.; by express or freight not prepaid, 5 lb 44c.; 10 lb 73c.; 25 lb \$1.55; 50 lb \$3.00; 100 lb \$5.85.

Mammoth Spring Rye

A Most Profitable Crop

Quite different from Winter Rye; highly valued wherever known as a catch crop. It is not only more productive but the grain is of finer quality and it can be successfully grown in any latitude. The straw is of special value as it stands 6 or 8 feet high, being better than that of Winter Rye and producing nearly four times as much straw as Oats. Produces 30 to 40 bushels of grain to the acre. As it does not stool like Winter Rye, not less than two bushels to the acre should be sown. **Prices, postpaid, 1b 25c.; by express or freight not prepaid, 1/8 bu. 40c.; 1/4 bu. 60c.; 1/2 bu. 90c.; bu. (56 lb) \$1.65.**

Giant Winter Rye

A Big Money-Making Farm Crop

This crop is used for fall and spring pasturage, early green food, and for green manuring, as well as for grain. Very hardy and will grow on poorer land than other grain crops. It is a good spring soiling crop and makes a good quality of hay if cut in bloom or before fully headed out. For a grain crop its straw makes the best of bedding for cattle and horses. Sow at the rate of 1 1/2 bushels per acre. **Prices, postpaid, 1b 25c.; by express or freight not prepaid, 1/8 bu. 35c.; 1/4 bu. 50c.; 1/2 bu. 85c.; 1 bu. (56 lb) \$1.45.**

Sugar Cane

Three Best Sugar Canes

Kenney's Improved Early Amber

Unequaled for Stock Feeding or Making Syrup

It can be profitably grown everywhere. It can be used as a pasture or a fodder plant. It is readily eaten by cattle and horses, by mules, sheep, swine and fowls, and in fact, by every animal you need fodder for. It is extremely profitable for this purpose, as the cane can be cut and partly cured, and in this way yields from 40 to 50 tons of magnificent fodder to the acre. It can be cut repeatedly, and springs up quickly again. For fodder, cut as soon as the blossom comes out of the head. **Price, postpaid, 1 lb 20c.; by express or freight not prepaid, 1/8 bu. 50c.; 1/4 bu. 75c.; 1/2 bu. \$1.25; 1 bu. (50 lb) \$2.20.**

Honey Syrup Cane

As a syrup producer has no equal, being exceedingly juicy and sweet, making from 300 to 400 gallons of molasses per acre. Grows 10 to 12 feet high, is very prolific, sometimes producing five to seven stalks from one seed. It is also a splendid forage crop for green feeding, making excellent hay if sown in drills very thick, and may be planted at any time between April and August. **Prices, postpaid, 1b 25c.; by express or freight not prepaid, 1/8 bu. 80c.; 1/4 bu. \$1.50; 1/2 bu. \$2.75; bu. (50 lb) \$5.25.**

Early Orange Cane

An exceedingly valuable variety. Early and frequently produces 240 gallons or over of beautifully colored and highly flavored syrup per acre. **Price, postpaid, 1b 25c.; by express or freight not prepaid, 1/8 bu. 40c.; 1/4 bu. 70c.; 1/2 bu. \$1.25; bu. (50 lb) \$2.25.**

BEST
LOWEST PRICES
SEEDS

Sunflower

Mammoth Russian

The single heads measure 22 inches in diameter and contain a large quantity of seed, an excellent and cheap food for fowls. They fatten well on it and attain a bright, lustrous plumage, and strong, healthy condition. It can be raised cheaper than Corn. Plant 4 quarts of seed per acre. **Price, postpaid, oz. 5c.; 1/2 lb 15c.; 1b 25c.; by express or freight not prepaid, 5 lb 50c.; 10 lb 90c.; 25 lb (bu.) \$1.90.**

Australian Salt Bush

A Forage Plant for Alkali Soils and Regions Subject to Periodic Drouth. Grows freely in arid and alkali lands that will produce no other vegetation, yielding a marvelously liberal foliage which is eagerly eaten by all kinds of stock. It is of creeping habit. From 20 to 30 tons of green fodder have been harvested from one acre. It has further been proven that after three or four crops have been grown on alkali land the soil is then capable of producing any other vegetation. In many sections of the States this is in itself of priceless value. This plant has been very extensively tried where single plants grown on the poorest alkali ground have reached a diameter of 16 feet in one season. One pound of seed is sufficient for an acre. It grows readily from seed, and requires no cultivation. **Price, postpaid, pkt. 5c.; oz. 15c.; 1/4 lb 35c.; 1b \$1.00.**

IMPORTANT—Prices on all Farm Seeds are Subject to Change Without Notice.

But Remember—If prices ARE LOWER the day your order is received, more seed will be added; if HIGHER, the amount will be decreased.

Safest Way—Send us a list of your wants, with exact quantities, and by return mail, we will quote you Lowest Market Prices.

Mammoth Russian Sunflower

Australian Salt Bush

Teosinte

Teosinte

The New Fodder Plant. Rich, Luxuriant, Hardy. Here is a truly wonderful forage plant worthy of general cultivation. It comes to us from the rich, fertile plains of the Nile, where, travelers tell us, the enormous yield of 300 tons of green fodder per acre is not uncommon. This is what it does in Egypt. What does it do in America? Almost equally as well. Give it a rich, warm, balmy soil, and it will yield from 100 to 150 tons of green fodder per acre. It is simply marvelous. Down in Georgia, in Florida and North Carolina, its yield is all the way from 100 to 200 tons of green fodder per acre. It grows to a height of 12 feet in those states, while a single kernel will produce from 60 to 100 stalks of the most nourishing green fodder imaginable. **Price, postpaid, oz. 10c.; ¼ lb 25c.; 1 lb 90c.; by express or freight not prepaid, 1 lb 82c.; 5 lb or over at 80c. per pound.**

Sand or Winter Vetch

Commonly known as Vicia Villosa. One of the Pea-vine class of plants, exceedingly nutritious, surpassing even the several varieties of Clover. It will do better than any other fodder crops on poor soil, while on good soil it makes a rank growth of four or five feet. It is a great favorite with cattle and can be fed with safety to any stock. Perfectly hardy all over the United States, and will remain green all winter. It is one of the earliest of fodder crops for spring cutting—a full crop can be cut in season to plow and plant any other crop on the same land. Wherever Clover winter kills, plant it. In the South and dry West it will make a capital hay crop by fall sowing it, for it will make its growth in the fall and spring months, before the dry weather sets in. **Price, postpaid, 1b 25c.; 3 lb 70c.; by express or freight not prepaid, ½ bu. \$1.05; ¼ bu. \$2.05; ½ bu. \$3.95; 1 bu. (60 lb) \$7.85.**

Sand Vetch

Spelts or Emmer

It makes a good crop with almost any condition of soil and climate. It is neither Wheat, Rye nor Barley, and yet it appears to be a combination of these. It is more like Wheat than any of the others mentioned. For fattening cattle, horses, poultry, sheep, pigs, etc., it is claimed to be ahead of other grains, in fact, all kinds of animals seem to thrive on it. Spelts is claimed to be ahead of Corn, superior to Oats and more profitable than Wheat. Yields 80 to 100 bushels of richer food than Corn besides giving as much as 4 tons of good hay per acre. Excellent for pasture and can be fed in the green state. As green grass hay food it often gives 100 leafy stalks from one seed, which shows its heavy stooling properties. The heads are somewhat separated from each other in such a manner that the crop is not easily injured by the weather. It is a heavy yielder. Will grow well and produce enormous crops on land where Wheat will not grow. Sow 2 bushels per acre. The grain in hull generally weighs about 40 pounds per bushel and we sell it at that weight. Our own growth, choicest Northern-grown pedigree stock seed, price postpaid, pkt. 5c.; 1b 25c.; 3 lb 60c.; by express or freight not prepaid, ½ bu. 25c.; ¼ bu. 40c.; ½ bu. 65c.; 1 bu. (40 lb) \$1.10; 2 bu. \$2.15; 10 bu. or over at \$1.05 per bushel.

Blue Stem Spring Wheat No. 169

A decidedly popular variety. Is very hardy; vigorous growth; great stooling propensities, and for productiveness and good milling qualities it has few equals. Is not liable to blight or rust, the straw is large and stiff and if blown down by a hard storm will not break but bend and regain its upright position after the sun shines. Yields heavily everywhere and under all conditions. The heads are very large and well filled, the kernel is hard and the plant stools freely, and under ordinary conditions will yield 40 to 50 bushels per acre. **Price, postpaid, 1b 25c.; 3 lb 60c.; by express or freight not prepaid, ½ bu. 40c.; ¼ bu. 60c.; ½ bu. \$1.00; 1 bu. (60 lb) \$1.75; 2 bu. \$3.45; 5 bu. lots or over at \$1.70 per bushel.**

Red Wonder Winter Wheat

A most valuable bearded variety. It can be depended upon for an abundant yield even in unfavorable seasons. It grows a little above medium height; straw jointed and stocky. **Price, postpaid, 1b 20c.; 3 lb 50c.; by express or freight not prepaid, ½ bu. 35c.; ¼ bu. 50c.; ½ bu. 90c.; 1 bu. (60 lb) \$1.65; 2 bu. \$3.25; 5 bu. lots or over at \$1.60 per bushel.**

Minnesota Reliable Winter Wheat

A very early variety, ripening before rust, blight or chinch bugs or other insect pests appear in the fields. It is a bearded variety; the kernels are red with a very thin husk, are hard and flinty and very rich in gluten. It is stiff strawed and will stand up in wind and rain, which would lodge other varieties very badly. **Price, postpaid, 1b 25c.; 3 lb 60c.; by express or freight not prepaid, ½ bu. 40c.; ¼ bu. 60c.; ½ bu. \$1.00; 1 bu. (60 lb) \$1.75; 2 bu. \$3.45; 5 bu. lots or over at \$1.70 per bushel.**

Giant Crimson

Alsike

Medium Red

The Best Clover Seed

All Northern Grown, Fancy Recleaned Seed. We Offer One Grade Only—The Best

Medium Red. The Kind Commonly Grown Everywhere. Our seed is carefully grown and selected for seed purposes. There is none better if as good. Sow 10 to 14 pounds to an acre. Price, postpaid, lb 35c.; 3 lb \$1.00; by express or freight not prepaid, $\frac{1}{2}$ bu. \$1.90; $\frac{1}{4}$ bu. \$3.65; $\frac{1}{2}$ bu. \$6.95; bu. (60 lb) \$13.60.

Mammoth Red. The Largest and Heaviest Cropping Red Clover. Invaluable for pastures for all kinds of stock. A fine variety to plow under as a fertilizer. Sow 10 to 14 pounds per acre. Postpaid, lb 35c.; 3 lb \$1.00; by express or freight not prepaid, $\frac{1}{2}$ bu. \$1.95; $\frac{1}{4}$ bu. \$3.70; $\frac{1}{2}$ bu. \$7.10; bu. (60 lb) \$13.85.

Alsike. Extremely Hardy—Unsurpassed for Northern Climate. The most hardy of all Clovers; Perennial. On rich, moist soils it yields an enormous quantity of hay or pasturage, but its greatest value is for sowing with other Clovers and Grasses, as it forms a thick bottom and greatly increases the yield of hay; cattle prefer it to any other forage. It adapts itself to all kinds of soil and is capable of resisting extremes of wet and drought alike. The heads are globular, fragrant and much liked by bees, which obtain a large amount of honey from them. Sow in spring or fall, at the rate of 10 pounds per acre, when used alone. Price postpaid, lb 35c.; 3 lb \$1.00; by express or freight not prepaid, $\frac{1}{2}$ bu. \$1.80; $\frac{1}{4}$ bu. \$3.40; $\frac{1}{2}$ bu. \$6.65; bu. (60 lb) \$12.85.

Giant Crimson. A Rapid Growing Variety. Useful alike for feed and fertilizer. A well-known and favorite winter cover, crop and soil enricher, affording excellent early forage. Seed should be sown in August or September. Use seed at the rate of 15 lbs. per acre. It grows all winter, when ground is not frozen. It is very beautiful when in bloom, and valuable for soiling purposes, for pasture or hay and the roots add materially to the fertility of the soil. Our seed is American grown. Postpaid, lb 30c.; 3 lb 80c.; by express or freight not prepaid, $\frac{1}{2}$ bu. \$1.25; $\frac{1}{4}$ bu. \$2.25; $\frac{1}{2}$ bu. \$4.45; bu. (60 lb) \$8.45.

Select White. Used largely for Lawn Grass Purposes. Also a valuable sort for sowing in lands intended for pasture. Does not do well in too wet soil. Postpaid, lb 48c.; 3 lb \$1.39; by express or freight not prepaid, 5 lb \$1.80; 10 lb \$3.55.

Grimm or Everlasting Alfalfa

Alfalfa, Grimm or Everlasting. This is the Queen of all the Clovers, the hardest, the most lasting, most productive, having survived winters that killed out many fields of other varieties of Alfalfa. We offer a limited amount of the very finest grade Northern Grown. Price, postpaid, lb 45c.; 3 lb \$1.25; by express or freight not prepaid, $\frac{1}{2}$ bu. \$2.25; $\frac{1}{4}$ bu. \$4.25; $\frac{1}{2}$ bu. \$8.45; bu. (60 lb) \$16.65.

Dry Land Alfalfa Seed. The extension of Alfalfa growing into the regions of limited rainfall has created a demand for Alfalfa seed especially adapted to those conditions. Seed which has been produced from Alfalfa grown on dry land and without irrigation is of course much preferable for dry land culture to seed produced under irrigation or normal rainfall. It is not always possible to obtain seed grown under these conditions, but we have succeeded in purchasing a limited amount of fine seed which is offered only until our stock is exhausted. In case we do not have Dry Land Alfalfa when your order is received we suggest that you state on your order as to what variety we may substitute in its place to the value of the money you send us; or, in the absence of these instructions, we will promptly refund your money if we do not have what is wanted. We never substitute without the consent of the purchaser. Price, postpaid, lb 40c.; 3 lb \$1.15; by express or freight not prepaid, $\frac{1}{2}$ bu. \$1.75; $\frac{1}{4}$ bu. \$3.35; $\frac{1}{2}$ bu. \$6.60; bu. (60 lb) \$12.75.

Montana Alfalfa Seed. Montana is producing a very fine grade of Alfalfa. The seed is usually exceptionally large and of high germination. Our seed is obtained in those sections where plants have endured the extreme cold of winter and thrive at high altitudes. We have been able to secure only a limited quantity of exceedingly bright seed. Price, postpaid, lb 35c.; 3 lb \$1.00; by express or freight not prepaid, $\frac{1}{2}$ bu. \$1.65; $\frac{1}{4}$ bu. \$3.25; $\frac{1}{2}$ bu. \$6.25; bu. (60 lb) \$12.35.

Turkistan Alfalfa. Genuine. Endures extreme cold and drought; excellent crops have been raised on strongly alkaline soils. Strong, leafy, slender stems, making most nutritious hay. Postpaid lb 35c.; 3 lb \$1.00; by express or freight not prepaid, $\frac{1}{2}$ bu. \$1.55; $\frac{1}{4}$ bu. \$2.95; $\frac{1}{2}$ bu. \$5.75; bu. (60 lb) \$11.45.

Timothy

The Standard Grass for Hay

Superior Northern-grown. Always makes an Enormous Crop of the Finest Hay. Every farmer has learned to his sorrow in the course of his farming life that ordinary grass seed as sold at the stores comes mixed with more or less of white daisy, plantain, thistle, pig weed, smart weed, wild carrot, dock, etc., while in clover he finds buckthorn, plantain, dock in two varieties, smart weed, sorrel, wax seed, etc., and in addition more or less of sand and dirt in each. We have resolved hereafter to catalogue such a grade of seed only as shall be free of weeds of all kinds. This costs in the market a few cents more than the ordinary grade, but we have faith to believe our customers will endorse the wisdom of the step. Timothy thrives best on moist, loamy soils of medium tenacity. It should be cut just when the blossom falls. Sow early in the Spring or fall, at the rate of twelve pounds per acre, if alone, but less if mixed with other grasses. **Price, postpaid, 1b 28c.; by express or freight not prepaid, 1/2 bu. \$1.10; 1/4 bu. \$2.10; 1/2 bu. \$4.00; bu. (45 lb) \$7.45.**

Bromus Inermis

Choice Montana Grown. This is the best grass that has yet been tried in this country. When properly sown, it catches well, giving a good sod the first year; in favorable seasons, a fair yield of hay may also be obtained. Up to the present the best results have been obtained by sowing plenty of seed on well prepared ground as early as possible in the spring. From 1 1/2 to 2 bushels should be sown to the acre, depending somewhat upon the season and condition of soil. The forage, though coarse, is of excellent quality, and under ordinary circumstances a large amount of early spring and fall feed may be obtained, in addition to a good yield of hay. Thus far the grass has endured drought perfectly, and has never winter-killed in the least. It does well sown with Clover or with Clover and Timothy. Use 20 pounds to the acre if alone, if with Alfalfa 15 pounds; they will grow well together. It may be sown in the fall with Winter Wheat, or in the spring. Cut when first coming into bloom. **Price, postpaid, 1b 27c.; by express or freight not prepaid, 1/2 bu. 50c.; 1/4 bu. 75c.; 1/2 bu. \$1.25; bu. (14 lb) \$2.17.**

Pearl Millet

(Billion Dollar Grass). Quick Growing and Heavy Cropping. This quick-growing forage plant has long been known under the name East India or "Cat-tail" Millet. Sown in drills four feet apart and cultivated like Corn the plants attain a height of 8 to 10 feet, with slender, long-bladed leaves. These stalks can be cured for winter use, and the seed makes an excellent poultry food, but the best use of the plant is to cut the stalk for green forage when about three feet high and allow the plant to make a second growth for fall feeding or ensilage. Five pounds of seed are required per acre. **Choice Northern-grown Seed. Price, postpaid, 1b 30c.; by express or freight not prepaid, 5 lb 50c.; 10 lb 85c.**

New Japanese Millet

Quick Growing, Drought Resisting Variety of Great Merit. Grows from 4 to 7 feet tall, but is not harsh and woody as other grasses are. This is one of the most profitable and valuable seed crops. We have grown this splendid Millet for years and have been so careful in the selection and improvement of our Stock Seed that our strain is acknowledged to be best in existence. **Choice Northern Grown Seed. Price, postpaid, 1b 20c.; by express or freight not prepaid, 1/2 bu. 30c.; 1/4 bu. 55c.; 1/2 bu. 90c.; bu. (36 lb) \$1.85.**

German Millet

Quick Growing; Very Prolific. German Millet makes a most nutritious hay crop, quick growing and easily cured. It requires, however, to be seeded thickly—not less than one bushel per acre—and the crop should always be cut while in bloom, before the seeds harden in the head. If the seed is allowed to form, the stalk gets hard, and it does not make nearly as good quality hay, and at the same time it is more exhaustive to the land. It can be sown any time from the middle of May until the end of July. It matures its crop in from six to eight weeks after seeding. **Choice Northern Grown Seed. Price, postpaid, 1b 25c.; by express or freight not prepaid, 1/2 bu. 35c.; 1/4 bu. 55c.; 1/2 bu. \$1.00; bu. (50 lb) \$1.35.**

Hungarian Millet

Grows Unequaled Hay for Stock Raisers. (Dark Seed). Often called Hungarian Grass. Many regard this as being even better than German Millet as it is about one week earlier and requires less moisture. The hay is fine and of excellent feeding value. It is especially valuable on account of its requiring such a short season to make a fine crop of most excellent hay. For this reason it is much used as a catch crop. It can be sown as late as the 4th of July with good results in ordinary seasons. It is much used for following such crops as early Potatoes and Barley for a crop of hay, thus giving two crops on the same land in one year. Hungarian Millet does not grow so coarse as some other varieties, but still yields quite heavily, from two to four tons of hay to the acre being an ordinary crop. Hay is quite leafy, of very fine quality. **Choice Northern Grown Seed. Price, postpaid, 1b 25c.; by express or freight not prepaid, 1/2 bu. 40c.; 1/4 bu. 60c.; 1/2 bu. \$1.05; bu. (48 lb) \$1.95.**

Early Russian Millet

The best hog and stock Millet. It is about three weeks earlier than German or common Millet, thereby making a crop when the latter often fails on account of early frosts. Second: It grows extra fine stalks, wondrously prolific, has great stooling habits, is very leafy and bushy and full of rich, green blades. One kernel has been known to produce fifty fine, strong stalks, just the size that are eagerly eaten by cattle. **Choice Northern Grown Seed. Price postpaid, 1b 25c.; by express or freight not prepaid, 1/2 bu. 40c.; 1/4 bu. 60c.; 1/2 bu. \$1.05; bu. (50 lb) \$1.90.**

Columbia Lawn Grass Mixture

Makes the Finest Lawns in the World. This mixture will insure a beautiful, compact, evergreen sod on any lawn where the essential requirements of grass culture have been complied with. Full provision is made for a successful growth, so that there shall be no break in the richness of the verdure from spring until autumn, and experience proves that our Columbia Lawn Grass Mixture is now perfect. Nothing better can be purchased on the American market, no matter what claims may be advanced by other Seedsmen. Price, postpaid, 1/2 lb 20c.; 1 lb 38c.; by express or freight not prepaid, 5 lb \$1.40; 15 lb \$3.95; 25 lb \$6.25.

Evergreen Mixture Lawn Grass. The best Medium Priced Lawn Grass. On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine, dwarf-growing evergreen varieties, which in their wild or natural state are to be found growing in the woods or other sheltered or shaded spots. Price postpaid, 1/2 lb 15c.; 1 lb 28c.; by express or freight not prepaid, 5 lb 1.00; 15 lb \$2.95; 25 lb \$4.75;

Kentucky Blue Grass, Extra Fancy. Our Rockford Strains are unsurpassed. Many prefer this to a mixture of grasses, and the fact cannot be denied that a lawn of Blue Grass only is magnificent; it takes longer, however, to get it established. Very desirable for wood lawns, pastures and especially excellent for winter pastures because of its thick, heavy growth. Price, postpaid, 1 lb 39c.; by express or freight not prepaid, 5 lb \$1.45; 14 lb (bu.) \$3.85.

White Clover, Extra Fancy. Fancy Recleaned Seed, Very Fine. Is the best of the Clover family. Especially suitable to plant for pasture or to sow in lawn in connection with the Blue Grass. It produces a delightful, smooth and attractive surface; also makes excellent forage for bees. This choice variety, price postpaid, per lb 48c.; by express or freight not prepaid, 5 lb \$1.95; 10 lb \$3.85. Write for prices on larger quantities.

Red Top, Extra Fancy. Recleaned; Sure to Grow. This seed, well cleaned, makes a good permanent grass and produces luxuriant growth on most any soil. This is a great variety, and you should send your orders for it early, as it usually sells rapidly. Postpaid, 1 lb 33c.; by express or freight not prepaid, 5 lb \$1.15; 14 lb (bu.) \$2.95. Write for prices on larger quantities.

GRASS AND CLOVER SEED MIXTURES

For Meadows and Permanent Pastures

It is often difficult for our patrons to select proper Grasses and mix same thoroughly for their use; and it thus comes that we are annually requested by thousands of our friends to select and mix for them sorts adapted to their soil and climate. This from our large experience in the culture, nature and requirements of Grasses for pastures and meadows; we can often do more satisfactory than they. When customers wish a luxuriant growth of either meadow or pasture, it will pay them every time to buy our Grass Mixtures. Our seeds are Northern grown, and our farmer friends will be surprised to see the unusual vigor that this lends to them. Northern grown seeds, whenever a strong growth is wanted for hay or pasture, usually returns 50 per cent more crop than Eastern stock. Our Grass mixtures for pastures and meadows are composed of appropriate Grasses in such quantities as are required to produce an even, healthy, vigorous, strong growth on different soils.

PRICES

Noroton Beauty or Quick Lunch

The earliest Potato ever grown and fully as productive as any main crop or late sort. This combination of extreme earliness, productiveness, also good keeping qualities, has never before been attained. Its table quality is superb and keeps longer in good condition than any other sort, early or late, and is one of the best all-round Potatoes in existence. **Prices, postpaid, 1 lb 30c.; 3 lb 70c.; by express or freight not prepaid, 1/4 bu. 60c.; 1/2 bu. \$1.00; 1 bu. (60 lb) \$1.90; bbl. (150 lb) \$4.70.**

Burbank, Standard Late Variety

Which continues in good demand and is more largely used than any other. It is of good size, of fine form and an excellent yielder. The flesh is white, very mealy and of fine flavor and quality. The best Potato for baking. **Prices, postpaid, 1 lb 25c.; 3 lb 60c.; by express or freight not prepaid, 1/4 bu. 55c.; 1/2 bu. 95c.; 1 bu. (60 lb) \$1.85; bbl. (150 lb) \$4.60.**

New Extra Early Rockford

Earliest and Best. Makes an extremely quick growth and considering its Extra Earliness is a wonderful heavy yielder. Handsome, pinkish tinged skin and white flesh. Just the right shape; just the right size. In fact it is the ideal Potato. **Prices, postpaid, 1 lb 30c.; 3 lb 70c.; by express or freight not prepaid, 1/4 bu. 60c.; 1/2 bu. \$1.00; 1 bu. (60 lb) \$1.90; bbl. (150 lb) \$4.75.**

Carmen

Number Three

The best standard late. Enormous cropper. Satisfactory shipper. Splendid appearance. Meets all requirements all the time. One of the most popular of the Carmen group of Potatoes. Carmen Number Three grows to the largest size of any of the main crop sorts. Choicest Pedigreed Stock Seed. **Prices, postpaid, 1 lb 25c.; 3 lb 60c.; by express or freight not prepaid, 1/4 bu. 55c.; 1/2 bu. 95c.; 1 bu. (60 lb) \$1.85; bbl. (150 lb) \$4.65.**

New Extra Early Rockford

New Early Six Weeks

Well known favorite. Very early, good yielder. Forty-five days is three days longer than six weeks, which is the record our stock of Early Six Weeks holds on our Northern Seed Farms, and tested with other samples of Six Weeks Potatoes, proves more vigorous and productive. Choicest Pedigreed Stock Seed. **Prices, postpaid, 1 lb 25c.; 3 lb 60c.; by express or freight not prepaid, 1/4 bu. 55c.; 1/2 bu. 95c.; 1 bu. (60 lb) \$1.85; bbl. (150 lb) \$4.65.**

Improved Early Ohio

This is without doubt the most popular Early Potato in the country, and there is a greater demand for it than for any other Early. The Potatoes we offer are smooth and clean, earlier, more vigorous and productive than home grown seed. **Pure, Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb 25c.; 3 lb 70c.; by express or freight not prepaid, 1/4 bu. 60c.; 1/2 bu. \$1.00; 1 bu. (60 lb) \$1.85; bbl. (150 lb) \$4.65.**

Pure Early Rose

The good old favorite, which continues in great popularity. A prolific yielder, sure cropper, and popular market Potato. Every farmer and gardener knows the good Early Rose and nothing need be said in its favor. The strain we offer is the purest and best that can be put on the market. Choicest Pedigreed Stock Seed. **Prices, postpaid, 1 lb 25c.; 3 lb 60c.; by express or freight not prepaid, 1/4 bu. 55c.; 1/2 bu. 95c.; 1 bu. (60 lb) \$1.85; bbl. (150 lb) \$4.65.**

Irish Cobbler

A chunky, white-netted early Potato. Of splendid quality; flesh creamy white, splendid yielder, and especially suited to dry climates. Choicest Pedigreed Stock Seed. **Prices, postpaid, 1 lb 25c.; 3 lb 60c.; by express or freight not prepaid, 1/4 bu. 60c.; 1/2 bu. \$1.00; 1 bu. (60 lb) \$1.90; bbl. (150 lb) \$4.70.**

Our Seed Potatoes
Are Grown in the
Famous Red River
Valley of the North

Early White Ohio

Early White Ohio Potato

An Ohio with a White Skin. It is a true Ohio of the best type in all except color, which instead of being pink, as in the parent, is a beautiful creamy white with pink eyes. Just imagine the smoothest, nicest Ohio you ever saw, but with the color of the old Peachblow, and you will have a good idea how it looks. In earliness there seems to be no difference between it and the Ohio, the White Ohio being a little bit the earliest if anything, but in yield it has a decided advantage. The great demand in every market now is for a white Potato, and even the good old Ohio, the standard for extra early, often has to take a back seat because of the color of its skin. Here we have a genuine **Early Ohio** with the quick compact growth of that well-known variety and withal a white skin. For every locality where a white Potato is the popular market color, this new Potato is bound to be a money making "winner." **Prices postpaid, 1 lb 25c.; 3 lb 70c.; by express or freight not prepaid, ¼ bu. 60c.; ½ bu. \$1.00; 1 bu. (60 lb) \$1.90; bbl. (150 lb) \$4.70.**

Bliss' Red Triumph

A Week Earlier than Rose. This variety has been known for a long time and yet unknown. It was introduced many years ago by Mr. E. K. Bliss, of New York, who disseminated the Early Rose. The Triumph attained at the time no particular favor, but all of a sudden its virtues became appreciated and the demand for it was so great that it sold readily in carload lots for three times the price of ordinary seed Potatoes and one man who had several thousand bushels reaped a substantial fortune from their sale. There is good reason why the Triumph should be popular. It is from seven to ten days earlier than the Ohio, and that oftentimes means a difference of many dollars in the crop. We believe that Potato growers will do well to plant liberally of them the coming Spring as there is sure to be an almost unlimited demand for the seed from the Mississippi Valley, where thousands of acres of Potatoes are grown each year for the early market. The Potato is of good size, squared at ends. Skin is red, flesh is very white and firm. It is productive, and for several years to come will probably command a higher price among Potato buyers than any other sort. Our stock is genuine. **Prices, postpaid, 1 lb 25c.; 3 lb 60c.; By express or freight not prepaid, ¼ bu. 60c.; ½ bu. \$1.00; 1 bu. (60 lb) \$1.90; bbl. (150 lb) \$4.70.**

NORTHERN GROWN

**Potato
EYES**

GROWN BY
THE GREAT NORTHERN SEED CO.
ROCKFORD, ILL.

There are many people living in cities or towns who have a small garden and would like to devote a portion of it to Potatoes, but do not feel like paying the freight or express charges on a small quantity of whole Potatoes. By purchasing eyes this can be done at a very slight expense. By careful selection we take the very best Potatoes, from which the eyes are cut. These are prepared in such a way that they will keep in good condition for a considerable length of time, and we warrant them to arrive in good condition for growing, no matter how far away. In this way our customers can have the pleasure of trying our new varieties at little cost. In sending the Eyes by mail there is nothing to pay for transportation, we pay all postage. All orders for the South can be sent at any time in the winter with safety. Orders for the North and West will be booked when received, and sent when Spring opens or planting time arrives.

PRICE OF POTATO EYES, POSTPAID

Box of 100 Eyes, 65c.
Box of 200 Eyes, \$1.25.
Box of 500 Eyes, \$3.00

No less than 100 Eyes of any sort will be put up.

The following list of Sterling and Highly Meritorious Novelties and Specialties are a distinct advance in their respective classes, and should be tested by every Flower Lover. They will not disappoint you.

Improved Crego Pink Aster

A Magnificent Large Flowered Comet Type. Wonderfully Prolific and A Continuous Bloomer.

The really distinctive feature of this Aster, which alone distinguishes it from other varieties, and gives it its right to a new name, is its color. It is a pure shell pink, so popular everywhere and always admired.

The plants are vigorous and productive of from ten to fifteen strong flower stems, frequently two feet or more in length. The flowers are large and fine as Chrysanthemums, seldom measuring less than four inches across, and full with the crowns well covered.

The petals are of medium width but very long, and curl across each other so fluffily as to enhance the beauty and attractiveness of the flower, and increase its value as a long keeping, good shipping variety. Without question this new variety surpasses in size and beauty any other Aster. Be sure and give it a trial; you will be pleased with it. **Pkt. 8c.; 1/8 oz. 30c.**

Queen of the Pacific Aster Mixture

New Aster

Queen of the Pacific Mixture

All the Newest and Best Colors in Fine Array

Possessing all the good qualities of the older varieties of Asters, and surpassing all in size, delicacy and beauty of coloring, making it especially desirable for decorating purposes. One of the chief characteristics is the beautiful arrangement of the petals, the outer gracefully curling under, while center rows coquettishly turn over in the opposite direction, giving the flower a raised, fluffy center. **The Colors**—embrace a soft, light rose, a rose pencilled with white, reddish lilac, reddish lilac pencilled with white, violet, violet pencilled with white, etc. They are perpetual bloomers. Seed sown in April will give an abundance of flowers from July until frost. **Large pkt. 6c.; 1/8 oz. 25c.**

Passion Flower

Everybody's Favorite—Delightfully Perfumed Trailer. This elegant vine is easily grown from seed. Very beautiful for windows and when planted out in summer makes a magnificent climber, growing rapidly, bearing singular beautiful blue and white flowers. Choicest mixed, **pkt. 5c.**

Blue Marguerite or Daisy

A Beautiful Bedding Plant and an Excellent Indoor Bloomer. Flowers are a lovely sky-blue tint with yellow disc, easily grown from seed or cuttings; useful in producing flowers during winter months, and very pretty for summer decoration in the garden. **Pkt. 4c.**

Blue Marguerite

Passion Flower

New Japanese or Tassel Aster

New Japanese or Tassel Asters

Plants of pyramidal growth, about 18 inches high, bearing on long stems from 40 to 50 flowers, averaging 5 inches across, composed of wavy and twisted needle-shaped petals, making the flowers free from the stiff and formal appearance usual to Asters. The beautiful flowers of this new strain of Asters offer a most striking contrast with those of any other variety. The color is of a soft flesh pink and rose, the two colors mixed. **Pkt. 5c.; 1/8 oz. 35c.**

New Quick Blooming Sweet Scented Forget-me-not

A robust growing, large flowering variety that may be sown at any time of the year and commences to flower in from 8 to 10 weeks' time, and when fully grown are perfectly covered with clusters of exquisite azure-blue flowers on long graceful stems, rendering them very useful for cutting. In the days of old, a German Knight lost his life in trying to secure for his lady love a tiny blue flower growing on the Banks of the Danube, crying as he fell into the river, "Vergiss mein nicht" (Forget-Me-Not); thus naming this beautiful flower and making of it an emblem of fidelity. **Pkt. 6c.; or for Club order 6 pkts. for 20c., postpaid.**

HAMMOND'S SLUG SHOT

Sure death to Potato Bugs, Worms, Fleas and Beetles on all plants. Price 15c. lb, postpaid.

FORGET-ME-NOT

Bird of Paradise

Bird of Paradise

This striking and attractive flower has lately become wonderfully popular. Blossoms are of a rich golden yellow, about 2½ inches in diameter, produced in large trusses, the most striking feature being the long, in-curving stamens and pistils, of a beautiful bright crimson. **Pkt. 5c.**

Balsam—Giant Perfection

Double Gigantic Flowers as Perfect as Camellias. Unrivalled for large size, perfect form and robust habit. Flowers often 2 inches across, borne in wonderful profusion, and more uniformly double than any other strain. It is not an uncommon sight to see more than 500 large double blooms upon a plant at one time. The range of color includes white, rose, yellow, buff, pomegranite, red, scarlet, crimson, purple, lilac and violet. The Balsam is one of the most beautiful and easily grown of all garden annuals. **Finest mixed, pkt. 5c.; ¼ oz. 25c.**

The Heavenly Blue Flower

Heavenly Blue Flower

A hardy annual of more than ordinary beauty. It grows about 2 feet high, branching freely and bearing a profusion of the most lovely flowers similar in all respects to the Forget-me-not, though the blossoms are much larger and of finer color. It is always taken for a beautiful large flowering Forget-me-not. **Pkt. 5c.; ½ oz. 15c.**

Fairy Rose

New Fairy Roses

Roses From Seed the First Year
One of the most unique and novel pot flowers grown. **The only genuine dwarf variety,** blooming in 4 or 5 months after sowing seed, giving about equal proportions of single, semi-double and double flowers, borne in clusters and containing all the tints and colors of cultivated Roses. **Pkt. 5c.**

African Golden Daisy

Gerani (Dimorphotheca Aurantiaca)

Rare and extremely showy annual from South Africa, destined to become a great favorite on account of its very easy culture and its beautiful flowers. The plants, of neat branching habit, grow about 12 inches high, and flower in exceeding profusion. The single, daisy-like blossoms, 2½ to 3 inches in diameter, are of a unique shade of glossy terra-cotta orange, which brilliant coloring is rendered the more conspicuous by the dark colored disc surrounded by a black zone. **Pkt. 4c.**

Carnation—Marguerite

This new class of fragrant Marguerite Carnations will bloom in about four months after sowing the seed. Flowers are of brilliant colors, ranging through many beautiful shades of reds, pinks, white, variegated, etc., exquisitely sweet and fully 80 per cent perfectly double. Our mixed seed will produce a large percentage of fine, double-flowered plants in the choicest assortment of colors. **Choicest Mixed, Pkt. 5c.; 1/4 oz. 35c.**

Double Gaillardia

One of the most valuable annuals for cut flowers, producing very double flowers as round as a perfect ball, in varied colors, and are borne on long, slender stems; when cut will keep over a week. **Fine mixed, pkt. 3c.**

Rudbeckia

Speciosa Bicolor. The flowers have a large, rounded purplish cone in the center, with narrow petals spreading in ray-like form around the base of the cone. These petals are a deep orange-yellow, heavily marked with brownish red on the inner portion. **Pkt. 4c.**

Rudbeckia Speciosa Bicolor

Gaillardia Double

BEST

SEEDS

New Royal Pinks

The plants are of strong, quick growth, forming a neat compact bush 10 to 12 inches in height and bearing a profusion of brightly colored flowers from early in the summer until winter sets in, and are remarkable for the varied range of extremely bright colorings, coming chiefly in rich shades of red, carmine and deep rose. The plants are quite hardy in well-drained soil, and produce larger and finer flowers the second year than in the first summer from seed. **Best Mixed, Pkt. 4c.; 1/4 oz. 20c.**

Geranium

New Giant Flowered

A greatly improved strain of Geranium seed grown by a specialist for our trade. These favorite plants are easily raised from seed, which will frequently reward the cultivator with charming new varieties. Seed started early in the house bloom the first summer in the garden. Some seeds come up in a few days and others in many days, perhaps weeks.

If you have never grown Geraniums from Seed, Try it Once. **Pkt. 7c.**

Geranium New Giant

Cosmos—Giants of California

COSMOS (Giants of California)

This strain is noted both for beauty and the gigantic size of its flowers, which measure 4 to 5 inches across; the colors are very varied and beautiful. **Choicest Mixed, pkt. 4c.; ½ oz. 12c.**

WONDEROUS WEATHER PLANT

This beautiful plant has created a great sensation. If leaves stand upward the sky will be cloudless. If they stand out straight, changeable weather is indicated. When leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by curling together of the leaves. Bears clusters of bright yellow flowers, followed by bunches of pods, which, when dry, burst open, disclosing brilliant red seeds with black eyes, used for making beads and ornaments. **Pkt. 5c.; 1 oz. 12c.**

GIANT DOUBLE POPPIES

This "Brilliant Mixture" of double annual Poppies has been made from exclusively improved giant double-flowering sorts, and none but the richest, most brilliant, as well as the daintiest and loveliest, shades and colors are included. **Pkt. 4c.; ½ oz. 15c.**

Giant Double Poppies

Weather Plant

**PLANT SPRINKLER**

For sprinkling cut flowers, seedlings, plants, clothes, etc. They are made of very best grade of rubber.

**Straight Neck, 90c.;
Crook Neck, \$1.00, post-paid.**

Kochia, or "Burning Bush"

KOCHIA, or Burning Bush

This beautiful annual bush is rapidly coming into prominence. It grows 2 to 2½ feet high and resembles a closely clipped ornamental evergreen. The globe shaped or pyramidal bushes are close and compact, and of a pleasing light green color. The plant may be grown singly or in the form of a hedge or background. In early autumn the whole bush becomes carmine or blood red, whence the name of Mexican Fire Plant, Burning Bush, etc. It is also called Belvidere, Standing or Mock Cypress. **Pkt. 4c.; ¼ oz. 10c.**

COCKSCOMB**Ostrich Plume**

A new Cockscomb which bears feathery plumes of bloom, more like ostrich feathers or Pampas grass than anything else. These magnificent plumes are one to two feet in length, and of all colors from sulphur yellow to deep rich crimson, rose, pink, scarlet, yellow, orange, etc. A plant in bloom is one of the very brightest and showiest of all garden annuals. **All Colors Mixed, pkt. 4c.; ½ oz. 10c.**

Ostrich Plume Cockscomb

Ten-Weeks Stocks—Colossal

Dahlias, Giants of California

Ten Weeks Stocks

New Colossal

Flowers Enormous Size and Very Double. It has every merit of a perfect flower, very compact habit, many and long spikes of closely-set, large, double flowers, each as double as a rose, waxy of texture, exceedingly sweet and varying in color from snow white to dark maroon brown, and through all intermediate shades of red, blue and yellow. It is a grand bedder, and a fine pot plant, blooming the winter through. The plants are of strong, healthy, robust growth and produce continuously for weeks, their fine spikes of splendid flowers which are also delightfully fragrant. Plants from seeds sown in the spring commence blooming in early summer and continue until cut down by frost. Prize mixed, pkt. 4c.; $\frac{1}{4}$ oz. 30c.

Centrosema

Sometimes called "Look at Me." A hardy perennial vine that will bloom in June or July from seed sown in April and bears in profusion inverted pea-shaped flowers from $1\frac{1}{2}$ to $2\frac{1}{2}$ inches in diameter, ranging in color from a rosy violet to a reddish purple, with a broad-feathered white marking through the center, while the large buds and back of flower are pure white, appearing as if one plant bore many colored flowers. Pkt. 4c.

Centrosema, "Look at Me"

Dahlias

Giants of California

The finest Dahlias can be grown from seed, and plants will bloom the first season. Seed sown in the house in March and April will produce flowering plants as soon as those grown from tubers, so that the purchase of bulbs is a needless expense. They are remarkably easy to germinate, and from a packet of seed no two plants will be alike in flower, and every color represented, from snow white to dark maroon, striped and flaked. Extra fine mixed, pkt. 6c.

FOR DAHLIA PLANTS SEE PAGE 85.

Heliotrope—Mammoth

One of the most superb strains known among Heliotropes, bearing flowers of immense size and of richest beauty and fragrance. The colors range through all the shades of blue, from violet to indigo. The great trusses or floral heads are sometimes a foot across, and are magnificent in appearance. The plants grow about two feet high, and the foliage is peculiarly rich, glossy and attractive. Everyone likes the delightful fragrance and beauty of the Heliotrope, but very few are aware of the fact that it can be raised from seed as easily as the Verbena. They bloom abundantly in the garden all summer or all the year around in pots. A packet of this seed will furnish a bed of flowers for your garden or lawn which would cost several dollars were you to purchase the plants. Select mixed, pkt. 4c.; $\frac{1}{4}$ oz. 50c.

Heliotrope, Mammoth

New Spencer Hybrids or Giant Orchid Flowered Sweet Peas

A new and distinct type and form and the largest in size of all Sweet Peas, truly gigantic, measuring when full grown $1\frac{1}{2}$ to 2 inches across the standard, which is large, round and waved or fluted; stand upright without flattening the folds. Wings are also beautifully frilled. Stems are extra long and stiff, uniformly three to four exquisite blossoms facing one way, which render them of exceptional value for cutting. There are four distinct ground colors, pink, orange, salmon and rose, but these are again divided into many beautiful tints, which blend harmoniously when gathered for bouquets. **Grandest mixed, pkt. 5c.; oz. 12c.; 2 oz. 20c.; $\frac{1}{4}$ lb. 35c.**

SEEDS

Giant Orchid Flowered Sweet Peas.

Nasturtium, Giant Climbing.

Giant Flowered Climbing Nasturtiums

The color combinations in these flowers are simply superb, such as a wealth of rich maroon, crimson, scarlet, magenta and claret shades, marbled and mottled streaked spotted and splashed with white, cream, pink and rose. The flowers are much larger than those of the old-fashioned kind, and in nearly all of them the petals overlap each other so as to make perfect flowers. We call special attention to this mixture. In it will be found all the choicest colors of the tall Nasturtiums, the rich, velvety Lobb varieties, the Canary Bird Creeper, the new hybrids of Mad. Gunther and the new tall "Chameleon." These climbing Nasturtiums are admirably adapted for covering verandas, trellises and tree trunks, and by virtue of their long stems and the lasting quality of their flowers, are most useful and handsome cut flowers for bouquets, vases, buttonholes, etc. **Price, large pkt. 5c.; oz. 12c.; 2 oz. 20c.; $\frac{1}{4}$ lb. 35c.**

Mammoth Rainbow Pansy

A mixture of the most surprising, unique and beautiful color combinations that cannot be procured in any other mixed strain. The flowers are of the largest size and most perfect shape, frequently measuring $2\frac{1}{2}$ to 4 inches across, the markings and colorings are endless and include all the new shades of terra cotta, rose, pink and wine reds that are so popular at present time. **Large pkt. 4c.**

Pansy Mammoth Rainbow

Baby Golden Glow

Baby Golden Glow

A beautiful and most effective annual, blooming from seed the first season, growing only two feet high, flowering early and so profusely that it eclipses all other garden annuals for a grand show of flowers. Single plants producing hundreds of the brightest yellow and white blossoms as double and perfect as roses. If wanted for early bloom, the seed should be started in the house and the plants transplanted to the garden at the proper time, but seed can be sown in open ground when wanted to bloom with equal success. It is certainly a grand novelty, and will please every flower lover. **Pkt. 4c.**

Giant Ruffled Pansies

Giant Ruffled Pansies

A remarkable strain of Giant Pansies, the flowers of which are so large and full that the broad petals seem to be "gathered" to the stem, causing them to be undulated and fluted from center to circumference, not unlike "frilled" velvet. The unusual substance of the flowers, aided by these corrugations, thus enables them to present bold, open and handsome faces, even during windy or dry summer weather, when other pansy flowers flop or wilt. The flowers are extraordinarily large and are borne on strong stems well above the foliage; they are nearly all five-blotched and contain rich combinations of coloring, including some new tints and blending not met with in other pansies. **Mixed Colors.** Pkt. 6c.

Large Flowering Candytuft

Candytuft—Large Flowering

Most desirable for cut-flower purposes, producing a very large, elongated head of quite large pure white florets. The immense broad heads frequently measure six inches in length; flowering profusely throughout the whole season; great favorite for beds, edging, pots and borders. Pkt. 5c.

Nicotiana Affinis

Nicotiana Affinis

Sweet Scented Tobacco Plant

A most showy and profuse-flowering garden annual, giving a continuous display of fragrant star-shaped white flowers; through summer and autumn; easily grown from seed, commencing to flower in a few weeks from sowing, thriving in a sunny position in any good garden soil. The plants, of branching, bushy habit, 2 to 3 feet high, carry the flowers in clusters. Pkt. 4c.

Giant Flowering Tom Thumb Nasturtium

Giant Flowering Tom Thumb Nasturtiums

These Grand Bedding Nasturtiums have flowers often measuring three inches across in a great variety of new and charming combinations of colors, while the brilliancy and velvety richness of the self-colored sorts have been greatly enhanced. For summer flower beds nothing can surpass them; the plants form perfect mounds about one foot high by one foot across. Seed sown in the open ground in the spring will produce plants that commence blooming early summer and continue until frost. This mixture contains seed saved from the largest-flowering most beautiful and varied collection ever sent out. **Choicest Mixed.** Pkt. 5c; oz. 12c.; 2 oz. 20c.; 1/4 lb. 35c.

Everblooming Hollyhocks

Ever-Blooming Annual Hollyhocks

Every Garden may now be Glorified with Queenly Hollyhocks Grown as Easily and Flowering as Quickly from Seed as any Garden Annual.

The Hollyhock has always been one of the most showy of garden flowers and very desirable for massing, borders and backgrounds, the one objection to it being that it was a biennial and did not bloom to perfection until the second year. This fine new variety may be started in the house in March or April, set out in May and comes into bloom in July and will continue in flower until killing frosts in the fall. Or seed may be sown in the open ground in May and will bloom in August. Plants are of vigorous growth from 5 to 8 feet high, according to the soil, and the stalks are fairly loaded with large flowers, sometimes 5 inches across. These flowers are of a great variety of colors, crimson, canary, yellow, pink, white, maroon, black, scarlet, etc., some of them beautifully veined and marked, double, semi-double and single. They will surely please everybody. **Best mixed, pkt. 7c.**

New Fuchsia-Flowered Morning Glory

The vines or shoots are gracefully slender, but very numerous and most densely covered with five-fingered deep green leaves. The vines grow very rapidly, quickly covering tall poles or trellis with a dense screen of the peculiarly attractive foliage, and during the late summer and fall months bear small light rosy-pink flowers. The seed pods quickly form on the end of the long wiry stems and bear a striking resemblance (as is shown in illustration) to the flower buds produced by the Fuchsia. **Pkt. 5c.**

"Fuchsia-Flowered" Morning Glory

Verbena

BEST
LOWEST PRICES
SEEDS

Glants of California

Most magnificent strain ever offered. Blossoms as large as a silver Twenty-five cent piece. Single plants of this pretty annual creeper will carpet a space 3 to 4 feet in diameter with neat foliage and scores of fine flower umbels. For beds, borders and mounds, vases and window-boxes it is particularly fine, frequently used for undergrowth to tall plants like Lillies. Like the Aster, the Pansy and the Petunia, the Verbena is a favorite with everybody, and one of the most universally popular of all flowers both for the garden and for pot culture. For constant and profuse flowering, and for brilliance and beauty of colors, it has few equals. Start seed early under glass if possible, that good, strong plants may be had to transplant to the garden. They will commence blooming in June and continue until after severe frosts, and during this entire time nothing will attract more attention than the bed or clump of Verbenas. In August cuttings may be taken from the best ones and potted up for winter blooming. Although perennials they bloom profusely the first season from seed. **Finest mixed, pkt. 6c.; 1/4 oz. 45c.**

Giants of
California Verbena.

Blue Shades. Large pkt. 4c.; $\frac{1}{8}$ oz. 25c.
Perfection Mixed. Large pkt. 5c.; $\frac{1}{8}$ oz. 20c.

New Giant Comet Aster

The finest of all. The petals are finely curled and twisted, giving it a very fine appearance. Flowers of large size and borne in great profusion. The colors are:

Snow White. Large pkt. 5c.; $\frac{1}{8}$ oz. 25c.
Rose Color. Large pkt. 5c.; $\frac{1}{8}$ oz. 25c.
Blue Shades. Large pkt. 5c.; $\frac{1}{8}$ oz. 25c.
Clear Crimson. Large pkt. 5c.; $\frac{1}{8}$ oz. 25c.
New Giant Comet Mixed. Large pkt. 4c.; $\frac{1}{8}$ oz. 20c.

Aster, New Crown

A very showy variety. Pkt. 4c.; $\frac{1}{8}$ oz. 40c.

Aster, New Harlequin

A very odd and attractive new variety. Pkt. 4c.; $\frac{1}{8}$ oz. 40c.

Aster, Queen of the Market

Its great merit is its early-flowering character, being in full flower two weeks before most other Asters begin to bloom. Colors range from deep blue, white, pink to beautiful rose. Finest mixed, pkt. 4c.; $\frac{1}{8}$ oz. 18c.

Asters

Finest Mixed. Choicest and most varied strains of

Asters ever offered. Pkt. 5c.; $\frac{1}{8}$ oz. 30c.

Asters, Good Mixed. Many bright colors from standard varieties, free bloomers and strictly fresh, new seed. Pkt. 3c.; $\frac{1}{8}$ oz. 20c.

New Giant Comet Aster

Ageratum

Acroclinium

A pretty annual "Everlasting" bearing lovely white or rosy pink flowers, which, when cut in the bud state, can be dried and used in winter bouquets. Pkt. 3c.

Ageratum

Suitable for pot culture or bedding, bearing in profusion clusters of feathery flowers. This mixture of colors contains the beautiful amethyst blue. Pkt. 3c.

Alyssum

Little Gem. Grows 6 inches high, commences to blossom early, producing immense heads, and when sown early in the open border soon forms a perfect mat of purest white. Pkt. 4c.

Sweet Alyssum. Pure white. Pkt. 3c.

Amaranthus

Beautiful foliage plants, invaluable for massing where striking contrasts in color are desired. Choicest Mixed, Pkt. 3c.

Ambrosia

Hardy annual. Blossoms are round and of greenish-yellow color. Fine for bouquets; very fragrant. Pkt. 4c.

Angel's Breath

An annual that should be in every garden, for it thrives everywhere and furnishes the loveliest material for bouquets. It is extensively used for decorating, its mist-like sprays setting off a bouquet as dainty lace does a lady's dress. Hardy perennial. Pkt. 3c.

Antirrhinum

Giant. Flowers double the size of older sorts, more closely set on the stems, and colors more clear and brilliant. All colors mixed. Pkt. 4c.

Tom Thumb. Finest mixed, Pkt. 3c.

Aquilegia (Columbine)

Beautiful grotesque and varied-colored flowers, blooming freely in the Spring; hardy perennials; all colors mixed. Pkt. 3c.

Balsams. (Lady Slippers)

Finest Mixed. Fine assortment, good colors, large double flowers. Pkt. 4c.

Balsam Apple

A beautiful rapid climbing plant with apple-shaped fruit, useful when preserved in alcohol as liniment. Pkt. 3c.

Beans, Scarlet Runner

A Favorite Old-Fashioned Climber. One of the very few Beans that are both ornamental and useful. It grows to a height of 10 to 12 feet, and is covered from July until heavy frost with clusters of beautiful scarlet flowers. Pkt. 5c.

Bachelor's Button

The national flower of Germany, where they call it the "Corn Flower," or "Kaiser Blumen," also known as "Blue Bottle," and "Ragged Sailor." Double Mixed. Pkt. 3c.

California Giants. See page 67.

Daisy (Bellis Perennis)

Giant Double. Greatly improved varieties of the popular "Double Daisies." Admirably adapted for edgings, borders and low beds, and also well suited for growing in pots. Daisies are easily grown from spring sown seed and come into flower in a very short time. The flowers are white, pink, red and variegated. A good proportion will come double from seed. Finest mixed, pkt. 4c.

Datura (Trumpet Flower)

Annual flowers of mammoth size and fine fragrance. Easily grown and very ornamental. Pkt. 3c.

Dianthus (Chinese Pinks)

Few flowers can equal these in beauty and profusion of bloom. They comprise many distinct and most beautifully marked varieties of rich and varied colors. They bloom continually all summer. Choicest Double Mixed; pkt. 4c.

Diamond Flower (Ionopsisium)

Plant 2 to 3 inches high, covered from October till Spring with innumerable blue and white flowers. Pkt. 4c.

Dolichos (Hyacinth Bean)

Splendid climber, with clustered spikes of purple and white flowers. Tender annual, 10 to 20 feet high. Fine Mixed Pkt. 4c.; oz. 10c.

Eschscholtzia (California Poppy)

Foliage is fine and handsome, and flowers pretty and freely produced. Pkt. 3c.

Evening Primrose (Oenothera)

Large, saucer-like flowers of pure white and soft yellow. Very fragrant. Pkt. 3c.

Everlasting Flowers

Easily grown. When dried are excellent for winter bouquets, as they never fade. Choicest mixed pkt. 3c.

Dolichos
(Hyacinth Bean)

FUCHSIA

Dianthus (Chinese Pinks)

Feverfew, Double (Matricaria)

A fine old-fashioned bedding plant; also suitable for pot culture. It grows about 18 inches high, with numerous branching flower stems, which are literally covered with very double, pure white flowers, an inch in diameter. The great profusion of fine flowers, with long, slender stems, makes it valuable to grow for cut flowers and is as desirable as a good Aster. Blooms until frost. Pkt. 4c.

Fox Glove (Digitalis)

Perennial favorite; fine for backgrounds, etc. Light colored, shaded and spotted. Pkt. 3c.

Fragraria Indica—Chinese Strawberry

Perennial herbaceous creeper; yellow blossoms and bright red fruit. Pkt. 3c.

Fuchsia

Double and Single Mixed. They will flower freely the first year in open ground and the plants can be taken into the house for the winter, where they will flower still more freely. Pkt. 8c.

Giant Ghost Flower

Often called Wedding Bells. It blooms either in the house or out of doors in the summer, and is one of the prettiest flowers imaginable. Its individual flowers are drooping bell-shaped, over a foot in length and 8 or 9 inches wide; beautiful creamy-white. Large Pkt. 5c.

Gloxinia—Hybrida

Grand Mixed. This is a grand flower and a lovely pot plant, as easily grown and cared for as many of the commonest flowers. The handsome flowers embrace the richest and most beautiful colors, ranging from pure white to dark blood red. Large pkt. 6c.

Godetia

(Northern Lights). Hardy annual; flowers delicate but of brilliant colors. Large size blooms. Finest mixed, pkt. 3c.

Gomphrena (Globe Amaranth)

A desirable everlasting, valued for its handsome globular heads. Pkt. 3c.

Gourds (Ornamental)

Tender, annual climbers, with curiously shaped fruit in various colors, many of which are peculiarly marked. Best Mixed, pkt. 4c.; oz. 8c.

Humulus—Japanese Hop

BEST
LOWEST PRICES
SEEDS

Marigold—Eldorado

Humulus (Japanese Hop)

Japonicus. One of the Most Rapid Climbers Grown. Seed can be sown in the open ground in spring and it will attain enormous dimensions very quickly. The foliage is luxuriant and it is one of the best plants for covering verandas and trellises. Heat, drouth and insects do not trouble it. Pkt. 4c.

New Leopard-Leaved. Dark green leaves, blotched with gray. Pkt. 4c.

Helichrysum

Everlasting flower; straw flower. Large, full double flowers, of various colors, from white and bright yellow to scarlet, shaded and tipped. Exceedingly handsome for bouquets for winter. Easy culture. Pkt. 4c.

Hollyhock

This fine old-fashioned flower is again in the widest favor. It reaches a height of 6 feet or more, and on account of its stately growth is unexcelled for planting along fences or buildings, or for background effects. It is perfectly hardy, and when well established will bloom fully and freely year after year. Double Mixed. Pkt. 6c.

Ice Plant

A pretty little trailer for baskets or massing; 6 inches high or less. Leaves covered with crystalline drops. Flowers white or pink. Valued for its remarkable foliage. Pkt. 3c.

Larkspur

Well known annuals of great beauty and noted for their richness of color.

Double Dwarf Rocket. Finest mixed. Pkt. 3c.

Lavender

A well known, sweet scented, hardy perennial, bearing long spikes of blue flowers. Pkt. 3c.

Lantana

Tender perennial shrubby plants, bearing flowers of various shades and colors, including orange, white and pink. Especially adapted to greenhouse or window culture, though thriving nicely in the garden in summer. Pkt. 4c.

Linaria

Cymbalaria. Kenilworth Ivy. A widely loved hardy perennial trailing plant, with small lavender and purple flowers. For baskets, vases and rockeries. Pkt. 4c.

Linum

Scarlet Flax. One of the most effective and showy annual bedding plants, of long blooming period, having fine foliage and delicate stems. Flowers one inch across, borne in great profusion. Pkt. 5c.

Lobelia

Annual plants of dwarf, compact growth, four to six inches in height, covered with numerous small, star-like flowers. Pretty grown as an edging for flower-beds, hanging-baskets, vases and house plants in pots in winter. Pkt. 4c.

Marigold

Eldorado. Large double flowers of all shades of yellow, deeply imbricated. Pkt. 4c.

French Double Dwarf. Grows 10 to 12 inches high and produces double flowers of various shades and colors. Pkt. 3c.

Legion of Honor. Medium size flowers; rich, golden yellow color. Very double and of fine shape. Pkt. 4c

Marvel of Peru

Four O'clock. A well known and deservedly favorite flower. Produces large, convolvulus-like flowers; white, yellow, crimson, striped, etc. It is one of the most brilliant and showy plants that can be grown with little or no trouble. Finest mixed. Pkt. 4c.

Matthiola

Night Smelling Stock. An annual plant of the gillflower group, very fragrant at night and after showers. Pkt. 4c.

Maurandia

A tender, climbing perennial, suitable for hanging-baskets or for the greenhouse. It attains a length of five feet or more and is exceedingly beautiful. For outdoor culture treat as an annual. Finest mixed. Pkt. 3c.

Mimulus

Showy plants with profuse bloom, bearing handsome Gloxinia shaped flowers. The colors are varied. The shades include white, yellow, pink, crimson and maroon, with spots and blotches.

Tigridus. Monkey flower. All colors and markings. Beautiful and brilliant. Annual. Pkt. 3c.

Moschatus. Musk plant. Six inch yellow. Tender annual. Pkt. 3c.

Mimosa

Sensitive Plant. An interesting annual. Its leaves close and droop when touched. Hence its name. Pink flowers. Pkt. 3c.

Mignonette

(Reseda Odorata).

New Giant Macnet. Dwarf, vigorous, with massive red flowers, deliciously scented. Pkt. 5c.

Everblooming Mixed. A carefully selected and very fine mixture, including all the best Mignonettes, both old and new. Pkt. 3c.; oz. 10c.

Moon Flower

Beautiful white flowers five or six inches in diameter. Rapid grower and always in bloom. Pkt. 6c.

Phlox, Drummondii, Rockford Giant

Shirley Poppy

BEST
LOWEST PRICES
SEEDS**Phlox, Drummondii**

Rockford Giant The colors range in every conceivable shade, producing flowers twice the size of common Phlox. Their long duration in bloom, combined with their almost unequal richness of color, renders them invaluable. In finest mixture. Large pkt. 5c.

Good Mixed. Invaluable for bedding and for cut flowers; an excellent strain. Pkt. 3c.

New Yellow. A rich straw yellow of warm and glowing tones; flowers extra large and fine form. Pkt. 5c.

Starred and Fringed. Large flowers, with curiously pointed and toothed blossoms, of all shades and markings. Pkt. 4c.

New Double. A very desirable class. Flowers are double and semi-double, and much longer than those of the single Phlox. Especially valuable for cut flowers. All colors mixed. Pkt. 5c.

Phlox Perennial or Hardy

The great, rich heads of flower masses are simply magnificent. The most admired sorts and the best bloomers. Mixed. Pkt. 6c.

Poppies

The Shirley. A great advance in single-flowering annual Poppies. Flowers the first year from seed. The flowers are large, exceedingly graceful and elegant; the colors are pure, soft and white varied, and range from bluish white, rose, delicate pink and carmine, through innumerable tints. Pkt. 4c.; ½ oz. 15c.

White Swan. A grand variety. The large pure white flowers are perfectly round and double. Pkt. 4c.; oz. 20c.

Carnation Poppy. Double carnation-like flowers; large size and of the brightest colors. Pkt. 3c.; oz. 15c.

Iceland Poppy. A hardy perennial, blooming the first season. The flowers resemble crushed satin, and are fragrant. They bloom freely. Pkt. 4c.

Portulaca

Large Flowered Mixed. All colors; many striped and variegated. Pkt. 3c.

Grandiflora. Double-flowering Portulaca. Colors of most brilliant shades, including white, yellow, salmon and carmine. Seed saved from perfect double flowers, resulting in gorgeous masses of color. Pkt. 4c.

Pyrethrum

Roseum. (Insect Powder Plant.) A fine hardy plant, with large red daisy-like flowers. The Persian Insect Powder is made of the dried and powdered flowers. Pkt. 4c.

Salvia or Scarlet Sage

Primula Sinensis

SWEET
WILLIAM**Primula Sinensis
or Chinese Primrose**

Our mixture includes not only all the choicest colors of the single flowering Primulas in all their dainty shades, but it comprises also seed saved from hybridized flowers and will produce a number of double flowers and the new blue Primula. Large Packet only 8c.

Ricinus

Zanzibar Lens. The handsomest strain of Castor Oil Bean. Leaf sometimes 2 feet across, with stem rising 10 to 14 feet. Four varieties in a mixture, green, copper brown, brownish purple and bronze. Pkt. 4c.

Mixed. All the best plain and fancy varieties. Pkt. 3c.

Salvia (Scarlet Sage)

A famous and fashionable annual bedding plant. Blooms in profusion until frost. Succeeds everywhere, and is in universal favor. Pkt. 4c.

Salpiglossis

Painted Tongue. Flowers 2 to 2½ inches across, with odd and beautiful velvety markings. Exquisite veined and marbled. Red, pink, purple, blue, yellow, white, etc. Pkt. 3c.

Scabiosa

Known as Morning Bride, Sweet Scabious, Pincushion Flower, etc. One of the most desirable of the border plants, and greatly improved. Pkt. 4c.

Schizanthus

Butterfly Flower. Poor Man's Orchid. Fringed flowers of rich and varied colors. It blooms in lavish profusion. Colors, purple white, and rose. Pkt. 4c.

Sensitive Plant

An interesting and curious plant, with globular heads of pink flowers. Tender annual, height 1½ feet. Pkt. 4c.

Smilax

A popular indoor climber. Leaves a deep, glossy green. Flowers white and fragrant. Soak the seed in water for a day, and keep the plant rather moist. Pkt. 4c.

Sunflower

Chrysanthemum Flowered. Fine, perfectly double golden flowers, resembling Japanese Chrysanthemums. Pkt. 4c.

Sweet Rocket

Hardy perennials, bearing purple or white flowers. Plants 2 or 3 feet high. Flowers fragrant. This is an old-fashioned favorite. Double fine mixed. Pkt. 3c.

Sweet William

Free blooming, hardy perennial plants. Old-fashioned favorites. They produce masses of lovely, brilliant, sweet scented flowers one foot high. Pkt. 4c.

Thunbergia

Black-eyed Susan. An ornamental climber. Excellent for vases, trellises, rustic work or greenhouse decoration. Flowers buff, orange, white, etc. Pkt. 3c.

Prima Donna

LOWEST PRICES
SEEDS

America

King Edward VII

Giant Flowered Sweet Peas

The Cream of the Named Varieties

America. Heavily striped with bright blood-red on silvery-white ground.

Blanche Ferry. Extra Early. Standard wide and erect. Bright rose-pink; wings creamy white, tinted with rose.

Dorothy Eckford. The Grandest Pure White yet Produced. The grand pure white flowers are beautifully shell shaped, of extra large size and borne three on a stem.

Helen Pierce. Bright blue, mottled on pure white, resembling very much a blue mottled Gloxinia.

Hon. Mrs. E. Kenyon. A beautiful primrose color, a bold giant flower.

King Edward VII. "The Modern Firefly." The large flowers of open form are almost self-colored; standard is of a bright crimson-scarlet, wings of same shade of color.

Lady Grisel Hamilton. Standard light lavender with azure-blue wings; very light and dainty.

Lottie Eckford. Large silvery-white flowers, beautifully shaded and edged with soft lavender.

Miss Willmott. Richest orange-pink, shaded with rose. Keel white. A superior Eckford novelty.

Mrs. Dugdale. Both the large standard and wings are of a light carmine-rose with faint primrose markings.

Mrs. Walter Wright. The flowers are self-colored, of a pinkish-cream tint when first opening, changing to mauve and then to a reddish violet.

Navy Blue. The large flowers are of a deep, glowing, violet-purple, having the effect of a dark navy blue, although on close examination the standards show a faint tinge of claret- or wine-red.

Othello. A deep maroon self-color; very large size; standard slightly hooded.

Prima Donna. A most beautiful bright shade of blush-pink. Flowers of large size and finest form.

Price, any of Above Named Varieties pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.

Your choice any 10 pkts. 25c.

Or one Pkt. each of the 14 Sorts for 33c., Postpaid.

Giant Flowered Sweet Peas. A Very Choice Mixture of only large flowering types, containing a large proportion of light colors with just enough dark for a contrast. It is the result of hybridizing by a Sweet Pea expert and contains many of the trial ground novelties. Mixed, Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 75c.

Fine Mixed. A beautiful assortment of the famous Eckfords and others of the latest and best. Pkt. 4c.; oz. 8c.; lb. 45c.

Good Mixed. A splendid collection. Fine Colors. Pkt. 3c.; oz. 6c.; lb. 30c.

Double Sweet Peas

The so-called Double Sweet Peas are not a double flower in the true sense. Instead of one standard they have two or three, giving a ruffled and fluted effect very showy and beautiful. Unusually vigorous and produce a profusion of flowers, but all will not come double—from 25 to 50 per cent. Mixed, pkt. 5c.; oz. 10c.

Dwarf "Cupid" Sweet Peas

This is a dwarf Sweet Pea, growing only five inches high, yet spreading out and forming a solid mat of foliage and flowers $1\frac{1}{2}$ feet across. The blossoms are very sweet, of largest size and greatly abundant, with three flowers on each stem. It begins to bloom as early as May, and continues in profusion until killed by frost. One of the most superb plants for bedding, massing and edging in cultivation. Very desirable pot plants. Mixed, pkt. 4c.; oz. 8c.

Perennial Sweet Peas

These Perennial Peas, while lacking fragrance, are very valuable from the fact that they are in full bloom early in the spring, before the others have begun to flower. They live year after year, bearing magnificent clusters of flowers.

Perfectly hardy and grow eight to ten feet high. Pkt. 5c.

EVERLASTING

Perennial Sweet Pea

New Giant Orchid Flowered or Spencer Hybrids

See Page 68

Double Sweet Pea

"Cupid" or Dwarf Sweet Pea

Mammoth Verbena

Mammoth Verbenas

Verbenas will flower perfectly from seeds, started early in the house in boxes or pots; or you may plant the seeds directly in the garden beds, when warm weather arrives.

Mammoth Defiance. Bright, rich scarlet; small leaves. Pkt. 4c.
Mammoth Blue Varieties. Showy; fine for edgings. Pkt. 4c.
Mammoth Striped Varieties. Beautiful; a rich collection. Pkt. 4c.
Mammoth Pure White. Large Trusses; white flowers. Pkt. 4c.
Mammoth Mixed. They bloom most profusely. Our mixture contains every desirable color and shade. Pkt. 4c.; ¼ oz. 35c.
Fine Mixed. A very satisfactory assortment; containing many fine colors and shades. Pkt. 3c.; ¼ oz. 15c.
Giants of California. See page 70 for description. Pkt. 6c.
Lemon Verbena. Delightfully sweet scented; easily grown from seed. Pkt. 5c.

Verbena Odorata

The blossoms, instead of being in clusters like other sorts, run up into spikes usually 3 or 4 inches long. Very sweet scented; flower is pure white; comes true from seed. Pkt. 4c.

Wild or Mixed Flower Garden

A mixture of many varieties of beautiful, easy-growing flowers, producing a constant and varied bloom the whole season, and is especially suited for those who wish only a few seeds each of the leading varieties, or a much more extensive collection than their means will permit. In no other manner can so many seeds be obtained for such a small cost. This mixture is especially prepared from Choice, Fresh Seeds; the colors and varieties being carefully proportioned and will be found superior to any mixture offered. They are very useful for sowing alongside the garden fence, and in untidy, bare spots of ground, and cannot fail to give satisfaction. Pkt. 4c.; oz. 15c.; ¼ lb 40c.

Violet (Viola)

The Violet should not be wanting in any garden, on account of its fragrance and early bloom. Succeeds best in a shady, sheltered place. **Finest Mixed, pkt. 4c.**

Vinca

(Periwinkle)

Ornamental free-flowering; flowers the first season; glossy green foliage; handsome flowers. **Finest Mixed Colors. Pkt. 4c.**

Wild Flower Garden

Wall Flower

Single Parisian. This annual variety will flower throughout Summer and Fall, from seed sown the same Spring. Pkt. 4c.

Double Mixed. Spikes of deliciously fragrant flowers, combining many shades and colors, chocolate and orange-purple predominating. Pkt. 5c.

WALLFLOWER

Zinnias (Youth and Old Age)

New Mammoth Flowered. Mixed Colors. Saved only from select flowers, perfect in shape and color. The finest strain of Zinnias in cultivation. Every plant will produce immense double blossoms of various colors, from white to deep crimson, maroon, pink, yellow, orange, scarlet, violet, primrose, buff, striped, etc. **Large Pkt. 5c.**

Zebra. Large, perfectly double flowers, as evenly imbricated as a camellia. Flowers variously striped and mottled; presenting all colors and shades. Pkt. 4c.

Curled and Crested. Large, full flowers, the petals twisted, curled and crested; very fantastic and graceful. Colors, orange, purple, pink, deep rose. Two feet. Pkt. 4c.

Double Lilliput. Compact bushes, bearing small, perfectly double, pompon-shaped flowers of the brightest colors, which cover the plant during the entire summer. Pkt. 3c.

Asparagus Plumosus Nanus

The Beautiful Lace Fern Asparagus (Plumosus Nanus)

The rare and delicate beauty of this plant can scarcely be shown by a picture or conveyed by a description. It has bright green foliage, which is gracefully arched, giving it style and an air that can not be surpassed. The delicacy of texture and richness of color are among the marked characteristics. No more beautiful decorative plant has been produced. The fronds are 12 to 15 inches in length, and taper to a point from a width of 12 inches. It will last for weeks after being cut, and for many uses has taken the place of Smilax. As a house plant it is deservedly popular because of the fact that it does well under almost all conditions.

Fine plants, 10c. to 15c. each, 3 for 25c., postpaid; larger plants, 25c., 50c., 75c. to \$1.00 each by express at buyer's expense.

Umbrella Plant As Decorative as a Palm

Hardy, useful and beautiful window plant for all seasons, always presenting a fresh, green attractive appearance. Invaluable as an aquatic plant. Throws up stems 2 to 3 feet high, surmounted by whorls of leaves.

Price 10c. each, 3 for 25c. postpaid.

Araucaria

Choice Ferns and Ornamental Plants for the House

It has few equals, but is not often seen because rare and expensive, but we are now in position to offer it at reasonable prices, so that all who wish can have one of these beautiful trees in their home; it grows nicely in parlor or living room, requires very little care, not subject to insects, stands hard usage, is exceedingly beautiful and has a high-bred distinguished appearance entirely different from anything else. Price, fine sturdy little trees, 12 inches high, 2 to 3 tiers of branches, 99c each, postpaid. Larger and heavier trees, by express, not prepaid. \$1.50, \$2.00, to \$3.00 each

YOU WANT THIS PLANT

Rubber Plant

New Sword Fern "Scotti"

Grand Japanese Fern Balls

They Need No Earth, Dish or Pot

These pretty Japanese Fern Balls are made in Japan from a special variety of mountain fern roots and moss, and are so constructed as to send out beautiful emerald green fronds from every point until covered all over, as shown in the illustration, and are beyond question the most unique and beautiful of all decorative plants. Require no potting or soil.

Directions for Starting. Soak the ball in tepid water for half an hour, then hang up, repeat every other day until growth is started, after which sprinkle occasionally as required. It needs practically nothing except the proper temperature, which is that of an ordinary living room, and sufficient water to keep it in proper condition; it may be allowed to dry up at any time when desired, set away and started up again by watering as before.

Each 50c.; 12 for \$5.00. Larger size, 75c. each, 12 for \$7.50, postpaid.

Caladium Elephant Ears

Caladium (Elephant Ears)

This splendid foliage plant gives perfect satisfaction, and is worthy of general cultivation, filling a place which no other plant does, adding greatly to the lawn or garden by its immense tropical-like foliage. Plants attain a height of from 4 to 6 feet, the leaves being veined with different shades of green; when massed alone or with Cannas, they produce a striking and beautiful effect. They are of easy culture, and will grow in almost any garden soil but if especially large plants are wanted they should be planted in a well enriched soil and given water in abundance throughout the season.

PRICES, by Mail, Postpaid.

SEEDS

The collection of 5 Rare Callas for 50c. postpaid

New Dwarf Calla, Little Gem.

Among the most popular house plants in existence, grows only half as tall as the large kind, and has the reputation of bearing twice as many flowers. Will grow and bloom for years without once ceasing and the quality of the bloom which a good plant will produce is astonishing. Its numerous flowers are of good size and best quality. Snow white color. 10c. each; 3 for 25c.

The Spotted Calla.

Deep green, spotted all over with pure white, grows and blooms freely either in the house or garden, flowers like the White Calla, pure white with black center. 8c. each; 3 for 20c.

White Calla. (Lily of the Nile). The White Calla is a well-known plant of easy culture, and in winter is one of the best window plants. 12c. each; 3 for 30c.

The Yellow Calla. Flowers of a light color. Beautiful and desirable. Quite similar to the ordinary White Calla, except in color of flower, which is a light lemon yellow. A very pretty Calla. 15c. each; 3 for 40c.

The Wonderful Black Calla. This wonderful variety resembles the White Calla in growth and foliage, the flowers rich, dark purple, and the spikes or spadix are coal black, very curious and remarkable. 15c. each; 3 for 40c.

Wonderful Black Calla

and Sure
to Grow

Seven best and most distinct sorts. Price each, 10c. Any three for 25c. of the set of 7 for 50c., postpaid.

Andrew Carnegie. A pure toned bright scarlet, Sport of Harlowarden. Strong grower. Early and free flowering.

Beacon. Blooms early and continues throughout the winter months. Size about 3 inches in diameter. Color, scarlet with a tint of orange. Long stiff stem.

Niagara. Color pure glistening white, size $3\frac{1}{2}$ inches, perfect form, very fragrant. A strong feature is its wonderful blooming qualities.

Bay State. White, variegated pink. Grand.

Scarlet Glow. An ideal Xmas scarlet, with enormous blooms, $3\frac{1}{4}$ to $3\frac{1}{2}$ inches in diameter. A healthy grower, strong, vigorous and free.

Mary Tolman. A pure clear pink flower without markings, having the extra large size and the other good qualities of Enchantress.

Buttercup. Pure golden yellow. The best.

New Comet Plant

The Truly Wonderful Comet Plant

The most unique flowering plant of the century. Fluffy, trailing, tail-like blossoms, soft crimson scarlet. It is difficult to conceive anything more unique, more pleasing, or more satisfying than this new plant fresh from the Orient. It is easily grown, and must become immensely popular. There is nothing approaching it, with its soft, crimson scarlet, fluffy, tail-like blossoms 20 to 30 inches long on specimen plants. We have it growing in our greenhouses, and it has been the admiration of all visitors. Try one or more of these beautiful plants which are always in bloom.

Fine plants, 15c. each, 2 for 25c., postpaid.

Cinnamon Vine

Hardy climber with dark green foliage, and late in the season bearing a profusion of small white flowers of a delicious cinnamon fragrance. Perfectly hardy everywhere, the vines dying down to the ground each autumn, but growing very rapidly in early spring, soon covering any trellis or arbor. Where you wish to hide unsightly places we would suggest

planting the Cinnamon Vine. A beautiful vine, exquisite perfume, strong tubers. Each 5c., 6 for 25c., 15 for 50c. 35 for \$1.00, postpaid.

Cinnamon Vine

New Giant Flowered Cyclamen

Persian Violet

Most beautiful of all pot plants, giving the richest profusion of elegant flowers; foliage decidedly handsome, being variegated with different shades of green, helping to show off the richly-colored flowers. In fact a plant in bloom resembles a tastily arranged vase of flowers and beautiful foliage.

Price of choice plants 15c. each, or 2 for 25c. postpaid.

Deutzia Lemoinei

Deutzia Lemoinei

One of the Best Hardy Shrubs

The finest of all the Deutzias. Magnificent broad, dense heads of bloom, opening very full, pure snowy white, each panicle forming a veritable bouquet, and completely covering the bush. A great improvement upon Deutzia Gracilis the flowers being larger and more enduring and the bush a stronger grower. We know of nothing more beautiful for the garden, yet it has the added merit of being a grand pot plant for winter blooming. It is not too large for a pot and blossoms very finely at any time during winter. It is becoming very popular for Easter. Strong plants, each 15c.; 2 for 25c., postpaid.

Lemon. Lemon scented fragrant foliage. 10c. each.

Ivy Leaf Geranium, Achievement

Pansy Geranium

This beautiful Flower is of easiest growth, dwarf in habit, and literally covered with flowers all the time; and as it requires little or no attention, it is invaluable as a window plant. The coloring and marking of the flowers are most extraordinary, light pink, white, dark purple, black, etc., almost rivaling the pansy in uniqueness of flower. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. **Strong plants, 25c.**

Variegated Leaved Fancy Geraniums

These lovely dwarf-growing Geraniums are chiefly remarkable for their bright, variegated foliage; they grow nicely, stand the sun well and are very pretty and attractive for bedding and edgings and particularly for pots and window culture.

Happy Thought. Bright creamy yellow leaves, finely bordered with deep green; brilliant scarlet flowers. A very handsome plant, fine for bedding and house culture. **10c. each.**

Mrs. Parker. Double pink flowers, silver leaved, margined white. **15c. each.**

Snow Storm. Center of leaves bright glossy green, widely bordered with pure white; pretty pink flowers. Fine for pots and bedding. **10c. each.**

Hydrangea Monstrosa Compacta

Low
Prices

Hydrangeas Perfectly Hardy

Paniculata Grandiflora. The well known standard Hardy Hydrangea, completely covered with gigantic pyramidal trusses of bloom from 16 to 18 inches long, and as much in diameter; composed of hundreds of florets of a most dazzling white, changing to an exquisite pink, the whole producing a gorgeous effect. These blossoms remain from 6 to 8 weeks, without fading. Price, 10c. to 15c. each; by mail prepaid; larger size, by express, not prepaid, 25c. each; extra strong plants, 3 years old, 50c. each by express.

The New Everblooming Hardy Hydrangea

"Hills of Snow." Nothing in the Hardy Shrub line approaches it in the freedom of bloom, duration of flower and value as a cut flower. Makes a plant much like the common Hydrangea, but blooms with purest snow-white flowers, and continues blooming. Strong plants, postpaid, each 15c.; 2 for 25c.; doz., \$1.35. By express, not prepaid, large plants, each, 35c.; doz. \$3.50; or extra large plants, each, 50c.; doz., \$5.00.

New Hardy Hydrangea, "Hills of Snow"

Hyacinthus Candicans

Hyacinthus Candicans

It can be used with excellent effect in the center of a bed of scarlet Gladiolus, as it comes into bloom about the same time. The flowers are bell-shaped and pendulous, pure white in color and somewhat fragrant. The plant is hardy and grows stronger each year. Very useful along walls, fences and in beds. Fine for cemetery. Each 6c.; 3 for 15c. postpaid.

English Ivy

This is the old hardy variety that clings to walls, trellises, etc. Also suitable for cultivation in the house. 10c. each; 3 for 25c.; postpaid.

Hibiscus

Peachblow. One of the finest free flowering plants or either pot culture or the open ground. Flowers very large, double and of a charming rich, clear pink, with deep crimson center. 15c. each; 2 for 25c.; postpaid.

Wandering Jew

(Tradescantia Multicolor). Fine variegated leaves, striped crimson, green and silver, with a beautiful silvery sheen on them. A very rapid grower and excellent for hanging baskets, vases, window boxes, etc. Price, 10c. each; \$1.00 per dozen, postpaid.

Hibiscus-Peach Blow

Sweet Scented Jasmine.

Jasmine

Sweet Scented Star. This is an old favorite and the most satisfactory for general culture of all the Jasmynes. It flowers nearly the whole season and is especially valuable as a house plant in winter; flowers star-shaped, pure white and very fragrant. 10c. each, 3 for 25c. postpaid.

Weeping Lantana

(Mrs. McKinley). A grand plant for baskets and vases. May be used to good advantage in connection with other plants, but is more effective when used alone where its bright colored bloom forms a perfect mound of flowers. A fine plant for winter flowering in pots or small hanging baskets. Flowers delicate rosy lilac, borne freely all over the plant from the base of each leaf stalk. 10c. each; 3 for 25c. postpaid.

Honeysuckle

Halleana. The best monthly Honeysuckle, with dark green foliage, which keeps fresh and green nearly all winter, and beautiful clusters of the sweetest scented flowers, that open a snowy white and turn a pale yellow. 15c. each; 2 for 25c. postpaid.

Golden Leaved. A most beautiful little house plant with golden yellow leaves, mottled and veined green. A strong grower with white blossoms. 15c. each; 2 for 25c. postpaid.

Wandering Jew

Golden Leaved Honeysuckle

**NEW CLIMBING LANTANA****EVERGREEN AND EVERBLOOMING**

It is at all times graceful, pretty and evergreen. Although it begins blooming when only a few inches in height it will climb five or six feet in a season. It has a great wealth of bloom, the large, dainty-colored clusters being lilac pink with a white center. It blooms profusely at all stages of growth and all the year round, and as its growth is easily controlled by pruning it can be made to fit any space where a large or small vine is desired. It is one of the most charming pot vines for windows we ever saw and is a splendid garden vine for summer, and never out of bloom.

Fine plants, 15c each; 2 for 25c

NEW CLIMBING OR TRAILING LILY OF THE VALLEY**IT IS IN BLOOM ALL THE TIME**

A beautiful new plant of climbing or creeping habit, being best adapted for pots or hanging baskets. It has beautiful heart shaped leaves and branches freely, growing in most fine symmetrical form. It is in bloom all the time, the pendulous blossoms appearing at the axils of the leaves and are bell-shaped, pure white, and about the size, form and color of Lily-of-the-Valley. As a specimen pot or basket flower to be suspended in the window it is the finest thing of the sort we have ever seen. Grows very rapidly and makes a lovely plant in a short time.

Fine plants, 15c each; 2 for 25c

American
Wonder
Lemon

Our Plants Are
Noted For Their
Superior Quality

American Wonder Lemon

Largest Edible Lemon in the World

A True Ever-Bearing Variety

The tree has fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. In addition to its fruit-bearing qualities it makes a very handsome plant for house culture. The dark green foliage is very large and handsome, and the pure wax flowers with yellow stamens are nearly as fragrant as Orange blossoms, which they greatly resemble. The Lemons have a thin rind for such large fruit, and are full of rich, acid juice. The plants will produce their magnificent fruit under ordinary cultivation the second year, and will prove a source of genuine delight. Fine, thrifty plants, postpaid, 10c. to 15c. each. Splendid two-year-old plants, by express, 50c. Extra large plants, by express, \$1.00 to \$2.00.

Chinese Sacred Lily

Imperial

Chinese Sacred Lily

A Popular Winter Blooming Bulb

They are very large and each one sends up from five to twelve spikes, which bear clusters of large, perfect, waxy white blossoms with a yellow center, and a powerful and delicate fragrance, which is not excelled by any flower. They grow well in pots of soil; but the most popular way of blooming them is the Chinese method, as follows: Fill a bowl or some similar vessel with pebbles, in which place the bulb, setting it about one-half its depth, so that it will be held firmly: then fill with water to the top of the pebbles, and place in a warm sunny window. The bulb will at once commence a rapid growth and bloom in three weeks. Send your orders in soon so that we can reserve our best bulbs for you and ship as soon as ready. Bulbs 15c. each or two for 25c., postpaid.

The Best Hardy Lilies

Wonderfully
Easy Grown

Auratum. (Gold Banded) Beyond question the grandest of all the Lily-family. Flowers pure white, thickly studded with crimson spots, while through the center of each petal runs a clear gold band; possesses a most delicious fragrance; very hardy; best outdoor Lily grown. Postpaid, 20c. each; doz. \$2.00.

Rubrum. (Crimson Banded) White heavily spotted with rich crimson. Postpaid, 20c. each; doz. \$1.75.

Album. (Speciosum) Pure white; very fragrant; free flowering; hardy; for general cultivation. Postpaid, 20c. each; doz. \$1.75.

Tigrinum. Flore Pleno. (Double Tiger Lily) Bright orange-scarlet, with dark spots; a strong growing showy variety; entirely hardy; succeeds well anywhere. Postpaid, 15c. each; doz. \$1.25.

Pardalinum. (The Leopard Lily) An elegant and very beautiful Lily from California, rich scarlet and yellow flowers, spotted with purplish brown. Does well everywhere; entirely hardy in the open ground, or blooms finely in pots in the house. Postpaid, 15c. each; doz. \$1.25.

Gold Banded Lily

Maderia Vine
Climbing Mignonette

A very handsome rapid growing vine, covering a large space in a short time. Fleshy heart shaped leaves of a light green, numerous racemes of feathery white flowers of delicious fragrance, making a delightful shade. A beautiful and popular vine. Protect with litter in this latitude. Price, roots, 5c. each; 50c. per doz., postpaid.

Manettia Bicolor
The Beautiful Climbing Plant

This is the most beautiful and desirable of all vines, as it can be grown either in the house or garden equally as well. In the house it can be trained about a window, forming a wreath of the most brilliant bloom both summer and winter. The flowers are from an inch to an inch and a half in length, of a most intense scarlet, shading into flame, tipped with bright golden yellow, and are covered with a thick scarlet moss. Price, 10c. each; 3 for 25c. postpaid.

Lily of the Valley The Sweetest Flower That Grows.

Lily of the Valley

MADEIRA VINE.

Moonflower—Giant Flowered

Moonflower (Giant Flowered)

A vastly improved climbing variety, of rarest beauty and startling proportions. Its pure white, abundant blooms average six to eight inches across, and often surpass that magnitude. No new flowering plant in years has introduced such a noble display, combined with such a chaste refinement of beauty. Postpaid, 15c. each; \$1.50 per dozen.

New Crimson Mountain Beauty Vine
(Antigonon leptopus)

This is a new climbing vine of striking and remarkable beauty, and though not quite hardy here, is especially recommended for the South and Pacific Coast, where it will give immense satisfaction. It is a strong, vigorous climber, suitable for covering walls, porches, verandas, fences, etc., has handsome foliage and is covered for months at a time with splendid clusters of bright crimson flowers, like flaming red wistarias. Those who have seen it in bloom in the South say it is the most magnificent flowering vine they ever saw, and in parts of Central America where it abounds, it is said to color the mountains with a blaze of glowing crimson. It is certainly unequalled in brilliant beauty among climbing vines, and we hope our friends will give it a liberal trial. As far north as New York it should be protected in winter. Strong Plants, 15c. each; 2 for 25c.; 5 for 50c.; postpaid.

The pure white exquisite flowers of this beautiful plant render it one of the most useful and admired. It succeeds in the open ground in almost any situation, but prefers shade with plenty of moisture; when once planted and established the crowns keep on increasing each year. The large ones flower each season without any attention. Grown in pots and forced into flower, they make a beautiful object for room decoration. Large flowering roots, each 5c.; 6 for 15c.; 12 for 25c.; postpaid.

Resurrection Plant

Pansy Plants

Pansy Plants

Favorites with everyone, too well known to need extended description. Our plants are grown from our Fancy Strain of the loveliest large flowering varieties, finest colors. Price, 30c. doz.; 25 for 50c.; 50 for 90c., postpaid.

Resurrection Plant

Most Unique Novelty.
A Marvel of Plant Life.

This peculiar plant is found among the pines and cedars of Palestine. It is a ball of tightly folded leaflets, dry and apparently dead. But a transformation takes place once it is dropped into a bowl of water, for in a short time there is a great, loose expanded rosette of fine fern-like leaves both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked. 10c. each; 3 for 25c., postpaid.

Oxalis

Summer Flowering

Highly valuable for hanging baskets, also borders of walks and flower beds. Blooms quickly. Showy in mass beds.

Mammoth Oxalis Bulbs at these low prices: Each 5c.; 3 for 10c.; 12 for 25c., postpaid.

Fine Bulbs, doz. 10c.; 25 for 35c.; 100 for 40c., postpaid, in the following varieties.

Lasandria. Rosy-pink, beautiful cut foliage.

Diepl. Pure white, very fine.

Mixed Sorts. Many colors.

Climbing Varieties of Hardy Roses

Profuse Bloomers—Perfectly Hardy

SPECIAL OFFER:—One plant each of the following ten varieties postpaid for only 80c; or one large two-year old plant each of the following ten varieties for only \$2.50.

Baltimore Belle. Flowers pale blush variegated carmine. Hardy everywhere. 10c. each; 3 for 25c.

Improved Crimson Rambler

Dorothy Perkins. (Pink Rambler.) Of great hardiness, vigor, beauty and freedom of bloom. Stands severest winters unprotected; blooms in clusters; fine shell pink in color. 10c. each; 3 for 25c.

Empress of China. (The Apple Blossom Rose). Attaining a height of 15 to 25 feet in a single season. Color soft dark red, changing to lighter red or pink. 10c. each; 3 for 25c.

Improved Crimson Rambler. The finest and most famous climbing Rose in cultivation. It is perfectly hardy. The flowers are a rich, vivid crimson, borne in magnificent pyramidal clusters; a perfect bouquet. 10c. each; 3 for 25c.

Improved White Rambler. Flowers of the White Rambler have the charm of being sweetly scented. Color a pure white, without a blemish. 10c. each; 3 for 25c.

Improved Yellow Rambler. Quite hardy, but should have some winter protection. The beautiful clear yellow flowers are borne in immense trusses. Very fragrant. 10c. each; 3 for 25c.

Mary Washington. Flowers large, pure white and very double. Its fragrance is tinged with that old-fashioned musky flavor. 10c. each; 3 for 25c.

Tausendschon or 1000 Beauties. The new Rambler Rose; it bears its flowers in immense clusters; in color a soft pink when first opening, changing to a carmine rose on the reverse when they fully expand. 10c. each; 3 for 25c.

Climbing Marie Guillot. Double pure white; slightly tinted Primrose at base of petals. Vigorous grower and continuous bloomer. 15c. each; 2 for 25c.

Marechal Neil. Grandest of all climbing, double, golden yellow Roses; often called "Shower of Gold." Flowers superb of extra large size and deliciously fragrant. 15c. each; 2 for 25c.

Large 2 yr. old plants of the above 10 varieties, 30c. each.

New White Baby Rambler

Wichuriana Memorial Rose

New Crimson Baby Rambler

Baby Rambler Roses

Monthly Everblooming (But Not Hardy)

SPECIAL OFFER:—This type of Roses has created a furore among Rose planters in America and we offer the set of three Baby Rambler Roses for only 35c., postpaid.

Crimson Baby Rambler. The very best bedding Rose in existence. It originated in Orleans, France, from a cross of the Crimson Rambler and a Polyanthus variety, and it may be called a perpetual blooming dwarf Crimson Rambler. The bush is vigorous, absolutely hardy, about 27 inches in height, and on our place every plant is in bloom every day of the summer and fall. Sometimes as high as 120 flowers have been counted on a single panicle. 15c. each, 2 for 25c.

White Baby Rambler. (Catherine Zeimet). The true Baby Rambler type, with pure white flowers. Deliciously fragrant and perfectly hardy. 15c. each, 2 for 25c.

Pink Baby Rambler. (Annie Mueller). A counterpart of the Crimson Baby Rambler except that color is a bright, shining pink. A splendid color in combination with the above. 10c each, 3 for 25c.

Large 2 yr. old Plants of the 3 New Baby Ramblers, 30c. each; or the set of 3 for only 75c.

Hardy Memorial Roses

Unexcelled for Cemetery Uses. Hardy as an Oak and Live Forever

SPECIAL OFFER:—The set of 5 Hardy Memorial Roses, fine young plants, postpaid, only 45c.; or we will send 5 strong 2 yr. old plants, one each of the 5 varieties, for only \$1.25.

Hiawatha. Brilliant scarlet; bears large clusters of single flowers; bright and effective. One of the best. Each 15c., 2 for 25c., postpaid. Large 2 yr. old plants, each 35c.

Jersey Beauty. Elegant single flowers, 3 inches in diameter, pale yellow, very fragrant. Each 10c., 3 for 25c., postpaid. Large 2 yr. old plants, each 30c.

Lady Gay. Flowers in large lovely clusters are of a delicate cherry pink color. Each 15c., 2 for 25c., postpaid. Large 2 yr. old plants, each 30c.

Manda's Triumph. Flowers perfectly double, pure white, very fragrant. Each 10c., 3 for 25c., postpaid. Large 2 yr. old plants, each 35c.

Rosa Wichuriana. Will grow in sun or shade, poor ground or rich. Makes a beautiful display of blossoms (often five or six inches around), pure satiny white with bright golden center. Each 10c., 3 for 25c., postpaid. Large 2 yr. old plants, each 25c.

The Two Best Hardy Climbing Roses

The Hardy Blue Rose

(Veilchenblau)

"The Sensation of the Century"

A new and extraordinary color long hoped for but hitherto regarded as among the unattainable. The flowers are produced in clusters, similar to Crimson Rambler, are semi-double in form and borne profusely; the color is steel blue, very similar to that seen in the delicate, inimitable blue of the *Clematis Jackmanii*. Strong, vigorous climber; perfectly hardy. Price 15c. each, 2 for 25c., postpaid. Large 2 yr. old 35c. ea.

Flower of Fairfield

Hardy Everblooming Rambler

This new variety is a sport from the famous and beautiful Crimson Rambler, similar in color but more brilliant and more lasting. The new "Flower of Fairfield" is of vigorous growth, and when in bloom supersedes anything else by the wonderful display of its brilliant crimson clusters of blossoms. It starts blooming in the early Spring, and continues to flower till late in Autumn, thus it is rightly termed "Perpetual Blooming." Price 15c. each, 2 for 25c., postpaid. Large 2 yr. old, 35c. each.

The Hardy Blue Rose

Flower of Fairfield Rose

Henri Martin Moss Rose

brilliant red seed pods. Healthy, vigorous grower; entirely free from insects; splendid as single specimens or as hedges.

Sir Thomas Lipton. Glossy-Crimson. Price, 15c. each, postpaid. Large 2 yr. old plants, each, 35c.; doz., \$3.50.

Agnes Emily Carman. Pure White. Price, 15c. each, postpaid. Large 2 yr. old plants, each, 35c.; doz., \$3.50.

True English Sweet Briar Rose

This is the True Eglantine, and highly valued for the delightful fragrance of its young foliage as well as flowers. It is entirely hardy, and when once planted will take care of itself. Make a fine hedge planted two feet apart, or is equally good for a group or single specimens. Flowers pink. Price, 15c. each. Large 2 yr. old plants, 35c. each, doz. \$3.50, postpaid.

Salvias (Scarlet Sage)

The Salvia is becoming more popular each season as a bedding plant, easily ranking with Geraniums, Cannas, etc. Strikingly effective.

Royal Purple Plant

Perpetual Moss Roses

The Moss Rose is as hardy as any Hardy Rose can be, and an extra vigorous grower. They are much admired on account of their bright, healthy foliage and moss-like covering of the buds. While they bloom but once a year, their season is lengthy and the flowers are large, beautiful and plentiful. Fine Plants, postpaid, 15c. each; 3 for 40c. Large 2 year old Roses, 35c. each; 3 for \$1.00.

Blanche Moreau. Pure white, large, full and perfect form.

Henri Martin. Large, globular flowers, full and sweet; rich, glossy pink, tinged with crimson.

Luxemburg. Bright crimson; large and beautifully mossed.

Hardy Rugosa Roses

Sturdy bushes three to five feet in height, with handsome glossy green foliage and clusters of beautiful single flowers, which are exquisitely fragrant. They bloom all summer from June, and in the Autumn and Winter are very attractive, being covered with large,

BEST
LOWEST PRICES
SEEDS

New Salvia Zurich

Each
and
Every Plant
a
Beauty

New Audubon. Dark green foliage, blotched and spotted with creamy yellow. Bloom intensely red. The best of the variegated-leaved varieties. Each, 10c.

New Zurich. A new dwarf, early flowering variety, beginning to bloom when but three inches high. Each, 15c.

Snow Queen. Large spikes of delightful white flowers produced well above the foliage all season. Earliest and finest for bedding. Each, 10c.

St. Louis. A great addition; forms large bushes of immense scarlet spikes of bloom. Early and continuous bloomer. Each, 10c.

The set of 4 above Salvias for 30c.

Royal Purple Plant

This plant will undoubtedly become universally popular on account of its brilliant and exquisite coloring, its extraordinary easy growth and usefulness as a decorative plant. It surpasses the finest Coleus or Begonias in the exquisite coloring of the leaves, besides which the long racemes of lovely violet blossoms, with which the plant is covered in mid-winter, greatly enhance its value, beauty and usefulness. The undulation on the surface of the foliage is furnished with a bluish metallic hue, shading into light rose, with a light green margin, a combination unapproached by any other plant. The flowers are violet blue, borne in immense racemes. 15c. each, 2 for 25c.

Japanese Snowball

The New Hardy Japanese Snowball

This Japanese variety of the old-fashioned Snowball is one of the most valuable of all hardy shrubs. It forms an erect, compact plant 6 to 8 feet in height, blooms in June and for a long time the plants are filled with hundreds of big snowy balls that glisten with ethereal whiteness like gems in the sunlight. One of the grandest and most striking of all hardy and decorative plants. Well worth 50c.; our price is 15c. each, 2 for 25c., postpaid. Large plants 25c. to 50c. to 75c. each, shipped by express not prepaid.

Sweet Scented Shrub

(Calycanthus.) Of spreading growth bearing throughout the summer great numbers of double, dull brownish purple flowers of exquisite aromatic strawberry-like fragrant. The wood and leaves are also sweetly scented, which causes it to be known also as Sweet Scented Shrub and Strawberry Shrub. Each 15c.; 2 for 25c., postpaid.

Swainsonias--Swan Flower

Alba. This is a very beautiful plant and a real gem; both for flower bed and house culture; flowers are pure snowy white and borne in pretty sprays all over the plant; will thrive and bloom with the greatest profusion, Summer and Winter, in garden or house. Price, 15c. each; 2 for 25c., postpaid.

Rosea. Same as Alba except in color, which is bright rich rosy red. Very handsome. Price, 15c. each; 2 for 25c., postpaid.

Our
Prices are
Low, Our
Plants the
Best

Red Spiraea

Perpetual Bloomer

(Anthony Waterer.) A fine, hardy, perpetual blooming shrub, particularly desirable for the door-yard and lawn; makes nice shapely bushes 2 to 3 feet high; begins to bear its large flat clusters of rich rosy red flowers almost as soon as planted and continues blooming at short intervals all through the Summer and Fall. Makes nice single specimens, or may be used for ornamental hedges, etc. Fine plants 15c. each; 2 for 25c.

Bridal Wreath Spiraea

Hardy and Beautiful

(Prunifolia.) Flowers white and double like little Roses, and produced in wonderful profusion, in long sprays, the entire length of branches. A beautiful floral wreath is made at once by bending and tying the ends of the branch together. One of the most beautiful hardy shrubs in existence. Fine plants, 15c. each; 2 for 25c.; postpaid.

The Strawberry Geranium

(A Lovely Plant for Baskets and Vases.) One of the handsomest plants imaginable, a gem of many colors, exceedingly rare and beautiful. Leaves nearly round, and striped freely with silver bands—blooms white, of great beauty and borne in spikes nearly 12 inches high; of easiest growth. Adapted for hanging baskets, vases, etc. Will stand neglect and mistreatment and grow very rapidly in sunny place or shade. 10c. each; 3 for 25c., postpaid.

Strawberry Guava

A
Marvel
of
Beauty

Strawberry Guava

A magnificent pot plant, blooms and fruits continuously. It has thick, shining evergreen, camelia-like foliage, and pure white flowers of an agreeable odor. The fruit is large, of beautiful claret color; the flavor is most delicious and aromatic, resembling that of the Strawberry. Used as a dessert fruit, also for preserving; makes jelly of delicious quality. Strong plants. 20c. each postpaid.

Violets

Princess of Wales. The largest and best of all single sorts. Delightful perfume. Color, a rich violet purple; a vigorous grower with healthy foliage and long, stiff stems. 10c. each; 3 for 25c., postpaid.

Lady Campbell. Deep purple; fine, large double bloom. 10c. each; 3 for 25c., postpaid.

Marie Louise. The favorite Winter-flowering variety; not hardy in the North; flowers double; rich purple; stems long; foliage rich, dark green. 10c. each; 3 for 25c., postpaid.

Swanley White. Pure white; large; double; very fine. 10c. each; 3 for 25c., postpaid.

Violets, Double Hardy Russian. Perfectly hardy; should be planted in open ground, needing no protection during Winter. The flowers are large, very double, deliciously fragrant, and of a deep shade of purple. Blooms in immense masses, the plants being almost covered with flowers for about four weeks. Fine plants. 15c. each; 2 for 25c., postpaid.

Violet; Double Hardy Russian

Monstrous Tuberose

Tuberose

Monstrous Flowering. A most delightfully fragrant and beautiful summer-flowering bulb. Our select strain of bulbs has no equal and will produce the best and sweetest scented flowers ever seen. Bulbs of good size, each 5c.; per doz. 40c.; per 100, \$3.00, postpaid. Mammoth Bulbs 10c., 3 for 25c.; per doz. 75c., postpaid.

Tigridia

Peacock, or Shell Flower

One of the most showy of all summer bulbs, and blooms from mid-summer until frost, growing two feet high, with large wide-open triangular blooms, four to six inches across. The colors and markings are very brilliant and peculiarly odd and attractive, and clumps of them in the border make a gorgeous effect. Each 5c.; doz. 50c., postpaid.

Lemon Verbena

A universal favorite and invaluable for the fragrant leaves. They will retain their fragrance for years when dried. As a plant for the garden or for pots it is equally valuable. They flower profusely, and each plant in good, rich soil will cover a space of 3 to 4 feet in diameter, producing, if the blossoms are removed as soon as they begin to fade, a mass of bloom continually. Strong and healthy plants only 10c. each; 3 for 25c. postpaid.

Zephyranthes

Known as "Fairy Flowers." They are among our beautiful bulbous plants; very effective for planting out in masses in Spring, flowering with great profusion during the Summer. Try a few of them this year and you will be pleased. Each 5c.; doz. 50c., postpaid.

White Pine.....2 yr. old.....	.40	1.35

California Privet A quick growing shrub, yet easy to control by use of shears or knife, to any desired shape. Fine for hedges between city lots, on large rural lots, parks, cemeteries, in single clumps or with other shrubs; also as screens to outbuildings, fences, etc. Very hardy, easy to grow on all soils, even partial shade; almost evergreen, its rich, leathery-green foliage changing to purple in winter. Price, good strong plants, postpaid, each, 10c.; doz. \$1.00. Price by express at buyer's expense, select plants 15 to 18 in. high \$3.50 per 100, 18 to 24 in. high \$5.00 per 100.

Amoor River Privet (*Ligustrum Amurense*). A remarkably vigorous grower, compact and regular in form, with glossy wax-like foliage; a beautiful shade of green. It is by many recognized as the "Ideal Hedge Plant." Price, good strong plants, postpaid, each, 15c.; doz. \$1.50. Prices by express at buyer's expense, select plants 15 to 18 in. high \$7.50 per 100, 18 to 24 in. high \$10.00 per 100.

Japanese Barberry (*Berberis Thunbergii*). This is the most valuable for making a low dwarf hedge. It is of low, regular and compact growth and requires very little pruning. It has fine thorns and small round rich leaves that change color in the Autumn to a fiery crimson. The hedge is made still more beautiful by great numbers of pretty drooping yellow flowers which are followed by bright red berries. Strong plants, postpaid, each, 10c.; doz. \$1.00. Price by express at buyer's expense, select plants 12 to 14 in. high \$6.00 per 100, 14 to 16 in. high \$8.00 per 100.

Buckthorn (*Rhamnus Catharticus*). We consider Buckthorn the best and hardiest hedge plant for the Northwest and extreme colder sections of the country. It stands in the coldest winters without a particle of injury, commences growth very early in the spring. Prices by express only at buyer's expense, select strong plants, 18 to 20 in. high \$7.50 per 100, 20 to 24 in. high \$10.00 per 100.

The Great Cemetery Plant

Shasta Daisy

The Best Perennial Plants

For Permanent Planting in Borders or Beds. They are Perfectly Hardy, and do not have to be taken up every fall, or replaced every Spring. Last for Years and are Especially Useful as Cut Flowers.

NOTE. At Prices quoted we send by Mail, Postpaid.

The Great Cemetery Plant. One of the very best white flowered plants for the border. The flowers are borne in the greatest profusion the entire summer on strong, erect stems, pure white in color. Each 10c.; dozen \$1.00.

Baby's Breath. (*Gypsophila Paniculata*). A beautiful old fashioned plant possessing a grace not found in any other perennial. Beautiful pure white flowers. Each 10c.; dozen \$1.00.

Bleeding Heart. (*Dielytra*, or *Dicentra*). An old fashioned favorite; its long and graceful heart-shaped pink flowers are always attractive. Each 15c.; dozen \$1.15.

Corn Flower Aster. (*Stokesia*). Handsome lavender-blue Cornflower-like blossoms, which measure from 4 to 6 inches across. Each 10c.; dozen \$1.00.

Shasta Daisy. Flowers range in shape from fully double to single; and in color from pure white to pale lemon yellow—some solid color, some prettily variegated with yellow discs. The plants are extremely productive of bloom, which continues throughout a long season. Each 10c.; dozen \$1.00.

Canterbury Bells. (*Campanula Medium*). An old time favorite. Our stock has been grown from the very finest strains. Each 10c.; dozen \$1.00.

Coreopsis. (*Lanceolata Grandiflora*). One of the most popular hardy plants. The flowers are rich golden yellow and are invaluable for cutting; continues in bloom the entire summer and fall. Each 10c.; dozen \$1.00.

Bleeding Heart

Fox Glove

Delphinium, or Larkspur. (*Formosum*). They are about the only hardy blue flower of any note, and have a long season of bloom. Each 10c.; dozen \$1.00.

Fox Glove. (*Digitalis*). Another good old fashioned but dignified and stately perennial. The strong flower stalks, often four to six feet high, always give an appearance of strength wherever planted. Each 10c.; dozen \$1.00.

Gaillardia Grandiflora. One of the showiest and most effective hardy plants, about two feet high, and continuous bloomers from June till cut down by the frost. The flowers are of gorgeous coloring; the center is of dark red-brown with petals marked with rings of brilliant crimson, orange and vermillion, and often a combination of all in one flower. Excellent for cutting. Each 10c.; dozen \$1.00.

Golden Glow. (*Rudbeckia*). It is a question whether any other hardy perennial has ever met with greater popularity than this. It is a strong, robust grower, of five to six feet, and produces masses of double golden yellow cactus dahlia-like flowers from July to September. Each 10c.; dozen \$1.00.

Hollyhock. Few hardy plants combine as many good qualities as the Hollyhock. The flowers form perfect rosettes of the most lovely shades of color. It requires a rich, deep soil, well drained, and will repay in quantity and elegance of bloom any extra care. A slight protection during the Winter will be beneficial. 10c each; \$1.00 per dozen.

For Wonderful Himalaya Berry see inside back cover page

The Best Hardy Perennial Plants—Continued

Paeony—Zada

Hardy Garden Pinks

Perennial Phlox

Paeonias

The "Pineys" that grew in Grandmother's garden, while still popular because of their early flowering, have been eclipsed by the wonderful sorts introduced in recent years, and we find that the following varieties are admirably suited for all purposes.

Venus. An elegant double-white of the purest color. Of immense size and queenly in its splendor. Select plants, price, postpaid, 25c. each.

Zada. A delicate soft pink of exquisite shade and great beauty. Select plants, price, postpaid, 25c. each.

Chieftain. The finest red variety—being a deep rich red of rare beauty. Select plants, price, postpaid, 25c. each.

Special Offer The above set of Three Hardy Paeonias, prepaid by mail, 50c.

Japanese Iris

(Iris Kaempferi)

The most gorgeously colored plants in existence; beautiful. Our stock is especially fine—all imported direct from Japan. Price, choice mixed all colors, each 20c.; doz. \$1.75, postpaid.

German Iris

Splendid for the flower bed; entirely hardy, blooms early in the Spring. Large crane-like flowers, sky-blue, yellow, orange and white in beautiful combination. Price, mixed colors, 10c. ea. 75c. doz., postpaid.

Hardy Garden Pinks

Old favorite bearing their sweet clove-scented flowers in the greatest profusion during the Summer months. Each 10c.; doz. \$1.00, postpaid.

Sweet William

Japanese Iris

Our Fancy Hardy Perennial Plants are easily grown and very satisfactory bloomers. Try some and be convinced

Sweet William

(Dianthus Barbatus).

Beautiful old-fashioned favorite border plant. The stock we offer has grown from a select strain; various colors. Select plants, 10c. each; \$1.00 doz.

Tritoma

(Red Hot Poker Plant; Flame Flower, or Torch Lily).

Surpasses the finest Cannas for attractiveness and brilliancy; blooms incessantly from August until November. Plants show from 6 to 10 grand flower stalks all the time, each holding at a height of 3 feet a greater cluster of flame-colored flowers. Prices postpaid, 10c. each; \$1.00 per doz.

Tritoma

BEST
LOWEST PRICES
SEEDS

Hardy Phlox

Although there are quite a number of different varieties and colors, we have confined ourselves to six of the newest and rarest sorts, which are without doubt the choicest and most distinct assortment that has ever been offered. Price of the Following Choicest Varieties, 15c. each; \$1.50 doz.

Selma. Medium tall variety. Dark stemmed, light salmon color with violet eye.

Coquelicot. Beautiful orange red and scarlet variety with distinct violet eye.

Pantheon. The peerless pink. Extra large, flat flowers of salmon pink.

Chateaubriand. Pure white with crimson, carmine eye, shading to violet purple.

F. G. Von Lassburg. The purest white in cultivation.

Inspector Pelker. Purplish mauve washed in white.

Perennial Poppy

Nothing can equal these Poppies during their period of flowering for a gorgeous display of a rich brilliant coloring, and the freedom with which they bloom render them conspicuous in any position. Select plants, 15c. each; \$1.20 doz.

Clematis Paniculata

Hardy Climbers

Ampelopsis Veitchii

Boston Ivy or Japanese Ivy.

The finest climber for training over brick walls, as it clings firmly to the smoothest surface covering it smoothly and densely with fresh, green, heart-shaped leaves in Summer, which change in the fall to the bright Autumn colors. It likes a rich soil. Quite hardy, but requires a slight protection in Winter in our climate.

Strong plants, each 15c.; 2 for 25c.; postpaid.

CLEMATIS

Jackmani

Please send in your order today. If you wish us to hold Plants for later shipment, we will do so.

Clematis

Paniculata. (Sweet-scented Japan Clematis.) One of the finest hardy climbers. Of rapid growth, quickly covering trellises and arbors with handsome, clean, glossy green foliage. Flowers of medium size, pure white, borne in immense sheets; of a most delicious and penetrating fragrance. The flowers appear in late Summer at a time when few other vines are in bloom. Strong, 2-year-old roots, 35c. each.

Jackmani. Flowers dark, rich, royal purple; very free bloomer; best known and most popular. Strong, 2-year-old roots, 50c. each.

Henryii. Best single-flowering white. Robust habit, fine bloomer; large, finely formed flowers; very hardy. Strong, 3-year-old roots, 50c. each.

New Red Clematis. (Mad. Edouard Andre). Strong, vigorous grower, being a hybrid of the popular Jackmani. Thousands of flowers produced on a single specimen plant; blooms of large size; color a most distinct, striking carmine red. Strong, 3-year-old roots, 50c.

Standishe. Most exquisite lavender-blue of large size, often measuring 6 inches across. Thousands of flowers may be produced on a single plant. Strong, 3-year-old roots, 50c. each.

The Wonderful Japanese Kudzu Vine

If you wish a vine that will grow anywhere, in the best and poorest soil, try the Japanese Kudzu. It will flourish where nothing else will grow, and will last for twenty-five years or more. This vine has been given much notice of late on account of its enormous annual growth.

Shoots of 50 feet in a season are not at all uncommon. It is such a rapid grower that it must have lots of room. What it wants is a pergola, or something on which it can entwine itself to reach the top of a tall building or tree; it wants no enticement to make more growth than any other vine in cultivation. The foliage is not unlike that of the Lima Bean, but it belongs to the family of Wistarias, and, like those vines, has racemes of flowers 6 to 8 inches in length; the blossoms are purplish rose colored and fragrant. But instead of the racemes drooping, as they do in Wistaria, they are erect. The plant when in bloom, continues to flower for about six weeks, when grown to something overhead, such as a pergola, the flowers are free to the vision, but when growing to a tree, or similar object, the growth is so rapid as to overlap the blooms, and one sometimes does not know the vine is flowering till admonished to look for the flowers by the odor when passing, or those that have fallen. It is a most useful vine because of its rapid growth, and one which may be considered quite hardy, as, no matter if its shoots are hurt by cold, it springs up and grows like magic as the season opens. Strong, well started plants, each 15c.; or 2 for 25c.; doz. \$1.30.

Chinese Wistaria

Perfectly Hardy; Strikingly Beautiful

One of the most elegant and rapid growing of all climbing plants; attains an immense size, growing at the rate of 15 to 20 feet in a single season. Bears an abundance of long, pendulous clusters of purple-lilac flowers in May and June and again in Autumn. Large, 2-year-old plants, 35c. each.

Matrimony Vine

A most vigorous, hardy, climbing plant, with purple flowers, which are succeeded by beautiful scarlet berries nearly an inch long. Each, 25c. postpaid.

Wonderful Japanese Kudzu Vine

Blackberry, Eldorado

Blackberries

Eldorado. Fruit large and of exceptional quality and productiveness. Late. 10c. each or 60c. doz., postpaid.

Erie. One of the largest; thrifty, hardy and productive. Fruit jet black. 10c. each, or 75c. doz. postpaid.

Ward. The best fruit; is very large; jet black and of excellent quality. Plant productive and entirely free from rust. 10c. each, or 60c. doz., postpaid.

Dewberry, Lucretia.

Dewberry

New Lucretia. Sometimes called creeping blackberry. Very hardy. Ripens ahead of any of the blackberries. Fruit 1½ inches long; sweet and melting. 10c. each, 75c. doz. postpaid.

Currants

Perfection Currant

Perfection. Color a beautiful bright red; a great bearer, with rich subacid flavor; plenty of pulp and few seeds. Best Currant lately introduced. 20c. each, or \$1.75 doz., postpaid.

New Cherry. A prolific and profitable market currant, with large red berry; the handsomest of all currants. Very desirable for jelly-making purposes. 15c. each, or \$1.25 doz., postpaid.

White Grape. Bears large clusters of yellowish white currants. Excellent quality and prolific. 15c. each, or \$1.25 doz., postpaid.

Black Champion. The leading tested black Currant. The berry and bunch are very large and of most excellent quality. 15c. each, or \$1.25 doz., postpaid.

Rocky Mountain Cherry

Grapes

Campbell's Early. The berries are large, often an inch or more in diameter, glossy black with a purple bloom, sweet and juicy with few seeds. Price, strong plants, 20c. each; or \$1.75 doz. postpaid.

Moore's Early. The bunch is large, round and with a black-blue bloom. In quality surpassing the Concord. Price, strong plants, 15c. each, \$1.25 doz. postpaid.

Concord. The well-known standard black-blue variety. It succeeds wherever Grapes are grown. Price, strong plants, 15c. each, or \$1.25 doz., postpaid.

McFike. The perfection of grapes. Superior sort. Black. Price, strong plants, 20c. each, or \$1.75 doz., postpaid.

Niagara. The profitable standard white market grape. Price, strong plants, 20c. each, or \$1.75 doz., postpaid.

Worden. A large grape of the Concord type, but 5 to 10 days earlier. Price, strong plants, 15c. each, or \$1.25 doz., postpaid.

Gooseberries

Price plants, 25c. each; or \$2.50 doz., postpaid.

Downing. One of the best. Fruits large, pale green and of excellent quality. A reliable cropper and profitable market berry.

Industry. The best English Gooseberry yet introduced. Large, dark red, fine flavor.

Red Jacket. Splendid sort. Sure cropper and immense yielder. An American sort, adapted to this climate. Color bright red.

Campbell's Early Grape

Rocky Mountain Cherry

One of the greatest novelties in the fruit line ever introduced. It bears every year and is as prolific as a currant bush. The fruit is a rich red and changes to almost black when ripe, of good size, fine flavor and unsurpassed for preserves or eatings from the hand; season of ripening being after all others are gone. In flavor, is akin to sweetest cherries. 15c. each, 3 for 35c., postpaid.

Downing Gooseberry

The Best Strawberry Plants

Our plants are all strong, vigorous stock, and cultivated entirely for the production of plants. Carefully graded, handled and packed and certain to give satisfaction.

Notice. All varieties marked (S) are Staminate, Perfect Flowering and Bi-Sexual Varieties.

All varieties marked (P) are Pistillate and destitute of Stamens.

Therefore, when planting varieties marked (P) it will be necessary to have every third row a Perfect Flowering or (S) variety to properly fertilize the bed. Much finer fruit will be obtained by so doing.

When We Ship Strawberry Plants. In this locality Strawberry Plants are ready for shipment the latter part of March and in April. We can also make Fall shipments the latter part of September and in October. **Be sure to state the exact date you want your plants shipped when ordering.** Otherwise we will use our best judgment.

New Strawberries

Any of the following excellent varieties, postpaid by mail, doz. 27c.; 100—83c.; not prepaid, 100—59c.; 1000—\$4.97.

Chesapeake. (P) One of the best late varieties in cultivation. Uniform, medium sized berries.

French Everbearing. (S) Medium early, fruit good size; color rich, glossy red; hardy; abundant and continuous bearer.

Fondall. (P) Medium early. Unexcelled for productiveness, beauty, symmetry of form and quality; fruit large, bright red; sweet and delicious.

Great Northern. (S) Extra early; healthy grower; great yield; berries large size.

Great Ruby. (P) Very early; fine shape, size and color; rich flavor and prolific.

Heritage. (S) Largest berry on earth; very productive; fruit dark, lustrous shade of crimson; fine sweet flavor; excellent for market or canning.

Highland. (P) Great money-maker; second early, large fruited variety; bright scarlet color; enormous cropper; vigorous grower.

Longfellow. (S) Medium early; a new large sweet and most delicious berry.

Miller. (S) Medium to late; one of the most popular berries for the family garden; large conical form; dark red.

President. (P) Mid-season to late; a famous variety; large size; uniform shape; rich crimson color; firm and solid.

Pride of Michigan. (S) Best late; large fruited, very thick meated, rich red variety; uniformly smooth; delicious flavor; fine canner; ideal shipper.

Rough Elder. (S) Main crop; berries very large; color rich, dark red; enormously productive and hardy.

Great Northern

Standard Strawberries

Any of the following varieties postpaid by mail, 25c. a doz., 75c. per 100. Not prepaid, 100—55c.; 1000—\$3.35.

Early Varieties

Bederwood. (S) Bright scarlet. **Climax. (S)** Large, uniform, good color; fine flavor.

Crescent. (P) Berry large; color good; very productive. **Michel's Early. (S)** Very productive.

Mid-Season Varieties.

Auto. (P) A new variety of strictly high dessert quality. A strong grower on sandy and light soils.

Buback. (P) Well known, popular sort; Famous berry for table and market; heavy cropper.

Challenge. (S) Splendid large new berry; dark red; extra fine.

Clyde. (S) Very productive; fine large, dark red; extra fine.

Glen Mary. (S) Large, bright red berries; very firm. A fine market sort.

Joe. (P) Very large, medium red, good quality.

Nick Ohmer. (S) Dark, glossy red; excellent flavor.

Senator Dunlap. (S) Large attractive fruit. Medium early. Plants of vigorous growth.

Sample. (P) Large size, conical in shape, regular form. Gives the best of satisfaction in all sections.

Sharpless. (P) Very large; shape irregular.

Wm. Belt. (S) Brilliant glossy red; large. Fine quality.

Late Varieties.

Brandywine. (S) Conical, glossy red; very firm

Commonwealth. (P) A superb berry rivalling the Chesapeake for quality. Most productive of the very late sorts.

Gandy. (S) Large, bright red berries. Very late. Extensively planted for market purposes.

Longfellow

President

Senator Dunlap

POT GROWN STRAWBERRY PLANTS

A Pot Grown Plant
Notice the roots

SET OUT IN SUMMER, WILL BEAR A FULL CROP NEXT SPRING
A saving in time of two years is made by using Pot Grown Plants. Send in your orders for Potted Strawberry Plants at once, so that we can reserve our Best Plants for you and ship as soon as ready.

Our Fancy Potted Plants will be ready on and after July 25, and if set out before Sept. 15, will grow into fine plants and bear a full crop of luscious fruit the next season, gaining two years over the usual way of planting "ground layer" plants, which is certainly worth much more than the slight difference in first cost. We guarantee safe arrival of all plants shipped by express.

NOTICE
Potted Plants are above comparison to the varieties usually sold. These Special Plants are carefully selected and of fine size and color and, best of all, have fine strong roots.

Great Northern—(S)—Extremely early. It is a strong, robust, healthy grower with everlasting foliage and perfect blossoms. Very early to ripen; a great yielder. The berries are of uniform large size, of delicious sweet flavor. Its extreme earliness helps to give it its extra sweetness. Color a most beautiful glowing red. Price by Express, not prepaid, Dozen 56c.; 100—\$3.75; 1000—\$32.50.

Great Ruby—(P)—Very early. Fine shape, size and color; wonderfully prolific; continuous bearer, rich flavor. Price by Express not prepaid, Dozen 56c.; 100—\$3.75; 1000—\$32.50.

French Everbearing St. Joseph—(S)—Medium early. Fruit of good size, color rich, glossy red; berries are firm, very juicy and of a sweet sparkling flavor. The plant is hardy, an abundant and continuous bearer. Price by Express, not prepaid, Dozen 45c.; 100—\$3.00; 1000—\$25.00.

Rough Rider—(S)—Main crop. Enormously productive and hardy. Berries very large, roundish but elongated—somewhat flattened and pointed. Color, rich dark red. The firmest and latest Strawberry. Price by express, not prepaid, Dozen 45c.; 100—\$3.00; 1000—\$25.00.

Golden Queen Raspberry

Raspberries

Columbian. New, dark red color, rich flavor, very large size. An excellent shipper, and the best for canning and drying. Late. 10c. each; 90c. doz., postpaid.

Cuthbert. The most extensively planted Red Raspberry. Fruit bright red, good and very large, bush very vigorous, hardy and prolific. Medium to late. 10c. each; 85c. per doz., postpaid.

Cumberland. New. The largest Black Raspberry known, averaging 7/8 inches in diameter. Good and firm as the Gregg, but the bush is harder. A strong, vigorous grower and wonderfully productive. Midseason. 10c. each; 90c. per doz., postpaid.

Golden Queen. Similar to the Cuthbert (of which it is a seedling), except in color, which is what its name implies. Very large, hardy, vigorous and productive. No garden should be without it. 10c. each; 90c. per doz., postpaid.

Haymaker. Purple cap of large size and superior firmness. Not excelled for home use, marketing or canning. 10c. each; 85c. per doz., postpaid.

Miller. Bright red; large, rich flavor. Early to ripen, fine for market. 10c. each; 75c. per doz., postpaid.

Strawberry Raspberry

Strawberry Raspberry

Tree Strawberry

A very beautiful fruit from Japan. Bush from 18 inches to 2 feet in height, entirely hardy. The berries are larger than the largest Strawberries, bright, shining scarlet. It makes delicious jelly, jam and tarts, having a delicious flavor entirely different from any other fruit. **Price 15c. each; 2 for 25c.; or \$1.00 per dozen, postpaid.**

New Logan Berry

(Blackberry Raspberry)

The fruit is as large as the largest sized Blackberry, of the same form and shape, and the color, when fully ripe, is a dark bright red. It partakes of the flavors of both the Blackberry and Raspberry, having a very mild and pleasant flavor. It is excellent for the table and the seeds are very small and not abundant. The fruit is extremely firm and the vines are enormous bearers. The fruit ripens and is gone before Raspberries and Blackberries become plentiful. Always sells at highest prices. Vines are rust proof and without objectional thorns, and are never attacked by insects. **Price 15c. each; 2 for 25c.; or \$1.00 per dozen, postpaid.**

Improved Russian Mulberry

Improved Russian Mulberry

Fruit larger than Blackberries and of delicious flavor.

Fruit has a fine, aromatic flavor and sub-acid, sweet taste, and is used for dessert as we use Raspberries or Blackberries. A beautiful quick growing tree for the lawn; fruit is valuable for table use. **Price, 10c. each, or 3 for 25c., postpaid.**

Compass Cherry

Absolutely Hardy Everywhere. Originator's description: "This Cherry was originated at Springfield, Minn. It is a cross between the Sand Cherry and the Miner Plum. Nearly an inch in diameter, a bright red, sweet and juicy and of very fine flavor. The original tree bore fruit the third year from the seed and has borne a full crop every year since. The tree is a regular and heavy bearer, and produces fruit the next year after setting out. For exposed situations and for the North and West it is the "Cherry." Requires no protection whatever and is in every particular as **Hardy as an Oak.** Mail size, postpaid, each 25c.; 6 for \$1.00.

St. Regis Everbearing Raspberry

This New Berry Bears Fruit Perpetually for Four Months

This variety has been aptly termed, "the early 'till late variety" for it is the first Red Raspberry to give ripe fruit, while it continues to produce berries without intermission until late in October. Moreover, they are not only Raspberries, but Raspberries of the very **highest grade—in size, in brilliant crimson color, in firmness, in flavor; rich, sugary.** They are of exceedingly meaty, firm texture, and keep in a good condition longer, after being gathered, than any other Red Raspberry. As a shipper it is unexcelled. St. Regis is of pure American blood and of iron-clad hardihood; the canes enduring the severest cold uninjured and are wonderfully prolific. All things considered, this is one of the very greatest fruit novelties of our generation. Unlike other so-called Everbearing Raspberries, which fruit only in early summer, and a little in late fall when weather conditions are favorable, St. Regis is a perpetual bearer at all times and under all conditions. **Fine, strong, selected plants, each 15c.; or \$1.50 per dozen, postpaid.**

BEST
LOWEST PRICES
SEEDS

Poultry Foods

Shipped by Express or Freight, not prepaid.

Chick Feed. A perfect food for young growing chicks, composed of various kinds of grains, grits and other nutritive foods, making it the most complete and cleanest chick feed on the market. Price per 25 lb bag, 60c.; 50 lb \$1.00; 100 lb \$1.95.

Poultry or Scratch Feed. Carefully selected and graded, properly proportioned and the best all around poultry food and scratching feed. 25 lb 50c.; 50 lb 90c.; 100 lb \$1.75.

Alfalfa Clover Meal. This is the latest and best food for all kinds of poultry. It is alfalfa, pure as can be had, finely ground, and should be mixed with other kinds of feeds, and being light, it makes very nutritious food and is also a great egg producer. 25 lb 65c.; 50 lb \$1.05; 100 lb \$1.95.

Cracked Kaffir Corn. This is probably one of the best, as well as the cheapest, food for hens, chickens or pigeons, and is fast taking the place of other grains

for poultry food. Try it. 25 lb 60c.; 50 lb \$1.00; 100 lb \$1.85.

Granulated Bone. Fresh, cracked bone, without any meat, will keep for any length of time. Should always be kept in a box where the hens can get it. 25 lb 75c.; 50 lb \$1.30; 100 lb \$2.45.

Cracked Charcoal. To keep fowls in a healthy state a regulator of some kind must be fed. Nothing takes the place of Charcoal in this respect, as it purifies the blood, aids digestion and tones up the whole system. No matter whether your fowls are young or old, give them an occasional feed of Charcoal. 25 lb 75c.; 50 lb \$1.25; 100 lb \$1.90.

Special Poultry Grit. Acts as a tonic and contributes largely to the health and productive power of the fowl. 25 lb 30c.; 50 lb 50c.; 100 lb 75c.

Crushed Oyster Shell. The most frequent cause of hens not laying is the absence in the food of carbonate of lime. As crushed oyster shell is practically pure carbonate of lime, it supplies, when fed to poultry, this most essential element. 25 lb 25c.; 50 lb 40c.; 100 lb 72c.

Rockford Unexcelled Fertilizer for the Lawn

A perfect dressing for all lawns, producing a rich green color, thrifty and vigorous growth throughout the entire season. It does the work of twenty times its weight of barnyard manure. Does it better, quicker and cheaper and lasts longer. Does not disfigure your lawn with an unsightly ill-smelling mass. Contains no weed seeds. Is easily applied.

Directions for use. The first application should be made early in the Spring, as soon as the frost is out of the ground, at the rate of 25 pounds of fertilizer to every 1,000 square feet of lawn, evenly distributed. For seeding down a lawn scatter double the amount, say 50 pounds of fertilizer, broadcast on every 1,000 square feet, and rake it in thoroughly before sowing the seed. Price, postpaid, lb. 20c.; by express or freight, not prepaid, 5 lbs. 30c.; 10 lb. 50c.; 25 lb. \$1.00; 50 lb. \$1.50; 100 lb. \$2.75.

Bone Flour

One of the best fertilizers known. As a lawn dresser it is unsurpassed. Should be applied at the rate of one pound to fifty square feet of lawn. An excellent fertilizer of all house plants and garden truck. Postpaid, lb. 20c.; by express or freight, not prepaid, 5 lb. 30c.; 50 lbs. \$1.75; 100 lbs. \$3.00.

The special advantage of this over all other weeders of this class is that it has a band which passes over the fingers, which, when the tool is not in use, gives full use to the hand for pulling weeds and thinning out plants without laying down the tool. It is neatly and strongly made.

Hammond's Slug Shot

Sure to destroy Potato Bugs and those on Tomatoes and Egg Plants, Currant Worms, Cabbage Lice and Worms, Fleas, Beetles and Striped Bugs on Melons, Turnips, Beets, Onions, etc. Also a preventative of the rose bug and cut worm. Use in the morning while the dew is on. postpaid, lb. 15c.; by express or freight, 5 lb. 30c.; 10 lb. 50c.; 100 lb. \$4.25; 1000 lbs. \$40.00.

XX Insect Soap

For House and Garden Plants. A wonderful insect pest exterminator and unsurpassed for use on all plants and flowers in and out of doors. It is harmless and non-injurious to the tenderest growth and can be used with perfect safety on all plants. It also acts as a valuable fertilizer in reviving and giving new life to partly diseased plants, prevents leaves from dropping and foliage turning yellow. It is odorless, clean and easy to handle—a small piece dissolved in lukewarm water, and stirred well until it suds then applied to plants, either with a spray, or washed well with a soft sponge, is all that is necessary. It is a wonderful invigorator, producing luxuriant, healthy growth and more brilliant flowers. Price, 4 oz. package, sufficient for two gallons prepared solution, mailed postpaid for 25c.

Tobacco Dust

One of the best remedies for green and black aphids, fleas, beetles, etc. Lb. 25c.; postpaid.

Plant Sprinkler

For sprinkling cut flowers, seedlings, plants, clothes, etc. They are made of very best grade of rubber and are very desirable. Straight Neck, 90c.; Crook Neck, \$1.00, postpaid.

FREE Complete Illustrated Catalogue of all Farm and Garden Tools at bargain prices. If you need tools of any description, send for copy of this Book and save money.

Early Single Tulips, Good Mixed. 3c. each; 19c. doz.; \$1.27 per 100.

Parrot Tulips

The largest Tulips grown. Flowers late (about May) and have immense attractive flowers of fine and varied colors.

Choicest Mixed, 3c. each; 19c. doz.; \$1.05 per 100

Pottebaker Tulips

Especially adapted for bedding purposes, as these sorts make a mass of beautiful color.

White, 3c. each; 27c. doz.; \$1.94 per 100

Yellow, 3c. each; 29c. doz.; \$2.15 per 100

Scarlet, 4c. each; 32c. doz.; \$2.29 per 100

Late or May Flowering Tulips

Come into bloom soon after the early sorts are through flowering.

Choicest Mixed, 3c. each; 22c. doz.; \$1.42 per 100

Star of Bethlehem

(Ornithogalum Arabicum)

A beautiful variety, throwing up a tall spike bearing numerous large, milk-white, star-shaped flowers, with a black center, and having a distinct, aromatic perfume. They are decidedly pretty and interesting when growing in the garden—but are more largely grown for house and window decoration, being of the easiest culture.

Star of Bethlehem Each, 4c.; doz. 50c. postpaid.

NEW

GIANT

HIMALAYA BERRY

THE
GREATEST
FRUIT
INTRODUCED INTO AMERICA
FOR A GENERATION

12 TONS PER ACRE

It is entirely a new kind of Berry-fruit — just as different from anything you have ever seen or tasted as Raspberries, Blackberries or Strawberries are different from one another, and is therefore, in a distinct class by itself. A proper comparison cannot be made between Himalaya Berries and any others grown in this country, either in character, and hardness of plant, or in quality, and abundance of fruit. The berries are black, but are not blackberries. They are borne in enormous clusters, and ripen from time to time all summer, and on in the fall till frost comes. Each berry is an inch long, thick, meaty, melting, sweet, with almost no core, and unusually rich. They need very little sugar in cooking, and do not spoil for many days after they are ripe when left hanging on the vine. They will stand long-distance shipping and much handling without loss of fine flavor and appearance. The sprouts do not come up from the ground as blackberries do, but all start from one root. When a year old and afterward, the canes send out fruit laterals which get to be sixteen to forty feet long, and upon these are borne the enormous crops. The berries are clustered on the outside of the bush, not in among briars, where they would be hard to pick. Plants are as hardy as an oak. No temperature in North America will hurt them in the least, and hot, dry weather does little else than make them thrive. If the soil is kept moist, the hotter the sun shines the faster they grow.

Price, Strong Plants, each
18c; 3 for 45c; doz. \$1.35,
postpaid.

BURBANKS PHENOMENAL BERRY

THE LARGEST BERRY EVER KNOWN

Originated by Luther Burbank.

"The greatest wonder of all." It tastes and looks like both the Raspberry and Blackberry. It is one of the most remarkable of all new fruits seen during this generation. A berry of sterling worth in every particular. It has a bright crimson Raspberry color, is as productive as could be desired, and the most delicious of all berries for canning and drying. The berries growing in clusters of 5 or 10 or more each, and the individual berries measure 3 inches around one way, by 4 inches the other way, and weigh one-quarter ounce each. The plants are very hardy, thrifty and easily grown. Half a dozen plants in the garden or back yard will furnish an abundant supply of choice berries throughout June and July.

Price 15c each, or \$1.00 per dozen postpaid.
